Explanation of Deleted Medicaid Claims and Medicaid Claims In Process Over 30 Days Report (MCP564-DS)

This report (MCP564-DS) includes two sections: "Deleted Medicaid Claims" and "Medicaid Claims In Process Over 30 Days." It is mailed weekly to providers with institutional claims that meet the criteria for the report.

**DELETED MEDICAID CLAIMS:** This report section lists paper UB92/UB04 claims deleted from the Medicaid claims processing system the previous week.

Deleted claims are listed alphabetically by Medicaid client last name. If the Medicaid Client ID Number on the deleted claim is incorrect, the claim is listed on the report under “Unknown.” If the Medicaid Provider Number on the deleted claim is incorrect, the claim does not appear on the report; a notice will be mailed to the address on the claim. **Note:** Deleted electronic claims are reported on the “Electronic Claim Activity Report” sent to the electronic claim submitter/clearinghouse.

Claims are deleted from the claim processing system because certain requirements prevent adjudication to final paid/denied status. The report lists each deleted paper claim and the reason(s) for deletion. A new, corrected claim must be submitted, if appropriate. If the deleted claim had attachment(s), the attachments must be included with the new claim.

Following is an example of the Deleted Medicaid Claims section with descriptions of key fields:
