

471-000-523 Nebraska Medicaid Practitioner Fee Schedule For Speech Pathology and Audiology Services

Payment for services as outlined in this fee schedule shall be made as outlined in 471 NAC 23.

The five-digit numeric codes included in the Schedule are obtained from the Physicians' Current Procedural Terminology (CPT®). CPT® is a listing of descriptive terms and numeric identifying codes and modifiers for reporting medical services and procedures performed by physicians. This Schedule includes CPT® numeric identifying codes for reporting medical services and procedures.

CPT® codes, descriptions, and other data only are copyright 2023 American Medical Association (AMA). All Rights Reserved. CPT® is a registered trademark of the AMA. You, your employees, and agents are authorized to use CPT® only as contained in the following authorized materials internally within your organization within the United States for the sole use by yourself, employees, and agents. Use is limited to use in Medicare, Medicaid, or other programs administered by the Centers for Medicare & Medicaid Services (CMS). Applicable Federal Acquisition Regulation System/Defense Federal Acquisition Regulation Supplement (FARS/DFARS) apply.

The Schedule includes only CPT® numeric identifying codes for reporting medical services and procedures that were selected by the Nebraska Department of Health and Human Services, State of Nebraska. Any user of CPT® outside the Schedule should refer to CPT®. This publication contains the complete and most current listings of descriptive terms and numeric identifying codes and modifiers for reporting medical services and procedures. "MP noted in Medicaid allowable column indicates "manual pricing".

No codes, fee schedules, basic unit values, relative value guides, guidelines, conversion factors or scales are included in any part of CPT®. The AMA assumes no liability for the data contained herein.

Maximum allowable fees are the exclusive property of the Nebraska Department of Health and Human Services and are not covered by the American Medical Association CPT® copyright. Unit values per Relative Values for Physicians, Copyright 2023, Optum360™, LLC

## REQUIREMENTS TO PROVIDE TELEHEALTH SERVICES

### Follow Applicable Laws and Regulations

- Health care practitioners providing telehealth services must follow all applicable state and federal laws and regulations governing their practice and the services they provide.
- The provider must ensure telehealth services can be delivered safely and effectively.

Providers may notice a minor difference between the published payment amount on the fee schedule and the actual payment amount. The payment system uses seven decimal places in the reimbursement calculation, but the fee schedule publishes only the first two decimal places.

- The provider must be enrolled with Nebraska Medicaid and must be licensed in the state of Nebraska.
- All treatments or services submitted for reimbursement must be delivered by existing service definitions.
- All treatments and services are expected to be rendered in a clinically appropriate manner and be medically necessary and/or related to the treatment plan.

### **Keep Required Documentation**

- The provider must obtain informed consent before the initial telehealth visit and annually thereafter. The written consent form becomes a part of the individual's medical record. See 471 NAC 1 § 004.04.
- The medical record for telehealth services must follow all applicable statutes and regulations on documentation. The use of telehealth technology must be documented in the medical record.
- Providers are expected to document the rationale for the delivery of treatment or services through telehealth.
- Providers are expected to have mitigation plans in place and to provide an active and ongoing assessment of their ability to meet patients' most immediate and critical treatment needs.

### **Understand Unique Requirements**

- Any service requiring hands-on interaction to meet the service definition should not be provided through telehealth.
- The location of the telehealth service is identified by the physical location of the individual. Out-of-State telehealth services are covered if the telehealth services otherwise meet the regulatory requirements for payment for services provided outside Nebraska. Coverage includes both when the individual is in Nebraska while the practitioner is in another state and instances in which the individual is in another state, regardless of where the practitioner is located.
- Telehealth services are intended to improve members' access to services by addressing barriers to receiving quality care.

### **Billing Telehealth**

To bill for services administered through telehealth, please use the following Place of Service codes and Modifiers. See 471-1-004 for more information on telehealth.

### **Place of Service Codes**

- Place of Service 02 – use when telehealth is administered while the patient is in a location besides their home.
- Place of Service 10 – use when telehealth is administered while the patient is in their home.

Providers may notice a minor difference between the published payment amount on the fee schedule and the actual payment amount. The payment system uses seven decimal places in the reimbursement calculation, but the fee schedule publishes only the first two decimal places.

### **Modifiers**

- Multiple modifiers can be added to a single CPT code. The payment modifier goes first, followed by any informational modifiers.
- The telehealth modifier is an informational modifier and should be placed after any payment modifier

### **Telehealth Modifiers and Definitions**

93 - Synchronous Telemedicine Service rendered via telephone or other real-time interactive audio-only telecommunications system

95 - Telehealth services are provided in real-time with an audio-visual component

Providers may notice a minor difference between the published payment amount on the fee schedule and the actual payment amount. The payment system uses seven decimal places in the reimbursement calculation, but the fee schedule publishes only the first two decimal places.
