SECTION 1

Introduction

Welcome! Home Again Service for the Aged and Disabled Medicaid Waiver program (AD Waiver) - provide assistance to persons who are aged or have disabilities.

“Home Again Service is available to support and enable Medicaid-eligible nursing facility residents to move to a more independent living situation of their choice.” (480 NAC 5-005.M)

Department of Health and Human Services (DHHS) - approved service providers have an important role in the community. Providers of these services help persons who are aged or have disabilities to have choices in how to live and where to live.

Some persons who are aged, or have disabilities, want to live in their own home or apartment. However, they may need some help with moving from a long-term facility. DHHS approved service providers help these persons with that task.

If a person or agency is approved as a DHHS service provider they would not be an employee of the State. Rather, they are considered an “independent contractor”—an individual or agency that contracts with the client to do certain tasks. Providers are paid a reasonable rate by DHHS—on behalf of the client.

SECTION 3

Home Again Service and Provider Responsibilities

Department of Health & Human Services

DHHS
NEBRASKA

Home Again Service is available to support a Medicaid eligible nursing facility resident's transition to a more independent living situation of their choice. "Eligible persons must be aged 18 or older and must be a current nursing facility resident whose nursing facility services have been paid by Medicaid for at least six months. Persons whose nursing facility stay is rehabilitative are not eligible for this service." (480 NAC 5.005.M)

Each client may need help with procuring different things in order to get their household set up. The need for Home Again Services will be identified in an overall assessment conducted by the Services Coordinator with the client and will be included in the client's Plan of Services and Supports. When a client has selected you for Home Again Services, the client and Services Coordinator together will discuss the needs of the client with you. Some examples of items/expenses that Home Again Service would cover include:

- ➔ Essential furniture
- ➔ Appliances
- ➔ Furnishings
- ➔ Moving expenses
- ➔ Security deposits
- ➔ Assistance from a Home Again Sponsor (Sponsor fee)

All items and services must be essential to ensure that the client is able to transition from the current nursing facility and remove identified barriers or risks to the success of the transition to a more independent living situation.

Providers must keep in mind some services and items are not covered by Home Again Service and those items and services will not be reimbursed. Non-covered items and services include:

- ➔ Items that are not essential to supporting the move or ensuring its success. Services or items available through the Medicaid state plan or through another service of this Waiver program.
- ➔ Items that are available at no cost from relative, friends, or any other source.
- ➔ Relate to a move to an assisted living facility and are the responsibility of the assisted living facility or included in the client's public assistance budget e.g. rental deposit, monthly payment, utilities provided for residents or basic furniture.
- ➔ When a person agrees to be a Home Again Sponsor they are agreeing to the following:

SECTION 3

Department of Health & Human Services

DHHS
N E B R A S K A

- ➔ Will participate as a member of the client/family's team
- ➔ Will not provide services to a client for whom they are a legally responsible relative (spouse for a spouse or parent for a minor child)
- ➔ Maintain an accurate record of all expenditures and provide a dated receipt for each expenditure by completing the Home Again Sponsor Expense Record.

The "Service Authorization"

For DHHS to pay an approved provider for a service, a Service Coordinator must first "authorize" the provider to do the service. A current, written service authorization for each client is required in order to be paid to provide services. It will state what type and how much service a provider is authorized to provide. Services should not be provided until a written service authorization is in-hand! Be sure the services provided are within the authorization dates.

Can an individual provider "subcontract" a service authorization?

No. Only the person who passed the background checks and signed the Service Provider Agreement can provide the service under that agreement. A provider cannot pay someone else to provide the contracted service in their place.

SECTION 4

Billing DHHS for Services

What rate is a DHHS-approved Home Again Service provider paid?

A frequency of service is an occurrence for the sponsor fee. For all eligible items and services purchased for the client reimbursement is paid based on the receipts provided.

How are providers paid?

A Resource Developer will explain how to bill for services.

Basically:

1. Record services and expenses provided for each individual client, on forms (Expense Record, Individual Provider Record of Service, and N-Focus Billing Document) provided by the Resource Developer and include receipts.
2. The provider will submit their billing to the local area office. The Resource Developer will provide information on where to submit it.
3. Designated staff will check the billing to assure there are no errors, and process it for payment.
4. When the billing is approved, it is then forwarded to the claims center for final processing. Payment is made after final processing is completed. Payment is made through the method chosen during provider enrollment.
5. A payment takes about 15 days from when the local office receives it.

Billing should be submitted only after the service is provided and within 90 days.

As part of agreeing to become a Home Again Service provider, providers understand they cannot submit billing for items and services that are ineligible under service regulations. Additionally, providers understand they are not to bill for time they did not work with/for the client. Any such attempt to bill for payment may be considered fraud and is subject to prosecution and/or civil monetary damages.

Does DHHS withhold Social Security tax?

Social security taxes are withheld based upon provider type. DHHS withholds Social Security taxes (Federal Insurance Contribution Act, FICA) from provider payments in some situations. The employee's share of Social Security tax is withheld from provider payments only when in-home service is provided by an individual not associated with an agency.

Department of Health & Human Services

DHHS

SECTION 4

Department of Health & Human Services

DHHS
N E B R A S K A

DHHS acts on behalf of the client as an agent to withhold the mandatory taxes from some provider's earnings and pays the client's matching share to the Internal Revenue Service (IRS). DHHS withholds the tax from affected providers. If the provider's earnings do not reach the mandatory annual amount, the amount that has been withheld is refunded to the provider.

What records must a provider keep?

As a DHHS-approved service provider copies of the following materials must be retained for six years:

1. Copies of billings and any records that support what services were provided or what items were purchased, for each client served.
2. Service Provider Agreement with DHHS.
3. All correspondence from DHHS regarding this service or specific clients.

