Nebraska DHHS – OJS **2017 Annual Prison Rape Elimination Act Report**

The Nebraska Department of Health and Human Services – Office of Juvenile Services (DHHS-OJS) is pleased to publish its 2017 Annual Report. This report reflects the efforts, commitment, and changes made in 2017 as the Department continued toward compliance with the Prison Rape Elimination Act (PREA) Juvenile Standards. DHHS-OJS is committed to keeping the youth we serve at the Youth Rehabilitation and Treatment Centers (YRTC's) safe and free from harm and has zero tolerance for sexual abuse and sexual harassment.

In September of 2003, President Bush signed the Prison Rape Elimination Act. In August 2012, the PREA Standards promulgated by the United States Department of Justice went into effect. Since then, staff throughout the Department have taken action to prevent, detect, and reduce sexual abuse and sexual harassment in the YRTC's located in Geneva and Kearney.

Staffing

Protecting youth residents from sexual abuse and sexual harassment and compliance with the PREA Standards is a priority for DHHS-OJS and staff from the Department have been involved in achieving these goals. To achieve these goals an agency Compliance team was developed. The Compliance team consists of a State Compliance Coordinator who oversees both Compliance Managers at each YRTC facility. The Compliance Managers are the facility's PREA Compliance Managers.

In 2017, these staff, and others have worked to update and revise existing Agency Administrative Regulations and Facility Operational Memorandums to support compliance with the PREA Standards and protect the youth residents from sexual abuse and sexual harassment.

These policies also outline facility response and investigation requirements for reports of sexual abuse / sexual harassment. In order to demonstrate continued commitment to improvement, these policies will be reviewed and revised as needed in 2018.

SUMMARY OF ALLEGATIONS

The Youth Rehabilitation and Treatment Center – Kearney (YRTC-K) received 19 allegations of youth on youth sexual harassment and 1 allegation of staff on youth sexual harassment during the calendar year 2017. The majority of the substantiated allegations were related to verbal comments or inappropriate gestures from one youth to another. Youth received a variety of consequences for their behaviors, ranging from re-training on the importance of sexual safety to major rule violations. There was a rise in false reporting this reporting period by youth to get other youth in trouble or staff in trouble. This has been addressed by talking with the youth about the importance of false reporting and issuing major rule violations when false reporting is confirmed. The staff on youth allegations were verbal comments made towards the youth. This allegation was unfounded. The YRTC-K is committed to providing the youth it serves a safe and secure environment and therefore documents all allegations of sexual harassment, regardless of the intent of the comment or gesture. As previously mentioned a majority of the allegations stemmed from inappropriate comments or gestures, more often than not, utilized to aggravate or anger another youth rather than to sexually groom that youth.
