- I want to be a part of the **Women's and Men's Health State Pap Plus Program**. I know:
  - The State Pap Plus Program pays for the cost of an office visit in which STD testing is done. It does not pay for the cost of STD testing and handling, follow up or treatment
  - I cannot be over income guidelines
  - I cannot have insurance, Medicare Part B, Medicaid Full Coverage, or an HMO
  - I will notify the State Pap Plus Program if I do not wish to be a part of this program anymore
- I will talk with the clinic about how I am going to pay for any tests or services that are not paid by the program.
- I will talk with my healthcare provider about the test(s) and understand possible side effects or discomforts.
- Based on my personal and health history, I may receive screening and/or health education materials. I know that if I move without giving my mailing address to the program, I may not get reminders about screening and education. I accept responsibility for following through on any advice my health care provider may give me.
- I understand that if my breast and cervical test results are abnormal that I will automatically be enrolled in the Every Woman Matters (EWM) Diagnostic Program in order to assist me in paying for diagnostic procedures that are allowed under EWM.
- I understand that the services provided adhere to national guidelines and recommendations for cervical cancer screening. If I have any questions about allowable services, I will talk with my health care provider or call the program at 1-800-532-2227.
- My health care provider, laboratory, clinic, radiology unit, and/or hospital can give results of my breast and cervical cancer screening exams, follow up exams, and/or treatment to EWM.
- To assist me in making the best health care decisions, the State Pap Plus Program may share clinical and other health care information including lab results and health history with my health care providers.
- My name, address, email, social security number and/or other personal information will be used only by the program. It may be used to let me know if I need follow up exams. This information may be shared with other organizations as required to receive treatment resources.
- Other information may be used for studies approved by the program and/or The Centers for Disease Control and Prevention (CDC) for use by outside researchers to learn more about women's and men's health. These studies will not use my name or other personal information.
