## MEDICAID

**STATUTORY AUTHORITY:** The Medical Assistance Act, found in Nebraska Revised Statutes, Section 68-901 through 68-949

**YEAR ESTABLISHED:** 1965

The Medicaid Program pays for medical services for low-income persons meeting specific eligibility requirements. Certain medical services must be covered by state Medicaid programs to obtain federal financial participation. Coverage of medical services beyond those required is a state option under Medicaid. Nebraska covers 24 optional services.

**Program Description** The following medical services are available to eligible individuals. Medicaid pays the provider directly for services provided. Medicaid is the payer of last resort; therefore, any third party payments are investigated first.

- Inpatient and outpatient hospital care
- Services within licensure of practitioners licensed to practice medicine, surgery, dentistry, osteopathy, chiropractic, podiatry, optometry, nursing, physical therapy, occupational therapy, psychology and speech and hearing therapy
- Laboratory and x-ray services
- Prescribed drugs, appliances and health aids
- Care in institutions for mental diseases for children under age 21 and adults over age 64
- Early and periodic screening of children (Health Check)
- Family planning
- Nursing facility services
- Intermediate care facility for persons with mentally retardation
- Personal assistant services and home health
- Home and community-based services for selected populations

The state applies different levels of reimbursement to Medicaid services. Practitioner services are reimbursed according to a fee schedule based on “relative value data” for the particular services provided. Prescription drugs are reimbursed according to product cost, expressed as a discounted “average wholesale price” (AWP), plus a pharmacy dispensing fee. Urban inpatient hospital services are reimbursed on a “per discharge” basis (based on “diagnostic related group” classifications). Rural critical access hospitals are reimbursed according to a per diem rate based on actual cost and special federal rules applicable to such hospitals. Outpatient services are reimbursed at 82.45 percent of cost as indicated on the provider’s Medicare cost report. Nursing facility services are reimbursed according to a “prospective payment system,” at reasonable cost as determined from cost reports filed by the provider and using 19 different levels or payment rates based on acuity. ICF-MR facilities are reimbursed prospectively based on their cost reports but subject to a cost model. Laboratory and radiology services are reimbursed according to a federally established fee schedule. Federally qualified health centers (FQHCs) and rural health clinics (RHCs) are reimbursed according to actual cost per service provided (encounters), at a rate determined from provider Medicare cost reports and adjusted annually. Home and community-based waiver services are reimbursed at “reasonable fees” determined by the Nebraska Health and Human Services Finance and Support. Federal law prohibits waiver payments to public providers in excess of costs.

## DESCRIPTION OF ELIGIBILITY FOR MEDICAID IN NEBRASKA

- All individuals who are age 65 and older or who have a disability and qualify for state supplement to SSI are automatically eligible for Medicaid. Aged, blind, and disabled with higher income may qualify if net income is below 100% of federal poverty levels or under the medically needy option by spending income in excess of the Medically Needy Standard on qualifying medical expenses.
- Individuals and families receiving cash assistance through ADC are automatically eligible for Medicaid in Nebraska. Children under age 19 whose households do not meet the deprivation requirements for ADC are eligible under the Ribicoff portion of the program if income is less than the medically needy level. A resource test is also applied.
- Ribicoff and ADC-related persons may also "spend down" excess income on medical bills to qualify for Medicaid.
- Children under age 6 are eligible with household income up to 133% of the federal poverty level. No resource test is applied and they are not allowed to spend down excess income. This is called Medical Assistance for Children (MAC) eligibility.
- Children under the age of 1 are eligible with household income up to 150% of the federal poverty level. No resource test is applied and they are not allowed to spend down excess income. This is called Enhanced Medical Assistance for Children (EMAC) eligibility.
- Children age 6 and older and under age 19 are eligible for Medicaid if income is less than 100% of poverty. No resource test is applied and spending down of excess income is not allowed. This is called School Age Medical (SAM) eligibility.
- Spousal impoverishment provisions allow individuals with higher income and resources to qualify for Medicaid if the individual is institutionalized or receives home and community based services and their spouse is at home. Income up to 150% of the federal poverty level for a family size of two and resources up to \$81,960 may be retained by the non-Medicaid family members (SLIMB 100-120% FPL, QI1 120-135% FPL).
- Mandatory Medicaid payment of Medicare premiums, coinsurance and deductibles is required for persons under 100% of the federal poverty level. The Department has elected to cover all Medicaid services for these persons. Individuals with income under 135% of the federal poverty level, not otherwise eligible may qualify for payment of Medicare Part B premiums only.
- Pregnant women are eligible up to 185% of the federal poverty level with no resource test.
- Children without credible health insurance are eligible up to 185% of the federal poverty level with no resource limit. This is called the (State) Children's Health Insurance Program (CHIP or SCHIP).
- Medicaid covers for the treatment of women who have been screened for breast or cervical cancer under the Every Women Matters Program and are found to need treatment for either breast or cervical cancer.
- Disabled clients who are eligible but for their earnings may remain Medicaid eligible with countable earned and unearned income less than 200% of the federal poverty level. If their countable earned and unearned income falls between 200% and 250% of the federal poverty level, they may retain Medicaid eligibility by paying a premium. This is referred to as Medical Insurance for the Working Disabled (MIWD).

