
NFOCUS Major Release

Economic Assistance

August 12, 2018

A Major Release of the NFOCUS system is being implemented August 12, 2018. This document provides information explaining new functionality, enhancements and problem resolutions made effective with this release. This document is divided into four main sections:

General Interest and Mainframe Topics: All NFOCUS users should read this section.

Electronic Application: NFOCUS users responsible for case activity received through the Web based Electronic Application should read this section.

Developmental Disabilities Programs: NFOCUS users who work directly with DD programs and those who work with the related Medicaid cases should read this section.

Note: This section will only appear when there are tips, enhancements or fixes specific to Development Disabilities Programs.

Expert System: All NFOCUS users with responsibility for case entry for AABD, ADC Payment, SNAP, CC, FW, I L, MED, and Retro MED should read this section.

Note: When new functionality is added to NFOCUS that crosses multiple topics (ie General Interest and Mainframe, Alerts, Correspondence, Expert System etc) the functionality will be described in one primary location. This location will usually be the General Interest and Mainframe section or the Expert System section. Alerts, Work Tasks and Correspondence that are part of the new functionality will be documented in both the primary location that describes the entire process and in the Alerts, Work Tasks and Correspondence sections.

Master Client Index MCI – New

Note that this functionality was delayed from the April release.

Medicaid eligibility is in the process of being moved from NFOCUS to NTRAC. As part of this change, the Master Client Index (MCI) will maintain person data from both systems. The Master Client Index (MCI) data will be synchronized between NFOCUS and NTRAC to streamline the data management (create, update, merge & discontinue) processes between Medicaid and non-Medicaid Programs.

To create the MCI, the data synchronization process uses certain attributes of client information (person demographic data) such as first and last names, date of birth, gender, SSN, etc. It reduces the potential to create duplicate records, makes it easier to manage a person's information, and allows DHHS to integrate programs on an enterprise level.

Having the people linked in both systems allows for the daily interface between NFOCUS and NTRAC to pass eligibility information back and forth for an individual.

The MCI Implementation will be handled in two phases. The first phase is the integration of NFOCUS with MCI. The second phase of the MCI implementation will be the integration of NTRAC with the MCI.

NFOCUS Production Support Hours

NFOCUS Production Support Hours are from 7:00 AM (CST) until 5:30 (CST). We have staff meeting every Wednesday morning from 8:00 until 10:00. During this time you may leave a voice mail or send in an e-mail.

Please leave your BF Number, Master Case Number and your name and phone number in your message.

If you have a Case Error and do not want to wait on the phone you can send an e-mail to our production support mailbox.

Please put the MC number, your BF number and you logon ID in the e-mail and send it to DHHS NFOCUS Production Support DHHS.NFOCUSProductionSupport@nebraska.gov.

You will then receive an Instant Message when the case has been reset and you must open the Master Case to the navigator window before you check the case in. This will reset any triggers that were created before the error.

Add Person (Change)

An NFOCUS person ID can be entered on the Add Person window. The out select arrow is then enabled and the person's details are pulled back into the window. This saves the user from having to reenter the details when the person is known to exist on NFOCUS.

Ending Pregnancy (Change)

Ending a pregnancy due to birth will now take the worker through the person clearance process.

The Resolve Modified Person window will open if potential matches are found. The user can Accept Changes or Reject Changes. The purpose is to identify duplicate people.

Call Production Support if a duplicate is identified.

Address (Change)

When a person has both a Physical Address and a Mailing Address and the Physical Address is changed but the Mailing Address is not changed, a window will pop up saying 'You have updated the physical address. Check the mailing address to determine if it needs to be changed'.

Workers should update the Mailing Address if necessary.

This reminder does not apply to Organization address changes.

