State Nebraska

LIMITATIONS – PROSTHETIC DEVICES

The Nebraska Medical Assistance Program covers the purchase or rental of durable medical equipment, medical supplies, orthotics, and prosthetics that meet program guidelines when prescribed by a physician or other licensed practitioner whose licensure allows prescribing these items (M.D., D.O., D.P.M.). To qualify as a covered service under NMAP, the item must be medically necessary and must meet the definitions in state regulations.

NMAP does not cover items that primarily serve personal comfort; convenience; or educational, hygienic, safety, or cosmetic functions; or new equipment of unproven value and/or equipment of questionable current usefulness or therapeutic value.

NMAP does not generally enroll hospitals, hospital pharmacies, long term care facilities; rehabilitation services or centers, physicians, physical therapists, speech therapists, or occupational therapists as providers of durable medical equipment, medical supplies, or orthotics and prosthetics.

Durable medical equipment is equipment which:

1. Withstands repeated use;
2. Is primarily and customarily used to serve a medical purpose;
3. Generally is not useful to a person in the absence of an illness or injury; and
4. Is appropriate for use in the client's home. This generally does not include long term care facilities.

Coverage conditions for individual services are listed with the procedure code descriptions.