SECTION 5

Service Provider Rights and Responsibilities

DHHS-approved service providers have certain rights and responsibilities. Providers of AD Waiver services are Medicaid providers and have the following rights and responsibilities:

1. The responsibility to maintain compliance with all applicable provider standards and to report any changes that may effect this compliance;
2. The right to have provider standards correctly and consistently applied;
3. The responsibility to provide correct and current information about the Social Security number or federal identification number;
4. The right and responsibility to inform Services Coordination when there is a change in the client's situation which may require a change in the client's Plan;
5. The responsibility to provide quality services;
6. The responsibility to treat the client with respect, to be dependable, and to schedule service delivery with the client and to notify the client of any changes;
7. The right to receive information needed to do the job;
8. The responsibility to keep client-specific information confidential;
9. The responsibility to provide services according to the authorization provided by the client's Services Coordinator and to bill only for services authorized and provided.
10. The right to receive notice when service authorization will end before the originally-stated end date.
11. The right to complain or to file an appeal if the provider agreement is denied or terminated.

What if changes need to occur to the service provider agreement?

A provider and Resource Developer must sign and date a modification to the agreement or a written amendment to change the existing service agreement to:

1. Add a service; or
2. Change a rate.

What if changes to provider personal information occur after signing up to provide services?

Providers must report changes in their personal information via the Maximus portal. Changes, such as an address change which does not affect the service location, change in provider name, FID number, or Social Security number should be updated as soon as the change and any required supporting documentation e.g. court order showing name change, has been received.

TITLE 480 HOME AND COMMUNITY-BASED WAIVER SERVICES FOR AGED PERSONS OR ADULTS OR CHILDREN WITH DISABILITIES

Chapter 5 Home and Community-Based Waiver Services for Aged Persons or Adults or Children With Disabilities

5-001 INTRODUCTION

A. GENERAL INTRODUCTION

Home and community-based waiver services offer eligible persons a choice between entering a Nursing Facility (NF) or receiving supportive services in their homes. Medicaid funding through the Nebraska Medical Assistance Program (NMAP) is used to fund either service option. The average cost of waiver services funded by Medicaid must not exceed the average cost to Medicaid for NF services.

To be eligible for support through this "Aged and Disabled Waiver," a potential client must meet the following general criteria:

1. Have care needs equal to those of Medicaid-funded residents in Nursing Facilities;
2. Be eligible for Medicaid; and
3. Work with the services coordinator to develop an outcome-based, cost effective service plan.

B. PHILOSOPHICAL BASE

Waiver services build on client/family strengths and are intended to strengthen and support informal and formal services already in place to meet the needs of the client and are not intended to replace them.

Waiver services utilize a self-directed services philosophy and vision that holds that each client has the right and responsibility to participate to the greatest extent possible in the development and implementation of his/her service plan.

The services coordinator and the client together shall identify appropriate levels of services coordination by considering risk factors or capacity to direct their own services. The services coordination levels include:

- ! Self-Directed Services Coordination
- ! Supportive Services Coordination
- ! Comprehensive Services Coordination

Elements in the following areas shall be considered to determine the level of services coordination both initially and as service levels change:

1. Determination of strengths, priorities, and resources.
2. Planning for services.
3. Connecting with needed services.
4. Advocacy.
5. Monitoring.

5. CONNECTING/LINKING NEEDED SERVICES

PURPOSE: To translate the plan of services and supports into action.

To locate or develop resources to address identified service gaps.

To identify and promote an effective/optimum use of community resources.

The services coordinator shall prior authorize waiver services for up to a 12-month period, based on the plan of services and supports and the results of ongoing monitoring activities. Waiver services may not be authorized until the client's Medicaid eligibility has been determined and the waiver consent form has been signed.

The services coordinator shall provide a written description to the provider, clearly defining the parameters of service delivery. This must include at least the amount and frequency of service provision, specific service components authorized, and any applicable time limitations. Any applicable conditions or limitations relate solely to the eligibility of the waiver client and program policies and do not constitute an effort to directly control contract performance by the provider.

C. NOTIFYING OF ADVERSE DECISIONS

3. Provider Notice

When a waiver client's services are being changed or terminated, the services coordinator shall provide written notice to the provider of the change in service provision or termination of payment for waiver services.

No provider notice is issued when service ends at the end of the service authorization period.

A relative or friend assuming the role of Sponsor must also meet provider standards to receive reimbursement of actual transition expenditures made on behalf of the client.

Reports of Abuse or Neglect: If the provider is an agency, HHS staff shall review agency policies regarding hiring and reporting to ensure that appropriate procedures regarding abuse or neglect are in place.

If the provider is an individual, HHS staff shall check the Central Registries to determine if any substantiated reports of abuse or neglect by the provider exist. If the provider provides services in his/her own home, HHS staff shall also check the Central Registries to determine if any substantiated reports of abuse or neglect by household members exist. If a report of abuse or neglect has been substantiated, HHS staff shall not contract with the individual provider.

If a report of abuse or neglect concerning a current waiver provider (or household member) as perpetrator is substantiated, staff shall immediately terminate the provider contract and notify the services coordinator.

Reports of Convictions, Unacceptable Behaviors: Before approval, the provider shall provide a statement to HHS staff, giving information concerning any felony and/or misdemeanor arrests and convictions and pending criminal charges. Any other adult regularly present in the home must also provide such a statement if services will be provided in the provider's home. These statements must be signed and dated.

If additional information is needed to determine whether the provider meets this standard (e.g., the statement shows a questionable history or the staff has reason to question the validity of the statement), HHS staff shall obtain a release of information and request information available from law enforcement. Releases must also be obtained from household members, as applicable. Refusal to sign a release of information is grounds for immediate denial or termination of provider approval.

No provider approval will be issued or remain in effect if there is a conviction for, admission of, or substantial evidence of crimes against a child or vulnerable adult, crimes involving intentional bodily harm, crimes involving the illegal use of a controlled substance, or crimes involving moral turpitude on the part of the provider or any other household members. The provider and household members shall not engage in or have a history of behavior injurious to or which may endanger the health or morals of the client.