The screenshot displays the 'Address (Change)' window in N-FOCUS. At the top, it shows 'Address of: PERSON' and radio buttons for 'Physical Address' (selected), 'Mailing Address', and 'E-Mail Only'. An 'UPDATE' button is in the top right. The main form contains fields for 'Number' (19959), 'Direction' (a dropdown), 'Street Name' (ODESSA), 'Type' (ST), and 'Postdirection' (a dropdown). Below these are 'Unit Type', 'Unit Number', 'City' (LINCOLN), 'State' (NE), and 'Zip Code' (68502). A 'Client Preferences History' sidebar on the right lists options like 'E-Mail Address...', 'Directions...', and 'NTRAC Address...'. A pop-up window titled 'N-FOCUS - Information' is centered over the form, displaying an information icon and the message: 'NFO2611C - You have updated the physical address. Check the mailing address to determine if it needs to be changed.' Below the pop-up, the 'Physical Address' and 'Mailing Address' sections are visible. The Physical Address is 'NICCO ASHLEY, 19959 ODESSA ST, LINCOLN NE 68502'. The Mailing Address is 'NICCO ASHLEY, PO BOX 999, LINCOLN NE 68508'. At the bottom, there are 'OK', 'Cancel', and 'Help' buttons. The status bar at the bottom right shows 'N-FOCUS - Test Date' and '06-18-2018 14:19'.

Pre-Print Claims Schedule (Update)

The following provides information regarding the Pre-Print Claims Schedule:

Occurrence Related

- This file is for one time related providers such as EF, EA, etc. that are providing occurrence related services. This file is sent to OnBase nightly.

Weekly

- This file will run every Friday and extract any authorizations that were created for the following Monday through Sunday.

Semi-Monthly

- This file runs on the 1st and 16th of each month.
 - The run on the 1st extracts authorizations created for the 1st through the 15th of the month.
 - The run on the 16th extracts authorizations for the 16th through the end of the month.

Note: If the authorization is created in the current month the claim lines will run with nightly batch process.

Example: Authorization created on 7/7/15. The file will run that night and within the 48 hours the claim line for the first half of July would be online. The second half will be sent on the 16th. If the authorization is created on 7/20/15 the file will run that night and within 48 hours there should be 2 claim lines on the portal for the 1st and 2nd half of the month.

Monthly

- This file will run on the 25th of the month and the end of the month (last working day).
 - The 25th extract will pick up authorizations that were created between the 1st and 25th.
 - The end of the month run will pick up any authorizations created from the 26th to the last day of the month.

Note: If any of the scheduled dates is a holiday the job will run the day prior.

In order to change from MONTHLY to SEMI-MONTHLY it's best to wait and do this the 28th-the end of the month. If you change a provider from MONTHLY to SEMI-MONTHLY before the 27th, they won't get their Monthly claim line for that month because Monthly claim lines look back at the month. Semi-Monthly claim lines look forward and you will miss out on either the first or the second half of the month, depending on when the Resource Development worker makes the change.

Example: If the change from Monthly to Semi-Monthly happens on the 17th then you will miss the Monthly claim line, as well as the Semi Monthly claim line that would have went over on the 16th.

Post Print Process

The Post Print Process looks 6 months back from the current date.

Weekly Claims – The file will run every Friday and extract any authorizations that were created for the following Monday through Sunday.

If the worker missed the Friday before cut off for that week and the worker waited till the day of the service to make the service authorization, there is a post print process that would have gone back and picked up the service authorization and made a claim for the portal.

If the worker missed the Friday before cutoff for the weekly claim and makes the service authorization before the service, the claim falls into a “black hole” and the claim will never go to the portal.

Example:

Service for 6/1

- If worker made a service authorization on 5/25 or before, then the service authorization would go to the provider portal.
- If worker made the service authorization on 6/1 or after, then the service authorization would go to the provider portal.
- If the worker made the service authorization on 5/28-5/31 then that is the “black hole” and the claim will not go to the provider portal and paper billing will need to be done.

Expert System

SNAP Work Registration Exemptions (Change)

SNAP policy has identified the Work Registration (WR) exemption reason of 'Exempt for ABAWD' as being an invalid reason to use, and this reason has been removed from the selection list, however, as this reason has historically been used, there are persons in NFOCUS who are identified with this exemption reason.

If a person in the SNAP program case is currently recorded with a WR Exemption Reason of 'Exempt for ABAWD', upon entering the Work Registration task, the following ReadMe window will be presented.

