B_State

Number	Indicator	Response
BX.1	Payment risks between the state and plans Describe service-specific or other focused PI activities that the state conducted during the past year in this managed care program. Examples include analyses focused on use of long-term services and supports (LTSS) or prescription drugs or activities that focused on specific payment issues to identify, address, and prevent fraud, waste or abuse. Consider data analytics, reviews of under/overutilization, and other activities.	Nebraska Program Integrity analyzed the dispensing fees paid by the managed care entities to long-term care pharmacies and collected refunds from the MCEs for those paid in excess of the allowable.
BX.2	Contract standard for overpayments Does the state allow plans to retain overpayments, require the return of overpayments, or has established a hybrid system? Select one.	State has established a hybrid system
BX.3	Location of contract provision stating overpayment standard Describe where the overpayment standard in the previous indicator is located in plan contracts, as required by 42 CFR 438.608(d)(1)(i).	UnitedHealthcare Community Plan: 71163(O4) IV.S.13.a HealthyBlue Nebraska: 71164(O4) IV.S.13.a Nebraska Total Care: 71165(O4) IV.S.13.a
BX.4	Description of overpayment contract standard Briefly describe the overpayment standard (for example, details on whether	The MCO has the right to collect or recoup any overpayments identified by the MCO from providers of service in accordance with existing laws or regulations. However, if an overpayment is identified by the State or its

the state allows plans to retain overpayments, requires the plans to return overpayments, or administers a hybrid system) selected in indicator B.X.2.

designee one year or later from the date of payment, the MCO will collect and remit the overpayment to MLTC. In the event the MCO does not collect mispayments from the provider within 30 calendar days of notification of the overpayment, the MCO must refund the overpayment to MLTC. Failure by the MCO to collect an overpayment from a provider does not relieve the MCO from remitting the identified overpayment to MLTC.

BX.5 State overpayment reporting monitoring

Describe how the state monitors plan performance in reporting overpayments to the state, e.g. does the state track compliance with this requirement and/or timeliness of reporting?

The regulations at 438.604(a)(7), 608(a)(2) and 608(a)(3) require plan reporting to the state on various overpayment pieces (whether annually or promptly). This indicator is asking the state how it monitors that reporting.

Currently, the reporting of overpayments is monitored on a case by case basis by the Program Integrity team. The the managed care organization reports a recovery in regular reporting, the assigned Program Integrity investigator verifies the recovery in the encounter data.

BX.6 Changes in beneficiary circumstances

Describe how the state ensures timely and accurate reconciliation of enrollment files between the state and plans to ensure appropriate payments for enrollees experiencing a change in status (e.g., incarcerated, deceased, switching plans).

Changes in beneficiary circumstances are reconciled through regular reporting and recoupment of capitation payments for deceased individuals and ad hoc reporting by the plans for incarcerated or deceased individuals. The state creates the capitation payments based on enrollee selection, so manages plan switches prospectively.

BX.7a Changes in provider circumstances: Monitoring plans

Does the state monitor whether plans report provider "for cause" terminations in a timely manner under 42 CFR 438.608(a)(4)? Select one.

Yes

BX.7b Changes in provider circumstances: Metrics

Does the state use a metric or indicator to assess plan reporting performance? Select one.

No

BX.8a	Federal database checks: Excluded person or entities	No
	<p>During the state's federal database checks, did the state find any person or entity excluded? Select one.</p> <p>Consistent with the requirements at 42 CFR 455.436 and 438.602, the State must confirm the identity and determine the exclusion status of the MCO, PIHP, PAHP, PCCM or PCCM entity, any subcontractor, as well as any person with an ownership or control interest, or who is an agent or managing employee of the MCO, PIHP, PAHP, PCCM or PCCM entity through routine checks of Federal databases.</p>	
BX.9a	Website posting of 5 percent or more ownership control	No
	<p>Does the state post on its website the names of individuals and entities with 5% or more ownership or control interest in MCOs, PIHPs, PAHPs, PCCMs and PCCM entities and subcontractors? Refer to §455.104 and required by 42 CFR 438.602(g)(3).</p>	
BX.10	Periodic audits	N/A
	<p>If the state conducted any audits during the contract year to determine the accuracy, truthfulness, and completeness of the encounter and financial data submitted by the plans, what is the link(s) to the audit results? Refer to 42 CFR 438.602(e).</p>