5-007 PROVIDER APPROVAL PROCESS

Designated HHS staff use the following policies and procedures when evaluating and approving providers of waiver services.

A. DEFINITIONS

Agency Provider: Providers who have one or more employees or will be subcontracting any one or part of the service(s) for which they are requesting approval.

Individual Provider: Providers who have no employees and will not normally be subcontracting any service(s) for which they are requesting approval. Individual providers are independent contractors and not employees of HHS or the State of Nebraska. (For the purpose of FICA withholding, the provider is considered an employee of the client.)

Provider Identification Number: A nine-digit federal identification (FID) number or a nine-digit Social Security number (SSN).

Service Provider Agreement: A legally binding document which may include an addendum and all applicable provider checklists, describing the service(s) to be provided, and the maximum rate(s) allowed for each provider. The responsibilities of the provider and of HHS are stated in the agreement.

Subcontracting: Occurs when a service provider pays someone other than an employee to provide the contracted service.

B. EVALUATING A POTENTIAL PROVIDER

HHS staff shall conduct an in-person interview with each potential provider.

If the provider does not meet standards at the time of the initial visit or interview, but is willing to correct the deficiency within a reasonable period of time, staff shall continue the evaluation process when proof of compliance is received.

All waiver providers must have a Social Security number or FID number, whichever is appropriate, and provide it to HHS before contracting.

Conflict of Interest: No employee of HHS or its subdivisions may be approved as a service provider if s/he is in a position to influence his/her own approval or utilization.

HHS Staff Relatives as Providers: HHS staff shall not approve, reapprove, evaluate, or negotiate provider agreements with, or authorize service provision from, providers to whom they are related. In situations where a HHS staff person's relative is the only resource, staff shall obtain approval from the Service Area Administrator or designee.

Client Relatives as Providers: Legally responsible relatives (i.e., spouses of clients or parents of minor children who are clients) shall not be approved as service providers for their relatives.

C. DENYING A POTENTIAL PROVIDER

Denial of Application: If HHS staff determine that the potential provider does not comply with all the provider standards for the service(s) to be provided, s/he shall -

1. Document the regulation(s) on which the denial is based and the reason(s) why the potential provider does not comply with the cited regulations; and
2. Send a letter of notice to the potential provider including -
 - a. Explanation of the reasons for HHS's determination that the potential provider does not comply with the cited regulations, or that HHS and the potential provider have failed to agree on contracting issues;
 - b. Citation of the regulations on which the denial was based; and
 - c. Notification of the potential provider's right to appeal HHS's decision/action.

Voluntary Withdrawal: Written notice to the potential provider is not required if s/he voluntarily withdraws from the evaluation process.

D. COMPLETING A PROVIDER AGREEMENT

When a potential provider has met all necessary requirements, HHS staff shall complete a Services Provider Agreement. Staff shall explain that monitoring visits will occur.

If the provider is a non-emancipated minor, the signature of his/her parent or legal guardian must be obtained on the provider agreement.

Agreement Policies: The following policies govern service provider agreements:

1. Each provider must have a service provider agreement in effect before service can be authorized for purchased;
2. Resource development staff shall evaluate and approve or disapprove all service providers located within the office's jurisdiction;
3. Service provider agreements are effective up to 12 months, are never back-dated, and must be agreed upon and signed by all parties on or before the effective date; and
4. Changes in service provider agreements require agreement and new signatures of the contract. Address changes which do not affect the service location must be reported to HHS staff and do not require a new agreement.

Monitoring: Staff assigned services coordination or resource development responsibilities shall provide ongoing monitoring of the quality of services provision. Staff monitoring must also be done any time there is reason to believe a provider is not fulfilling his/her responsibilities. Staff shall report any suspected abuse or neglect to law enforcement and/or the appropriate HHS staff.

E. NOTIFYING OF PROVIDER TERMINATION

Either HHS or the provider may terminate an agreement by giving at least 30 days advance written notice. The 30-day requirement may be waived in case of emergencies such as illness, death, injury, or fire. If the provider violates or breaches any of the provisions of the Service Provider Agreement, then the agreement may be terminated immediately at the election of HHS.

When an agreement is to be terminated by HHS, staff shall -

1. Document the reason(s) for the termination and provide written notice.
2. Provide written notice which includes:
 - a. Explanation of the reasons for the termination;
 - b. Citation of the regulations on which the termination was based; and
 - c. Notification of the provider's right to appeal HHS's decision/action.

Resource development staff shall notify services coordination staff of the provider termination.

F. APPEALING DECISION/ACTIONS

A provider of waiver services has the right to appeal any decision/action that has a direct adverse effect on the provider (see 471 NAC 2-003). Hearings are scheduled and conducted according to the procedure in 465 NAC 2-001.02 and 6-000.

5-008 PROVIDER AGREEMENT RENEWAL

HHS staff shall use established standards to re-evaluate each service provider before the expiration of a provider agreement. Provider agreements must be renewed based on the same procedures used for initial approval, including conducting an in-person interview and completing provider checklists.

5-009 RESOURCE DEVELOPMENT DOCUMENTATION

Resource development documentation shall be maintained for each provider, and retained for four years. Documentation must include:

1. Provider agreements, addendums, and checklists;
2. Verification of Central Registry checks;
3. Felony and/or misdemeanor statements;
4. Written notices to, and other communication with, the provider;
5. Activities related to services delivery monitoring;
6. Narrative documentation (e.g., resource development staff decisions and actions; and other factual, relevant information); and
7. Billing and payment records.

5-010 PROVIDER SOCIAL SECURITY TAX WITHHOLDING

Affected Providers: In some situations, HHS withholds Social Security taxes (Federal Insurance Contribution Act, FICA) from provider payments. The employee's share of Social Security tax is withheld from provider payments only when in-home service is provided by an individual not affiliated with an agency. HHS, upon receiving a signed "Employer Appointment of Agent," acts on behalf of clients who receive in-home services to withhold mandatory FICA taxes from individual providers and pays the client's matching tax share to the Internal Revenue Service (IRS).