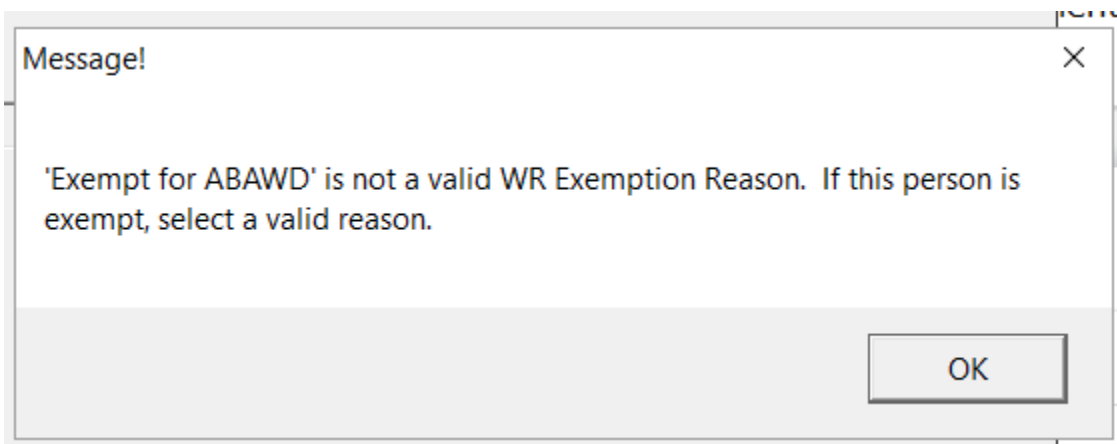

The Worker should select the 'Current' tab to move to the 'update' mode (as shown in following window).

The Worker should review the case to determine if Status should be updated to ‘Mandatory’ for each person who has the current WR Exemption Reason of ‘Exempt for ABAWD’, or if the person can be qualified for an alternate WR Exemption Reason.

If a new exemption reason should be entered, the worker will need to be sure to update the ‘Begin Date’ for the new exemption reason to ensure that history of exemption reasons is maintained.

If the worker clicks the Cancel button, you will be returned to the main Work Registration task window and the Red X remains in place. The Red X prevents budgeting of SNAP due to a Mandatory Task not having been completed.

If the worker clicks ‘OK’ without changing the ‘WR Exemption Reason:’ the following message is displayed.

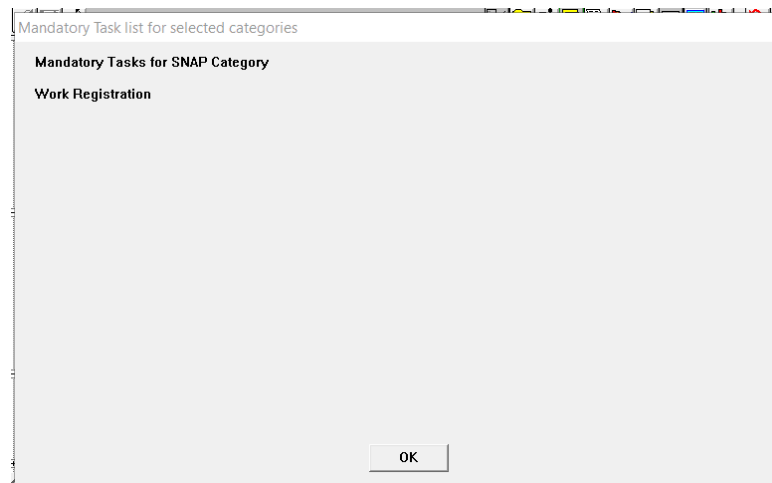

Upon clicking ‘OK’ on the message, you will be returned to the ‘Update Work Registration/E&T/Student/ABAWD’ window to make needed updates to the Work Registration status, or to the appropriate WR Exemption Reason.

If no changes are made in the 'Update Work Registration/E&T/Student/ABAWD' window, the worker will be presented with the below message upon attempting to run SNAP budgeting:

Benefit Month : 06-2018 Budgeting							
CASE CATEGORY			STATUS				
PC Last Name	PC First Name	Program	Asst Cd	PC Number	PC Status		
GRANT Cases		Budgets ready to process					
JONES	ADAM	ADC		1330051	Pendng		
SNAP Cases		Mandatory tasks not completed					
JONES	ADAM	SNAP		9929453	Active		

The Mandatory Task list for the SNAP program displays indicating that 'Work Registration' has not been completed.