Number	Indicator	Response
C1III.1	Uses of encounter data For what purposes does the state use encounter data collected from managed care plans (MCPs)? Select one or more. Federal regulations require that states, through their contracts with MCPs, collect and maintain sufficient enrollee encounter data to identify the provider who delivers any item(s) or service(s) to enrollees (42 CFR 438.242(c)(1)).	Rate setting Quality/performance measurement Monitoring and reporting Contract oversight Program integrity Policy making and decision support
C1III.2	Criteria/measures to evaluate MCP performance What types of measures are used by the state to evaluate managed care plan performance in encounter data submission and correction? Select one or more. Federal regulations also require that states validate that submitted enrollee encounter data they receive is a complete and accurate representation of the services provided to enrollees under the contract between the state and the MCO, PIHP, or PAHP. 42 CFR 438.242(d).	Overall data accuracy (as determined through data validation)
C1III.3	Encounter data performance criteria contract language Provide reference(s) to the contract section(s) that describe the criteria by which managed care plan performance on encounter data submission and correction will be measured. Use contract section references, not page numbers.	M5.b.i.-iii.

C1III.4	Financial penalties contract language	V.2.c.
	Provide reference(s) to the contract section(s) that describes any financial penalties the state may impose on plans for the types of failures to meet encounter data submission and quality standards. Use contract section references, not page numbers.	
C1III.5	Incentives for encounter data quality	Quality Performance Measure: Submitted encounters must be accepted 98% or greater by MLTC's Medicaid Management Information System pursuant to MLTC specifications. 15% of payment pool for earn back dollars at the end of each year.
	Describe the types of incentives that may be awarded to managed care plans for encounter data quality. Reply with "N/A" if the plan does not use incentives to award encounter data quality.	
C1III.6	Barriers to collecting/validating encounter data	None
	Describe any barriers to collecting and/or validating managed care plan encounter data that the state has experienced during the reporting period.	

Topic IV. Appeals, State Fair Hearings & Grievances

Number	Indicator	Response
C1IV.1	State's definition of "critical incident," as used for reporting purposes in its MLTSS program	N/A
	If this report is being completed for a managed care program that covers LTSS, what is the definition that the state uses for "critical incidents" within the managed care program? Respond with "N/A" if the managed care program does not cover LTSS.	

C1IV.2	State definition of "timely" resolution for standard appeals	The MCO must resolve each appeal and provide notice, as expeditiously as the member's health condition requires, within 30 calendar days from the day the MCO receives the appeal.
	Provide the state's definition of timely resolution for standard appeals in the managed care program. Per 42 CFR §438.408(b)(2), states must establish a timeframe for timely resolution of standard appeals that is no longer than 30 calendar days from the day the MCO, PIHP or PAHP receives the appeal.	
C1IV.3	State definition of "timely" resolution for expedited appeals	The MCO must resolve each expedited appeal and provide notice, as expeditiously as the member's health condition requires, in no event longer than 72 hours after the MCO receives the appeal.
	Provide the state's definition of timely resolution for expedited appeals in the managed care program. Per 42 CFR §438.408(b)(3), states must establish a timeframe for timely resolution of expedited appeals that is no longer than 72 hours after the MCO, PIHP or PAHP receives the appeal.	
C1IV.4	State definition of "timely" resolution for grievances	The MCO must address each grievance and provide notice, as expeditiously as the member's health condition requires, within 90 calendar days from the day the MCO receives the grievance.
	Provide the state's definition of timely resolution for grievances in the managed care program. Per 42 CFR §438.408(b)(1), states must establish a timeframe for timely resolution of grievances that is no longer than 90 calendar days from the day the MCO, PIHP or PAHP receives the grievance.	

Topic V. Availability, Accessibility and Network Adequacy

Network Adequacy

 Find in the Excel Workbook
C1_Program_Set

Number	Indicator	Response
--------	-----------	----------

<p>C1V.1</p>	<p>Gaps/challenges in network adequacy</p> <p>What are the state’s biggest challenges? Describe any challenges MCPs have maintaining adequate networks and meeting standards.</p>	<p>The challenges that the state has experienced in maintaining an adequate network and meeting standards are the varying geographical regions of the state, ranging from urban, to rural, to frontier areas. It is difficult to find providers, especially specialists, in the rural and frontier areas. In addition, the pool of specialist providers across the state to recruit to join the network in general is low. Other challenges include low Medicaid reimbursement and administrative burden for the providers.</p>
---------------------	--	---