Earnings Taxed for Social Security: Affected providers are subject to Social Security tax payment for each calendar year in which they are paid a federally determined amount or more for services provided to one client. (For example, for calendar year 1995 the base amount was \$1,000 paid for FICA-covered services per client.) HHS shall withhold this tax from all payments to affected providers. If a provider's earnings do not reach this annual amount for FICA services per client, the amount withheld for that year is refunded.

Social Security Tax Rates: HHS remits to the IRS an amount equal to the current Social Security tax rate for specified "in-home" services. Half of this amount is withheld from the provider as the employee's share; the other half is provided by HHS on behalf of the client employer.

5-011 PROVIDER RECORD KEEPING

Providers of waiver services must retain for four years the following material:

1. Documentation which supports provision of services to each client served under the waiver;
2. Any other documentation determined necessary by HHS to support selection and provision of services under a plan of services and supports;
3. Financial information necessary to allow for an independent audit under the waiver;
4. Documentation which supports requests for payment under the waiver; and
5. Provider agreements with HHS.

1-002.02 Limitations and Requirements for Certain Services

1-002.02A Medical Necessity: NMAP applies the following definition of medical necessity:

Health care services and supplies which are medically appropriate and -

1. Necessary to meet the basic health needs of the client;
2. Rendered in the most cost-efficient manner and type of setting appropriate for the delivery of the covered service;
3. Consistent in type, frequency, duration of treatment with scientifically based guidelines of national medical, research, or health care coverage organizations or governmental agencies;
4. Consistent with the diagnosis of the condition;
5. Required for means other than convenience of the client or his or her physician;
6. No more intrusive or restrictive than necessary to provide a proper balance of safety, effectiveness, and efficiency;
7. Of demonstrated value; and
8. No more intense level of service than can be safely provided.

The fact that the physician has performed or prescribed a procedure or treatment or the fact that it may be the only treatment for a particular injury, sickness, or mental illness does not mean that it is covered by Medicaid. Services and supplies which do not meet the definition of medical necessity set out above are not covered.

Approval by the federal Food and Drug Administration (FDA) or similar approval does not guarantee coverage by NMAP. Licensure/certification of a particular provider type does not guarantee NMAP coverage.

1-002.02B Place of Service: Covered services must be provided at the least expensive appropriate place of service. Payment for services provided at alternate places of service may be reduced to the amount payable at the least expensive appropriate place of service, or denied, as determined by the appropriate staff of the Medicaid Division.

1-004.02 Free Choice of Providers: An NMAP client may obtain covered services from any provider qualified to perform the services who has been approved to participate in NMAP. The client's freedom of choice does not prevent the Department from -

1. Determining the amount, duration, and scope of services;
2. Setting reasonable and objective standards for provider participation; and
3. Establishing the fees which are paid to providers for covered services.

Clients participating in the Nebraska Medicaid Managed Care Program are required to access services through their primary care physician.

1-004.03 Utilization Review (UR): The Department or its designee perform utilization review activities related to the kind, amount, and frequency of services billed to NMAP to ensure that funds are spent only for medically necessary and appropriate services. The Department or its designee may request information from clients' records as part of the utilization review process. In the absence of specific NMAP state UR regulations, Medicare UR regulations may apply.

CHAPTER 2-000 PROVIDER PARTICIPATION

2-001 Provider Eligibility

2-001.01 Definition: A provider is any individual or entity which furnishes Medicaid goods or services under an approved provider agreement with the Department.

2-001.02 Eligibility: To be eligible to participate in the Nebraska Medical Assistance Program (NMAP), the provider shall meet the general standards for all providers in Chapters 1-000, 2-000, and 3-000 of this title, if appropriate, and the standards for participation for that provider type. The standards for participation are listed in each provider chapter of this title; in Title 480 NAC for home and community-based waiver services; and in Title 482 for managed care services. The Department shall not pay a provider who is required to be licensed and/or certified but who is not licensed and/or certified at the time of service.

2-001.02A Denial of Provider Agreement for Good Cause: The Department may refuse to execute, or may cancel, a provider agreement with a provider when there is demonstratable good cause. Good cause is, defined as but is not limited to -

2. The provider, or an employee of the provider, has been excluded, sanctioned, or terminated from participation by Medicare or Medicaid in Nebraska or another state (see 471 NAC 2-002).

No provider agreement will be issued or remain in effect if there is a conviction for, admission of, or substantial evidence of crimes against a child or vulnerable adult, crimes involving intentional bodily harm, crimes involving the illegal use of a controlled substance, or crimes involving moral turpitude on the part of the provider or any other household members. The provider and household members shall not engage in or have a history of behavior injurious to or which may endanger the health or morals of the client.

2-001.03 Provider Agreements: Each provider is required to have an approved agreement with the Department. By signing the agreement, the provider agrees to -

4. Accept as payment in full the amount paid in accordance with the rates established by the Department after all other sources (including third party resources, Medicare, or excess income) have been exhausted. Exception: If a client resides in a nursing facility, a payment to the facility for the client to occupy a single room is not considered income in the client's budget if Medicaid is or will be paying any part of the nursing facility care;

6. Submit claims which are true, accurate, and complete;
7. Providers shall document services rendered in an institutional setting in the client's institutional chart before billing the Department;
8. Submit claims electronically, if applicable, under proper signature of the provider or the provider's authorized representative;
9. Maintain computer software used in the submission of claims and furnish, on request, the documentation to the Department, the federal Department of Health and Human Services and the federal or state fraud and abuse units;
10. Follow the submittal procedures, record layout requirements, service verification requirements, and provider and/or authorized representative certification requirements for the electronic submission of claims; and
11. A provider shall not establish a policy to automatically waive copayment or deductibles established by the Department.

Failure to meet these requirements may result in termination or suspension of the provider agreement (see 471 NAC 2-002).