LIHEAP (Change)

During the last energy year, 10/2016-9/2017, Supplemental (contingency) payments were issued 9/20/2017. Payments authorized after 10/1/2017 (e.g., case closed prior to supplemental issuance) could not be processed for the previous energy year, despite selecting that year in the dropdown menu. The logic would change it to the new energy year, 10/2017-9/2018. This required that the case be reopened back to the previous energy year to allow for proper budgeting. This has been corrected so that it can now be processed.

Workers will be able to process LIHEAP Crisis payments as payable to the client when no provider exists.

Workers will be able to process cooling budgets no sooner than April first. A message displays to advise workers of this, and that policy staff will have security to process cooling budgets sooner, as needed.

Updates to Case Information and Accounts/Provider tasks have been made to allow for storing changes in the History tab based on begin date of the changes made in those tasks. Changes have also been made to the main screens for both of these tasks.

ADC now has an end-dated Eligibility Period, and LIHEAP budgets previously included only high-dated grants in the budget. Since that change, ADC grants have not been included in LIHEAP budgets when determining eligibility and benefit amount. LIHEAP will now include ADC grants which are issued in the month LIHEAP eligibility is determined.

Note: Detailed instructions will be provided to LIHEAP workers via Supervisors. Contact LIHEAP Policy for additional details if needed.

ADC Denial Reason Non-Cooperation with EF (Change)

Non-Cooperation with EF will no longer be available in Case Actions if there is a pending person with an active EF sanction 1, 2, 3, or employment first – imposed in participant actions. In Participant Actions, Non-Cooperation with EF will not be available on the pending person who currently has an active EF sanction. All other participants will be have non-cooperation available if that denial is needed.

ADC Living Arrangement for Financially Responsible Parents (Change)

Living arrangement will be required for FR parents in ADC prior to budgeting being allowed. Living arrangement will Red X when case configuration is completed. This will only affect cases that have an FR parent due to legal status or RSDI/SSI AND SNAP or LIHEAP only, no other programs in history.

Child Care Two Applications in Same Month (Change)

Workers will be able to pend a second application in the same month that already had a denial. If the HH requests a prior app withdrawn and then reapplies at a later date in the same month, the new app date will be allowed to be entered. Only two denial reasons will require the original app from that month to be used: failed to provide or failed to complete interview.

NFOCUS Tips

Duplicate Persons in NFOCUS

Duplicate persons continue to be created in the process of creating new Master Cases, adding a person to a Master Case, creating a CHARTS referral, CFS Intakes, and adding an Administrative person (Payee, Authorized Rep, etc). **Duplicating persons creates serious issues that affect your case accuracy.** It becomes even more important to not create duplicate persons with the new Medicaid system Nebraska Timely, Responsive, Accurate, and Customer Service (NTRAC).

NFOCUS was designed so that a person should only be on the system once. Each person should have only one person number. This same person can be in a Master Case, be an Authorized Rep, be in a CHARTS referral, CFS Intake, SDM and be in an Organization. There is no reason for a person to be on the system twice. The person number is found at the bottom of this window.

See Screen Print on next page.

Current Issues:

- Adding a person to the Master Case with the reason of EO (Energy Only)
 - If this person is already in another Master Case then it is an existing person – do not add a new person
- Unborn already on – child is born but pregnancy is not updated and the child is added as a new person
 - If there is already an unborn in the Master Case and a child has been born, update the pregnancy do not add another NFOCUS person.
- No SSN but Name and DOB matches someone already on NFOCUS.
 - More than likely this is the same person.
 - Check the address, Master Cases they have been in, Person Involvement, etc.
- SSN already matches someone on NFOCUS.
 - Do not change the SSN by one number to get it on NFOCUS.
- Not doing a thorough clearance before adding a person to NFOCUS
- Person name misspelled or last name changed

Note: If you have any questions or cannot complete the steps indicated above, contact NFOCUS Production Support.

IMPORTANT: If you created a duplicate person in error or find ones that you think might be duplicates, please contact NFOCUS Production Support so we can correct them.