## Managed Care Coverage and Other Contractual Arrangements

All managed care in Nebraska began July 1995. Until December 31, 2001, coverage of mental health/substance abuse services for Medicaid persons across the state was provided through a contract with ValueOptions and paid on a capitated basis. After this date, HHSS developed a contract with ValueOptions initially to operate as a Specialty Physician Case Management (SPCM) administrator to provide certain managed care services. All payments began to be paid on a fee-for-service basis. After July 1, 2002, Magellan was selected as the SPCM administrator.

For managed care of medical/surgical services, only Medicaid persons living in Douglas, Sarpy and Lancaster counties and determined to be mandatory for managed care are required to enroll for coverage. For these persons, all primary care services except prescribed drugs, dental services and personal care aides are covered through the managed care plan.

Beginning in July 1997, HHSS contracted with the Lancaster County Health Department in conjunction with the Douglas County Health Department, the Lancaster County Medical Society, and the Omaha Metro Medical Society to oversee the Managed Care enrollment function through a program referred to as Access Medicaid. Individuals are given a choice to enroll with an MCO plan or Primary Care Case Management (PCCM). The MCO is Share Advantage, administered by United Healthcare of the Midlands. The other choice for an individual is to sign up for the primary care case management plan. The PCCM provider network is administered by Primary Care+. Primary Care+ is responsible for making sure an adequate provider network is available with the Department paying claims on a fee for service basis. The PCCM is paid an administrative fee to maintain a network, provide case management and staff a quality assurance program. The primary care physician in the PCCM network is paid a gatekeeper fee to manage the care of the client.

Managed Care is required for all active Medicaid eligible individuals except for the following groups:

- Individuals in a spend-down status,
- Individuals with Medicare coverage\*,
- Individuals in a long term care facility or ICF/MR,
- Individuals eligible under Katie Beckett criteria,
- Individuals participating in a home and community-based waiver,
- Individuals participating in presumptive eligibility period,
- Individuals participating in subsidized adoption programs\*,
- Individuals with certain health insurance coverage (only applies to med/surg),
- Individuals residing out of state for reasons other than referral/receipt of medical services or residing out of the plan area,
- Individuals receiving organ transplants.

\*Effective 7/1/2005 Medicare eligibles and subsidized adoption program recipients are mandatory for Behavioral Health Managed Care.

Managed care plan areas for Primary Care coverage are Douglas, Sarpy and Lancaster counties. Mental Health/Substance Abuse managed care coverage is statewide.

**Source of Funding**

The Medicaid Program is supported by federal and state general funds. Until July 1, 1986, counties also shared in part of the costs. The federal match rate is evaluated every year and is never less than 50 percent under Title XIX.

Under the Title XXI provisions of the Balance Budget Act of 1997, an enhanced federal match rate became available for services provided under the Children's Health Insurance Program. The enhanced rate is 70% of the federal match rate plus thirty percentage points.
