471-000-518Nebraska Medicaid Practitioner Fee Schedule for Physician Services

CPT codes, descriptions and other data only are copyright 2014 American Medical Association (or such other date of publication of CPT).All Rights Reserved. Applicable FARS/DRARS Apply.

For CPT procedure code descriptions, refer to the most recently published edition of the American Medical Association's Current Procedural Terminology (CPT).CPT procedure code manuals are available through private vendors.

HCPCS procedure codes are defined by the Centers for Medicare and Medicaid Services (CMS).For HCPCS procedure code definitions, refer to the CMS website at http://www.cms.hhs.gov.HCPCS procedure code manuals are also available through private vendors.

TO DETERMINE THE FEE SCHEDULE ALLOWABLE:

1. LOCATE THE PROCEDURE CODE. Procedure codes are listed numerically. The online PDF format has a search feature which will bring you directly to the code you wish to view.

   The dollar amount listed is the fee schedule allowable. No further calculations are required.

2. PAYMENT IS THE LOWER OF THE FEE SCHEDULE ALLOWABLE OR THE PROVIDER'S SUBMITTED CHARGE. The provider's submitted charge must reflect their charge to the general public.

3. SPECIAL PRICING.

   A. "BR" (By Report):Procedures denoted BR (by report) in the unit value column indicate a variance in procedure too great to establish a relative value. These procedures must be justified by submitting a report, that references the procedure, when submitting claims. Those claims that include a supply must also have an invoice for the supply. Upon review, reimbursement is paid at a reasonable rate.

   B. "RNE" (Relative Value Not Established):Procedures denoted "RNE" in the unit value column indicates a procedure which is new or uncommon. These procedures must be justified by submitting a report with the claim that references the procedure. Upon review, reimbursement is paid at a reasonable rate.

   C. "IC" (Invoice Cost) - Paid at invoice cost. An invoice copy must be submitted. When billing for supplies used during the course of a clinic visit, all HCPCS codes require an invoice. If the invoice includes several items, circle the item you are billing for. Some of these services may also have an associated maximum allowable and will be reimbursed at the lower of invoice cost or maximum allowable.

MEDICAL RECORD DOCUMENTATION:

1. Modifiers requiring documentation

   A. 21 – This is appropriate only for the highest level E/M service in a given category. Medical record documentation required to support prolonged or otherwise greater than usually required activity for the service.
   B. 22 – To be added to non E/M services only to identify a service substantially greater than typically required. Operative/procedural report required to support additional work and reason for the additional work.
   C. 52 – Operative/procedural report required to support reduced services unless the procedure code/modifier combination is described in the CPT manual (e.g. bilateral procedure, if only 1 organ done, use 52 modifier) and procedure code/modifier combination already is on the fee schedule with pricing.
   D. 62 – Requires operative report by the surgeon whose services are being billed for. See specific procedure code/modifier combination for further information.
   E. 63 – Requires documentation of infant's weight. See specific procedure code/modifier combination for further information.

2. Other documentation requirements

   A. All unlisted procedures require documentation to identify what was done. Usually an operative/procedural report will be adequate documentation.
   B. Billing for 2 visits during one encounter with the same provider (e.g. preventative visit and E/M visit) requires documentation to support significant additional work in addition to the preventative visit.
   C. Hospital rounds are paid once per day unless documentation regarding a change in condition requiring another visit is submitted.
   D. Multiple out patient E/M (office, ER, etc.) visits with same provider/same day; documentation may simply be indication of time of each visit.
   E. Multiple providers in same group following patient in the hospital – would require documentation of different specialties for providers (e.g. pediatric neurologist, pediatric pulmonologist).
   F. The scenarios listed above provide some general guidelines. For specific codes, see the Comments section for any additional information.

3. Paper attachments for electronic claims – claims requiring documentation (medical records, invoices, authorizations, etc.) may be submitted electronically. The Electronic Claim Attachment Control Number Form is to be used for submission of paper attachments for electronic claims. Please see 471-000-87 in the Medicaid Handbook Appendix for the form and instructions. This can be accessed at: http://dhhs.ne.gov/Documents/471-000-87.pdf.
   Electronic Claim Attachment Control Form.pdf

ADDITIONAL FEATURES OF FEE SCHEDULE

1. Indicates coverage of codes. If appropriate, cross reference from a non-covered code to a code that is used for the service.
2. Indicates prior authorization requirements.
3. Specific products are attached to vaccine codes.

Reimbursement for services provided by physicians and non-physician care providers is subject to the site-of-service payment adjustment. NMAP applies a site of service differential that reduces the fee schedule amount for specific CPT/HCPCS codes when the service is provided in the outpatient setting. Based on the Medicare differential, NMAP will reimburse specific CPT/HCPCS codes with adjusted rates based on the site of service.

Questions regarding the Medicaid Practitioner Fee Schedule should be directed to the appropriate Program Specialist or Unit Manager in the Division of Medicaid and Long-Term Care.

Questions regarding status of Medicaid claims should be directed to the Client Payments and Claims Processing Unit - Medicaid Inquiry at (877) 255-3092 or 471-9128 in Lincoln.

The five-digit numeric codes included in the Schedule are obtained from the Physicians' Current Procedural Terminology (CPT), Copyright 2014, by the American Medical Association. CPT is a listing of descriptive terms and numeric identifying codes and modifiers for reporting medical services and procedures performed by physicians. This Schedule includes CPT numeric identifying codes for reporting medical services and procedures, which are copyrighted by the American Medical Association.

The Schedule includes only CPT numeric identifying codes for reporting medical services and procedures that were selected by the Nebraska Department of Health and Human Services, State of Nebraska. Any user of CPT outside the Schedule should refer to the Physicians' Current Procedural Terminology, Copyright 2014.This publication contains the complete and most current listings of descriptive terms and numeric identifying codes and modifiers for reporting medical services and procedures.

No codes, fee schedules, basic unit values, relative value guides, guidelines, conversion factors or scales are included in any part of the Physicians' Current Procedural Terminology, Copyright 2014 by the American Medical Association.

Maximum allowable fees are the exclusive property of the Nebraska Department of Health and Human Services and are not covered by the American Medical Association CPT copyright.

Unit values per Relative Values for Physicians, Copyright 2014, Ingenix, Inc.