Person Search

In order to reduce the number of duplicate persons created, please take the following steps before you create a person in NFOCUS:

Use the Person Search to determine if this person is already on NFOCUS

- SSN Search – If you have an SSN, do a search by SSN. If there is no match on SSN, then search by name.
 - Even if you have an SSN it is good to also do a name search to make sure they are not already on without the SSN
 - Person Search defaults to Partial Name search – this search finds all the names with the exact spelling of the last name and first name entered plus additional names that have more letters.
 - If there is a space in the last name or first name and the one entered does not have a space – it will not find this person.

Example: If you enter John Doe – you will get all the John Doe’s plus any John with the last name of Doeden, Doenhoefer, Doerschlag, Doescher, Doeschot, etc.

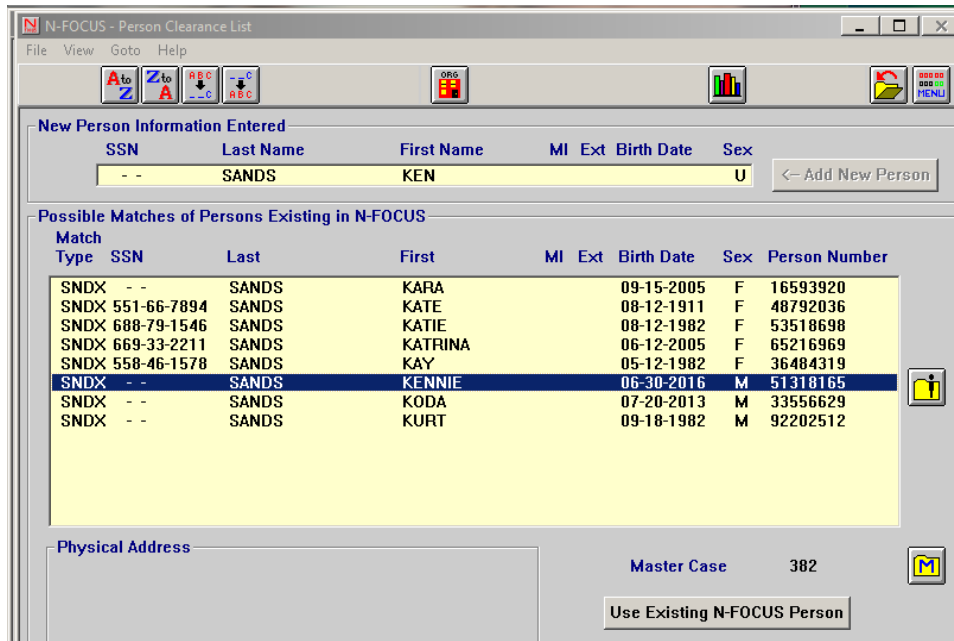

- If you are not sure how to spell the last name such as Johnson or Johnsen then enter johns as the last name and you will get matches for Johns, Johnsen, Johnson, Johnsons and Johnston with the same first name.
- It is also good to check the box ‘Search on Name History’.
- Sometime it is best to enter less to get a broader search.
- Address Search

Clearance Process

The Clearance Process uses soundex to find names that match the name that you entered. Soundex is a phonetic program used by NFOCUS to encode last names by their sound when pronounced in English. (See Help-How Do I for an overview of Soundex.) You will get a lot more possible matches with Soundex.

- If there are over 100 matches you will get a popup that will allow you to filter – by Last Name, First Name, Partial Last Name, Partial First Name or Sex.
- Person Clearance List:
 - Take time to look at the list. From this window you can look at Person Detail, what Master Cases they are in, their address and if they are an Org related person.
 - If a person already on NFOCUS has the same name and date of birth as the person you are entering, it is most likely the same person
 - If it is the same person use the button at the bottom of the window ‘**Use Existing NFOCUS Person**’
 - DO NOT change the SSN by one number to get your person on when you have an SSN match - call NFOCUS Production Support
 - See ‘Help-How Do I’ for complete instructions on the Clearance Process
- **If in doubt if this is the same person, call NFOCUS Production Support**

(See Screen print on the next page)

Administrative Person

- Always check to make sure the person is not already on NFOCUS
- When adding this person you must enter an address

Review HH Status

On Detail Master Case there is an icon to the right of the window in the Master Case Persons box that shows everyone that has been in this Master Case and their current status in the Master Case. Click this button to see everyone who has been in the Master Case before you add a person to the Master Case. They may already be in the Master Case you just need to change their Household status to In Household.
