Antimicrobial Resistance Surveillance Monthly Report

NEBRASKA HEALTH AND HUMAN SERVICES SYSTEM

DEPARTMENT OF SERVICES • DEPARTMENT OF REGULATION AND LICENSURE • DEPARTMENT OF FINANCE AND SUPPORT

Name of Hospital/Laboratory:		
Address:		
Phone #:	Fax #:	E-mail address:
Reported by (please indicate name and official designation of person reporting): ❑ Laboratory supervisor _____ ❑ Other _____		
Surveillance period: Month (1st to last day)		Year
Reported for county/region:		
Date submitted report: (mm/dd/yyyy)		

Please complete the following tables (include isolates from all body sites).

1) ***Streptococcus pneumoniae*, penicillin-intermediate and penicillin-resistant**

NCCLS interpretive standards:

Resistant: MIC >= 2.0 µg/mL
Intermediate: MIC = 0.12-1.0 µg/mL
Susceptible: MIC <= 0.06 µg/mL

	No. of isolates
Penicillin-resistant *S. pneumoniae*	
Penicillin-intermediate *S. pneumoniae*	
Total *S. pneumoniae* tested for susceptibility to penicillin	

2) ***Enterococcus* spp., vancomycin-resistant (VRE) and vancomycin-intermediate**

NCCLS interpretive standards:

Resistant: MIC >= 32 µg/mL and/or resistant by disk diffusion
Intermediate: MIC = 8-16 µg/mL
Susceptible: MIC <= 4 µg/mL

	No. of isolates
VRE	
Vancomycin-intermediate *Enterococcus* spp.	
Total *Enterococcus* spp. tested for susceptibility to vancomycin	

3) ***Staphylococcus aureus*, methicillin-resistant (MRSA)**

NCCLS interpretive standards to oxacillin:

Resistant: MIC >= 4 µg/mL and/or resistant by disk diffusion
Susceptible: MIC <= 2 µg/mL

	No. of isolates
MRSA	
Total *S. aureus* tested for susceptibility to oxacillin	

4) ***S. aureus*, vancomycin-intermediate/resistant (VISA/VRSA)***

NCCLS interpretive standards:

Intermediate/Resistant: MIC > 4 µg/mL
Susceptible: MIC<=4 µg/mL

	No. of isolates
VISA/VRSA	

* Report immediately
