Continuing Education

Fourteen hours of continuing education may be counted by Licensed Mental Health Professionals , EMS Providers. and law enforcement.

Crisis Incident Stress Management (CISM)

What is a Critical Incident?

A critical incident is any situation faced by emergency personnel causing unusually strong emotional reactions, which have the potential to interfere with their ability to function during or after the event.

Examples of critical incidents addressed by the Nebraska CISM Program include:

* Suicide of a first responder
* Line of duty death or serious injury of a first responder
* Injury to or death of a child
* Mass-casualty incident
* Natural disaster causing death and/or serious injury

What is Critical Incident Stress Management?

CISM is a comprehensive service designed to assist emergency responders who have experienced unusual stress related to their work. CISM is interested in promoting a helpful response throughout the entire range of a crisis experience including: the pre-crisis, acute crisis and post-crisis phases. Within the CISM program are seven core functions of response.
