RE: Telehealth and Telemonitoring codes and application to services

This Health Plan Advisory is being issued to provide information to Heritage Health Plans regarding telehealth and telemonitoring and their application to services.

The telehealth and telemonitoring codes apply to all services. However, due to limitations of our current MMIS system, the codes will only appear on the mental health and physician fee schedules.

The telehealth and telemonitoring codes that apply to all services are as follows:

 - This is a monthly code but Medicaid rate is a daily per diem of \$6/day.
 - Providers need to bill for each date of service on a separate line for audit and program integrity purposes.
- Originating Site Fee
 - HCPCS code Q3014 can be paid at the Medicaid rate of \$20 per visit.
 - This code is paid to the facility hosting the member.
- Transmission fee
 - HCPCS T1014 can be paid at the Medicaid rate of \$0.08/min.
 - This code can be paid to the provider or the facility hosting the member.