Signing the provider agreement and enrolling in NMAP does not constitute employment.

2-001.03A Signature Date of Provider Agreement: A provider agreement must be signed and on file with the Department before payment for services is made. Payment may be made for covered services provided before the signature date of the agreement if the agreement is signed and on file with the Department before payment and the provider met all eligibility requirements at the time the service was provided.

2-001.03B Required Forms: Providers shall complete the appropriate form listed below and submit the signed form to the Department:

1. Form MC-19, "Medical Assistance Provider Agreement," (see 471-000-90);

2-001.06 Principles of Providing Medical Assistance: Medical care and services are provided through NMAP to maintain good physical and mental health, to prevent physical disease and disability, to mitigate disease, and to rehabilitate the individual. The amount and type of service required is defined for each case through utilization review. The provider shall limit services to essential health care. The plan for providing services within program guidelines through NMAP is based on the following principles:

1. All plans for medical care must provide for essential health services and for integration of treatment with social planning to reduce economic dependency;
2. Medical care and services must be coordinated with health services available through existing public and private sources;
3. Medical care and services must be provided as economically as is consistent with accepted standards of medical care and fair compensation to providers;
4. Medical care and services must be within the licensure of the provider giving the care or service; and
5. The client must be allowed, within these limitations, to exercise free choice in the selection of a qualified provider.

2-001.07 Provider Handbooks: The Department issues provider handbooks for specific provider types addressed in this Title. Each provider handbook contains -

1. Chapters 1-000, 2-000, and 3-000 of Title 471;
2. The appropriate provider chapter; and
3. Instructions for forms and electronic transactions.

While the handbooks contain policy related to specific provider groups, they may not contain all rules and regulations of NMAP for all possible circumstances. In these cases, regulations contained in the Nebraska Department of Health and Human Services Finance and Support Manual will prevail. The individual provider is responsible for ensuring that s/he has an up-to-date provider handbook, that s/he has all applicable rules and regulations, and that employees, consultants, and contractors are informed about the regulations of this program.

2-001.08 Provider Bulletins: The Medicaid Division may issue provider bulletins to inform providers of regulation interpretations.

2-001.09 Electronic Information Exchange: Any entity that exchanges standard electronic transactions with the Department must have an approved trading partner agreement with the Department.

2-002.05 Imposition of a Sanction: The decision on the sanction to be imposed is at the discretion of the Director. The following factors are considered in determining the sanctions to be imposed:

1. Seriousness of the offenses;
2. Extent of violations;
3. History of prior violations;
4. Prior imposition of sanctions;
5. Prior provision of provider education;
6. Provider willingness to comply with program rules;
7. Whether a lesser sanction will be sufficient to remedy the problem; and
8. Actions taken or recommended by peer review groups and licensing boards.

The Department shall notify the provider at least 30 days before the effective date of the sanction, unless extenuating circumstances exist. The Department shall give the provider an opportunity to submit additional information or to appeal the sanction. The provider must file the appeal within 30 days of the date of the notice of the sanction. When the clients' health and safety is threatened, appropriate administrative sanctions may be taken without a full evidentiary hearing. The provider may file an appeal regarding this action; however, the sanction will remain in effect until the hearing decision is made. When a sanction is imposed, the Department shall give general notice to the public of the restriction, its basis, and its duration.

To prevent inappropriate Medicaid payments or to avoid further overpayments, the Department may sanction a provider by suspending the provider's payments with an immediate effective date. The Department will notify the provider by letter that its payments have been suspended. The provider may file an appeal regarding this action; however, the suspension of payments will remain in effect until the hearing decision is made.

If a provider participates under one or more provider number, or changes numbers, payments can be suspended, withheld or recouped from one or all of the provider numbers.

2-002.05A Conditions of Suspension or Termination: When a provider is suspended or terminated from NMAP, NMAP may not make reimbursement for services, items, or drugs that are provided, referred, furnished, or prescribed by the suspended or terminated provider or caused to be provided, referred, furnished, ordered, or prescribed for a Medicaid client.

A Medicaid client may not be billed for any services provided, referred, furnished, ordered, or prescribed by an excluded provider.

Exception: NMAP may pay claims from a submitting provider, such as a pharmacy, until the submitting provider and the client are notified of the suspension or termination of the prescribing/attending provider. NMAP may pay claims for emergency medical services when Medicaid Division staff or consultants determine that the services were medically necessary.

2-002.05B Sanction of Affiliates: The Department may sanction all known affiliates of a provider when each decision to include an affiliate is made on a case by case basis after considering all relevant facts and circumstances. The Department may determine the affiliate's violation, failure, or inadequacy of performance when the provider's action which resulted in a sanction took place in the course of the affiliate's official duty or with the knowledge or approval of the affiliate.

2-002.05C Claims Submitted by an Excluded Provider: Suspension or termination from participation of any provider shall preclude the provider from submitting claims for payment, either personally or through any clinic, group, corporation, or other association, to the Department for any services or supplies provided under NMAP, except for those services or supplies provided before the suspension or termination.

2-002.05D Excluded Person: No clinic, group, corporation, or other association which is a provider of services shall submit claims for payment to the Department for any services or supplies provided by a person within the organization which has been excluded from participation in NMAP except for those services or supplies provided before the suspension or termination. If these provisions are violated by a clinic, group, corporation, or other association, the Department may suspend or terminate the organization and/or any individual person within the organization responsible for the violation.

A provider shall not submit any claims to NMAP that contain the costs of services provided by excluded persons.

2-002.05E Notification of Other Agencies: When a provider has been sanctioned, the Department shall notify, as appropriate, the applicable professional society, board of registration or licensure, and federal or state agencies of the findings made and the sanctions imposed.

2-002.05F Notification of Local HHS Offices: When a provider's participation in NMAP has been suspended or terminated, the Department will notify the local HHS offices of the suspension or termination.

