

ADDENDUM 1

Request For Applications - Update

Date: January 18, 2024

To: All Applicants

RE: Addendum for Request for Applications Number 6032, due February 19, 2024

RFA Language Update

Following are updates to the above-mentioned Request for Applications. It is the Applicant's responsibility to check the DHHS website for all addenda or amendments.

1. Project Description: 2.4.2 Reporting Requirements is amended to read:

Awardees must submit the grant year-end Consolidated Annual Performance Evaluation Report (CAPER) in the manner determined by HUD. The due date for the grant year-end CAPER report must be uploaded into HUD's Sage HMIS Reporting Repository no later than July 31, 2025. No extensions will be granted so that NHAP can meet its year-end federal reporting requirements. Awardees should collaborate with their CoC lead to ensure the reporting deadline is not missed. In all cases, Awardees should intend to communicate with NHAP regarding any foreseeable issues. Additional information and instructions regarding the grant year-end CAPER will be communicated from NHAP in advance by email.

This addendum will become part of the Application and should be acknowledged with the Request for Applications response.
