Other Resident	574 (4.0%)

TOTAL NE RESIDENTS	15,053
Non-NE Residents	574
TOTAL PATIENTS	15,627

*High Age at Diagnosis is due to missing data

Diagnosis of PD based on physician office confirmation or death certificate

*The registry began collecting data in 1997.

**Decrease in cases reported due to registry downtime caused by lack of program funding.

***Data collection is on-going, therefore yearly totals are not final.