1. Telephone and written instructions;
2. Provider manuals and workshops;
3. Instruction in claim form completion;
4. Instruction in the use and format of provider manuals;

2-002.05H Denial of Enrollment: At the discretion of the Department, providers who have previously been terminated or suspended may or may not be re-enrolled as providers of Title XIX (Medicaid) services.

2-002.05J Reinstatement: At the end of the suspension period, the provider may request in writing that the Department reinstate his/her provider agreement. The Medicaid Division may approve or deny reinstatement of the provider agreement. The provider may be reinstated conditionally with a closed-end provider agreement or other restrictions or requirements.

2-002.06 Audits: All services for which claims for payment are submitted to the Department are subject to audit. During a review audit, the provider shall furnish to the Department, or its authorized representative, pertinent information regarding claims for payment. If an audit reveals that incorrect payments were made or that the provider's records do not support payments that have been made, the provider shall make restitution.

2-002.06A Sampling and Extrapolation: The Department's procedure for auditing providers may involve the use of sampling and extrapolation. Under this procedure, the Department selects a statistically valid sample of the services for which the provider received payment for the audit period in question and audits the provider's records for these services. All incorrect payments determined by an audit of the services in the sample are totaled and extrapolated to the entire universe of services for which the provider has been paid during the audit period. The provider shall pay to the Department the entire extrapolated amount of incorrect payments calculated under this procedure after notice and opportunity for hearing under 471 NAC 2-002.05 and 2-003.

2-002.06B Hearings: The Department shall allow the provider an opportunity to rebut the Department's audit findings. If the findings are based on sampling and extrapolation, the provider may present an independent 100% audit of his/her Medicaid payments during the audit period in lieu of accepting the Department's sampling and extrapolation. Any audit of this type must demonstrate that the provider's records for the unaudited services provided during the audit period were in compliance with the Department's regulations. The provider must be prepared to submit supporting documentation to demonstrate this compliance.

2-005 Advance Directives: An advance directive is a written instruction, such as a living will or durable power of attorney for health care, recognized under state law (statutory or as recognized by the courts of the state) that relates to the provision of medical care if the individual becomes incapacitated.

All Medicaid-participating hospitals, nursing facilities, providers of home health care or personal care services, hospice programs, health maintenance organizations, and health insuring organizations shall comply with this section. They shall -

1. Maintain written policies, procedures, and materials concerning advance directives;
2. Provide written information (see 471-000-304) to all adult (as defined by state law) individuals receiving medical care by or through the provider or organization concerning their rights under state law to -
 - a. Make decisions concerning their medical care;
 - b. Accept or refuse medical or surgical treatment; and
 - c. Formulate advance directives, such as living wills or durable power of attorney for health care;
3. Provide written information to all adult individuals on the provider's policies concerning implementation of these rights;
4. Document in the individual's medical record whether the individual has executed an advance directive;
5. Not condition the provision of care or otherwise discriminate against an individual based on whether that individual has executed an advance directive;
6. Ensure compliance with requirements of state law (whether statutory or as recognized by the courts of the state) concerning advance directives; and
7. Provide for educating staff and the community on advance directives.

2-005.01 When Providers Give Information Concerning Advance Directives: Providers shall give information concerning advance directives to each adult patient as follows:

1. A hospital shall give information at the time of the individual's admission as an inpatient;
2. A nursing facility shall give information at the time of the individual's admission as a resident;
3. A provider of home health care or personal care services shall give information to the individual in advance of the individual's coming under the care of the provider;
4. A hospice program shall give information at the time of initial receipt of hospice care by the individual; and
5. An HMO/HIO shall give information at the time the individual enrolls with the organization, i.e., when the HMO enrolls or re-enrolls the individual. If an HMO has more than one medical record for its enrollees, it must document all medical records.

2-005.02 Information Concerning Advance Directives at the Time an Incapacitated Individual Is Admitted: An individual may be admitted to a facility in a comatose or otherwise incapacitated state and be unable to receive information or articulate whether s/he has executed an advance directive. In this case, to the extent that a facility issues materials about policies and procedures to the families or to the surrogates or other concerned persons of the incapacitated patient in accordance with state law, it shall also include the information concerning advance directives. This does not relieve the facility from its obligation to provide this information to the patient once s/he is no longer incapacitated.

2-005.03 Previously Executed Advance Directives: When the patient or a relative, surrogate, or other concerned or related individual presents the facility with a copy of the individual's advance directive, the facility shall comply with the advance directive to the extent allowed under state law. This does not preclude a facility from objecting as a matter of conscience, if it is permitted to do so under state law.

Absent contrary state law, if no one comes forward with a previously executed advance directive and the patient is incapacitated or otherwise unable to receive information or articulate whether s/he has executed an advance directive, the facility shall note that the individual was not able to receive information and was unable to communicate whether an advance directive existed.

3-002.01D Provider's Failure to Cooperate in Securing Third Party Payment: The Department may deny payment of a provider's claims if the provider fails to apply third party payments to medical bills, to file necessary claims, or to cooperate in matters necessary to secure payment by insurance or other liable third parties.

3-002.02 Payment

3-002.02C Payment in Full: Providers participating in NMAP shall agree to accept as payment in full the amount paid according to the Department's payment methodologies after all other sources have been exhausted.

3-002.02D Charges to the General Public: Providers shall not exceed their charges to the general public when billing NMAP. A provider who offers a discount to certain individuals (for example, students, senior citizens, etc.) shall apply the same discount to Medicaid clients who would otherwise qualify for the discount.

3-002.02E Method of Payment: Effective January 1, 2009, payment for all approved medical services within the scope of NMAP will be made by electronic funds transfer (EFT) to the provider who supplied the services.

3-002.02F Billed Charges: If the provider's billed charges are less than the Department's allowable payment, the Department pays the provider's billed charges.

3-002.03 Post-Payment Review: Payment for a service does not indicate compliance with NMAP policy. Monitoring may be accomplished by post-payment review to verify that NMAP policy has been followed. A refund will be requested if post-payment review finds that NMAP payment has been made for claims/services not in compliance with NMAP policy. During a post-payment review, claims submitted for payment may be subjected to further review or not processed pending the outcome of the review.

