

Training Opportunity: Person-Centered Planning and YOU!

Discover how Person-Centered Planning can help you and your family.

- Are you a person with a disability who wants to achieve your dreams and vision?
- Are you an older adult who is looking for ways to stay active and healthy?
- Are you a young parent worried about your child's future?
- Are you an aging parent worried about who will take care of your loved one after you are gone?
- Are you wondering what your child will do after they age out of school? Will they stay home? Will they get a job or volunteer?

Person-Centered Planning is a group process to help persons with disabilities, older adults, and their families achieve their goals and dreams.

Register online for morning or evening training sessions
