

## Reduction Requirements

The documentation required for a reduction of the Medicaid subrogation is listed below. Before listing the specific amounts for each provider, please compare the provider claims to the billed amounts on the Medicaid subrogation in order to identify duplicate claims. Any claims that match a claim paid by Nebraska Medicaid must be removed from the provider lien.

[471 NAC 3-004.06C]

In situations where the settlement funds are insufficient to cover all liens, costs, and expenses, the State of Nebraska may be willing to consider the possibility of a negotiation. In order to do so, the following required documentation must be provided:

- A copy of the fee agreement between the attorney and the client
- An itemization of all liens, costs, and expenses
- The proposed, or actual, settlement or judgment amount
- Proposal for reduction of attorney fees and costs
- If the client is also a Medicare recipient, the total amount Medicare has agreed to reduce
- A brief synopsis explaining why a reduction is necessary

Once you have supplied the required documentation, the case will be reviewed to determine whether a negotiation is warranted.

Please reference the following State statutes [477 NAC 12-001] and [477 NAC 12-002.01]

**A settlement distribution will be required upon conclusion of this case.**