3-002.05 Excess Income/Share of Cost: Individuals who are otherwise eligible but who have excess income shall obligate the excess amount for medical care before payment for medical services can be approved through NMAP. Obligation or payment of the excess amount is documented on Form DSS-160, "Record of Health Cost-Share of Cost-Medicaid Program" (see 471-000-79). For further information, the provider may contact the client's local office.

3-002.06 Inquiry on Status of Claims: For questions regarding claim status, providers may contact Department staff as directed in the claim submission instructions in the appendix to this Title or the standard electronic Health Care Claim Status Request and Response transaction (ASC X12N 276/277) (see standard Electronic Transaction Instructions at 471-000-50). Providers may direct questions regarding regulations to the Medicaid Division.

3-002.07 Adjustments to Payment Reductions or Disallowances: Providers are restricted to a maximum time limitation of 90 days to request an adjustment to a claim that has been paid with a portion reduced or disallowed, or a claim that has been disallowed in total, unless documentation of extenuating circumstances is submitted to the Medicaid Division. The 90-day limitation begins with the payment date of the paper remittance advice (Form MCP-248) or with the payment date of the electronic remittance advice (ASC X12N 835).

3-002.08 Refunds

3-002.08A Refunds Requested by the Department: When the Department requests a refund of all or part of a paid claim, the provider is allowed 30 days to refund the amount requested, to show that the refund has already been made, or to document why the refund request is in error or appeal. The provider's failure to respond within 30 days shall be cause for the Department to recoup from future provider payments until the situation is resolved or to sanction the provider. The refund request shall constitute notice of the sanction to recoup from future payments. For refunds due to third party resources, see 471 NAC 3-004.10.

Note: NE-POP providers may be requested to void claims through the NE-POP system instead of submitting checks.

3-002.08B Third Party Liability Refunds: Whenever third party liability payments are received after a claim has been submitted to the Department, the provider shall refund the Department within 30 days. The refund must be accompanied by a copy of the documentation, such as the explanation of benefits or electronic coordination of benefits.

3-002.08C Provider Refunds to the Department: Providers have the responsibility to review all payments to ensure that no overpayments have been received. The provider shall refund all overpayments to the Department within 30 days of identifying the overpayment.

3-002.10 Administrative Finality: Administrative decision or inaction in the allowable cost determination process for any provider, which is otherwise final, may be reopened by the Department within three years of the date of notice of the decision or inaction.

"Reopening" means an action taken by the Director to reexamine or question the correctness of a determination or decision which is otherwise final. The Director is the sole authority in deciding whether to reopen. The action may be taken -

1. On the initiative of the Department within the three-year period;
2. In response to a written request from a provider or other entity within the three-year period. Whether the Director will reopen a determination, which is otherwise final, depends on whether new and material evidence has been submitted, a clear and obvious error has been made, or the determination is found to be inconsistent with the law, regulations and rulings, or general instructions; or
3. At any time fraud or abuse is suspected.

A provider has no right to a hearing on a finding by the Director that a reopening or correction of a determination or decision is not warranted.

3-002.11 Billing the Client: Providers participating in NMAP agree to accept NMAP's payment as payment in full. The provider shall not bill the client for Medicaid coverable services if the claim is denied by the Department for lack of medical necessity or for failure to follow a procedural requirement (such as prior authorization, claim submission instructions, timely claims filing limits, etc.). The provider shall not

bill the client for services covered by NMAP. It is not a violation of NMAP's regulations for the provider to bill the client for services not covered by NMAP. It is not a violation for a provider to bill the client for services when it is determined that the client has received money from a third party resource and that money was designated to pay medical bills. See 471 NAC 3-004.10B, 3-004.05, and 3-004.05F.

If the client agrees in advance in writing to pay for the non-covered service, the provider may bill the client.

The provider has the responsibility to verify the client's eligibility for Medicaid and any limitations, such as lock-in or managed care, that apply to a specific client. It is the provider's responsibility to be aware of requirements for medical necessity, prior authorization, referral management, etc.

3-002.12 Section 1122 Sanctions: When the Department of Health and Human Services imposes a sanction under section 1122 of the Social Security Act and instructs the Department to withhold or recoup the federal share of the capital expenditure, the Department shall withhold the federal and the state share of the capital expenditure.

3-002.13 Disclosure of Information: See 465 NAC 2-005.02.

3-003.04 Electronic Claims and Computer-Encoded Claim Documentation: The provider shall allow the authorized representatives of the federal Department of HHS, the Department, and state and federal fraud and abuse units to review and audit the provider's or the provider's billing agent's or clearinghouse's data processing procedures and supportive software documentation involved in the production of the computer-encoded claims or electronic claims submitted to the Department. The provider has agreed to allow the Department and its authorized representatives access to its records under the provider agreement.

3-004 Third Party Resources (TPR): All third party resources available to a Medicaid client must be utilized for all or part of their medical costs before Medicaid. Third party resources (TPR) are any individual, entity, or program that is, or may be, contractually or legally liable to pay all or part of the cost of any medical services furnished to a client. Third party resources include, but are not limited to -

1. Private health insurance;
2. Casualty insurance, including medical payment provisions;
3. Employment-related group health insurance;
4. Group health plans defined under section 607(1) of ERISA;
5. Medicare Part A and/or Part B;
6. Medicare Part C (Medicare Advantage plans);
7. Medicare Part D;
8. Medical support from non-custodial parents (court or administrative ordered) (see 471 NAC 3-004.08);
9. Excess income/share of cost (see 471 NAC 3-001.05);
10. Workers' compensation;
11. Other federal programs (unless excluded by statute, such as Indian Health Services programs and Migrant Health programs, and Title V, Maternal Child Health Program);
12. Liable third parties who are not insurance carriers;
13. Medical payments provisions of automobile and commercial insurance policies; and
14. Any other party contractually or legally liable to pay medical expenses.