<p>C1V.2</p>	<p>State response to gaps in network adequacy</p> <p>How does the state work with MCPs to address gaps in network adequacy?</p>	<p>The state has worked with the MCPs in various ways to address these gaps. The MCP is contractually required to submit monthly, quarterly, and annual provider network reports. This assists in discussion and information on the status of the network. If through reporting or discussion a gap is identified, then the state requires adhoc reports to monitor the network more closely. The MCP develops and maintains an annual provider Network Development and Management Plan which ensures that the provision of core benefits and services will occur. The Network Provider Development and Management Plan must identify gaps in the MCP’s provider network and describe the process by which MCP must assure all covered services are delivered to MCO members. Planned interventions to be taken to resolve such gaps must also be included. Monthly operational status updates required of the MCP include number of new providers joining the network; a list of any providers who have requested to close their panels, in addition to the yearly total, and a list of provider outreach and education activities during the reporting period.</p>
---------------------	--	--

Topic V. Availability, Accessibility and Network Adequacy

Access Measures

Describe the measures the state uses to monitor availability, accessibility, and network adequacy. Report at the program level.

Revisions to the Medicaid managed care regulations in 2016 and 2020 built on existing requirements that managed care plans maintain provider networks sufficient

to ensure adequate access to covered services by: (1) requiring states to develop quantitative network adequacy standards for at least eight specified provider types if covered under the contract, and to make these standards available online; (2) strengthening network adequacy monitoring requirements; and (3) addressing the needs of people with long-term care service needs (42 CFR 438.66; 42 CFR 438.68).

42 CFR 438.66(e) specifies that the MCPAR must provide information on and an assessment of the availability and accessibility of covered services within the MCO, PHIP, or PAHP contracts, including network adequacy standards for each managed care program.

CFR 438.71 requires that the beneficiary support system be accessible in multiple ways including phone, Internet, in-person, and via auxiliary aids and services when requested.</p>	<p>The BSS is accessible in multiple ways including phone, Internet, in-person, and via auxiliary aids and services when requested. The BSS allows members to select a preferred communication method, such as e-mail, text, mail, etc., and confirms selection via the member's chosen method. The BSS Provides for electronic communications regarding enrollment. Communication must be sent via the member's preferred communication method. The BSS has the capability for bi-directional communications including real-time chat to be available Monday – Friday 7:00 AM to 7:00 PM Central Time, excluding State holidays (i.e., members can submit questions and comments to the BSS and receive responses.</p>

The BSS complies with contractual requirements for all written materials, regardless of the means of distribution (printed, web, advertising, direct mail, etc.), including that the reading level must not exceed a 6.9 grade level, as determined by the Flesch-Kincaid Readability Test; distributes introductory materials to each new member within two (2) business days. The introductory materials packet describes the BSS website, the materials that members can find on the website, and how to obtain written materials in the event the member does not have access to the website. Material is available in alternative formats and communication modes, in an appropriate manner that considers the special needs of those who may have a visual, speech, or hearing impairment; physical or developmental disability; and/or limited reading proficiency. The BSS maintains a provider directory in three (3) formats: a hard copy directory for members who request it; a web-based, searchable, online directory for members and the general public; and an electronic file of the directory to be submitted and updated weekly to MLTC or its designee. The BSS operates a member call center with a toll-free telephone number to respond to applicants, enrollees, and member's questions, concerns, and inquiries, regarding Heritage Health, managed care, choice counseling, MCO enrollment, and PCP assignment. The call center must have the ability to access and provide current information and assistance, including Medicaid eligibility and enrollment status, member enrollment, and potential transfer between MCOs. The BSS provides ongoing education about managed care, the enrollment process, and the member's MCO/PCP options, as necessary in all written and verbal communications with members. This includes, the outreach packet, the notice of anniversary letter, the BSS website, other member mailings, and communications with choice counselors and other BSS staff that interact with members. The BSS provides real-time oral interpretation services free of charge to members. This applies to all non-English languages. The BSS notifies members that oral interpretation is available for any language and written information is available in Spanish. The BSS also notifies members how to access these

services. Materials that provide this information are written in English and Spanish. The BSS ensures that translation services are provided for all written materials in any language that is spoken as a primary language for four (4) percent or more of members. Within 90 calendar days of notice from MLTC that an additional language is necessary, materials are translated and available, upon request. Members may not be charged for these materials. The BSS website is in compliance with Section 508 of the Americans with Disabilities Act (ADA), and it meets all standards the Act sets for people with visual impairments and disabilities that make usability a concern. The BSS website includes the telephone contact information for the BSS, including the toll-free member services number prominently displayed and a telecommunications device for the deaf (TDD) number. It also contains links to the MCPs and to the Medicaid Eligibility website. The BSS offers a secure online portal to facilitate member MCO enrollment and PCP selection. The BSS has policies and processes in place to address enrollee and member grievances.