3-004.01 Definitions: The Nebraska Medical Assistance Program (NMAP) uses the following definitions in relation to third party resources:

Adjudicate: To determine whether a claim or adjustment is to be paid or denied.

Balance Billing: Billing NMAP or client for remaining amount left after a provider has agreed to accept a lesser amount from the primary payor as payment in full. Balance billing is prohibited.

Client Assignment of Rights: The client's action to assign to the Department his/her rights (and the rights of any other eligible individuals on whose behalf s/he has legal authority under state law to assign such rights) to medical support and to payment for medical care from any third party resource (except Part A and B of Medicare). Assignment of rights is accomplished by signing the Medicaid application.

Cost Avoidance: A method of adjudicating claims as payor of last resort in order to utilize all third party resources before Medicaid payment can be made.

Denial: Non-payment of benefits by a third party resource. See 471 NAC 3-004.06D1.

Excess Income/Share of Cost: The amount of the client's income that must be obligated or paid for medical care before Medicaid payment can be made.

3-004.03 Payor of Last Resort: Medicaid clients who have third party resources must exhaust these resources before Medicaid considers payment for any services. Medicaid shall not pay for medical services as a primary payor if a third party resource is contractually or legally obligated to pay for the service.

Providers shall bill all third party resources and/or the client (when there is an excess income/share of cost obligation) for services provided to the client, except for waiver claims (see 471 NAC 3-004.03A). Providers shall submit all charges and Medicare covered services provided to Medicare/Medicaid clients to Medicare plus any Medicare supplement plans for resolution prior to billing Medicaid. Medicaid is the payor of last resort.

3-004.03A Waiver Claims: Certain services, defined as "waiver claims," are an exception to the requirement of 471 NAC 3-004.03. Providers may submit these claims to Medicaid before filing for TPR; NMAP pays these claims and COB staff initiate recovery activities for any TPR. This does not prohibit the provider from billing the TPR before billing Medicaid. In these situations, the provider does not bill Medicaid until the claim is resolved.

Waiver claims, for health insurance purposes, are claims for which the Department has applied and received a "cost avoidance" waiver from CMS or claims that are mandated to have cost avoidance waived under 42 CFR 433.139 (preventive pediatrics, prenatal services, medical support from "uncooperative" non-custodial parents).

3-004.10 Client Rights and Responsibilities

3-004.10A Client's Rights: A provider shall not refuse to furnish services to an individual who is eligible for Medicaid because of a third party's potential liability for payment of service.

3-004.10B Client's Failure to Cooperate: A Medicaid client has the obligation to assist the provider and the Department in obtaining payment from all available third party resources. This may include complying with any requests from the insurer for additional information, ensuring that the provider or the Department receives remittance advice/coordination of benefits and/or payments from the insurer, or appearing in court in litigation situations. If the client fails to cooperate with the provider in securing third party resources, the provider may contact the COB/TPL Unit. Failure by the client to cooperate may cause the client to lose his/her Medicaid eligibility. The client will be responsible for charges on the denied services.

3-004.10C Client Responsibility When Enrolled in HMO or PPO Plan: Clients are required to utilize the services provided through and to obtain all necessary prerequisites as set out by the HMO or PPO plan (e.g., obtaining prior authorizations, using network providers, etc.). Failure to do so is considered lack of cooperation and will result in loss of Medicaid eligibility. The client is responsible for the charges on the denied services.

3-004.10D Client Responsibility When Health Insurance Premiums are Paid by the Department: If the Department determines it is cost effective to pay the premiums for a Medicaid eligible client to maintain their current commercial insurance coverage, the client shall follow any preauthorization or referral provisions of the plan or utilization of specific providers in the network. Claims denied by TPR because client did not utilize a network provider or obtain necessary authorizations or referrals will not be paid by Medicaid. The client will be responsible for the charges on the denied services.

3-004.10E Client Responsibility When Client Chooses to Enroll in Medicare Advantage (Medicare C) Plans: Medicaid will not pay claims denied by Medicare for Medicaid clients enrolled in Medicare Advantage plans who move out of the service area without complying with notification requirements. The client will be responsible for the charges on the denied services.

3-005 Prior Authorization: The Department is responsible for ensuring the appropriate expenditure of NMAP funds for medically necessary services provided to eligible clients. Prior authorization of payment for specific covered services, as a utilization control tool, is one method used to meet this responsibility. The Department uses prior authorization to -

1. Safeguard against unnecessary or inappropriate care and services;
2. Safeguard against excessive payments;
3. Assess the quality and timeliness of service;
4. Determine if less expensive, alternative care, services, or supplies could be used;
5. Promote the most effective and appropriate use of available services and facilities; and
6. Eliminate misutilization practices of providers and clients.

3-005.01 Services Requiring Prior Authorization: Services which require prior authorization of payment, prior authorization requirements, and methods are listed in the chapter of the Nebraska Department of Health and Human Services Finance and Support Manual related to the specific type of service.

3-005.02 Limitations of Prior Authorization: Prior authorization is issued only if the client is or was eligible for NMAP for the period for which services are authorized. If the client becomes ineligible for NMAP (through spend-down, suspension, or closing of the case) during the authorization period, the authorization is invalid in the period of ineligibility. The authorizing agent shall not submit a prior authorization request until eligibility for NMAP has been determined. Prior authorization is not transferable to other clients or other providers.

3-005.02A Medicare/Medicaid Eligibility: If the client is eligible for Medicare as well as Medicaid and the requested services are covered by Medicare, prior authorization is not issued. In some cases, as defined in the specific service policy, the provider must receive a denial of coverage from Medicare before a prior authorization is issued. The provider shall submit a copy of the denial with the claim form to receive payment.

3-005.03 Notification of the Client: The provider or local office shall notify the client of approval or denial of prior authorization according to the prior authorization procedures under the individual chapters of this Title.
