Use this data packet to find the figures needed to update the data section on your action plans for your 5 joint goals.

In order to make these updates, locate the action plan forms previously submitted with your FY2018 plan. Make your updates directly on the action plan forms that you previously submitted.

As a reminder, your previously submitted action plan forms were written on templates that looked something like this.....see examples below.

LA Name: _____ **FY 2017 Action Plan**

Joint Breastfeeding Goal
By October 1st, 2019, the percentage of WIC infants who are exclusively breastfed at 6 months of age will be greater than or equal to 20%.

Data Source: Journey Breastfeeding Prevalence Report

JOINT STRATEGY #1: Promote and support exclusive breastfeeding for all WIC mothers and their infants.

ACTION STEPS: (what & why)	WHO:	WHEN:	SPECIAL NOTES:
1. Coordinate with local agencies to assess their current status in breastfeeding promotion and support, i.e. success of implementation of the NWA Six Steps to Achieve Breastfeeding Goals for WIC Clinics	Narissa Scales	October 2018	
2. State and Local agencies will increase presence of positive WIC Breastfeeding messages on social media outlets to provide credible and scientifically sound breastfeeding messages on a platform that is potentially viewed by a large number of WIC participants.	Narissa Scales Breastfeeding Work Group	Ongoing	<i>Progress 2018: There has been one Local Agency that created a breastfeeding Facebook page.</i>
3. State and local agencies will collaborate with partners in activities that promote and support breastfeeding to ensure breastfeeding messages are consistent and to increase overall support for breastfeeding outside of the WIC environment.	Narissa Scales Breastfeeding Work Group	Ongoing	<i>Progress 2018: Nutr & BF Coord. is now a member and attend meetings for the Douglas County Breastfeeding Coalition</i>
4. Provide consistent training on motivational interviewing and counseling skills for staff to use when working with providing nutrition education to breastfeeding mothers.	Narissa Scales	April 2017	<i>Progress 2017: Kate Speck presented on motivational interviewing at WIC/CSFP Annual conference in May 2017</i> <i>Progress 2018: Will hold webinar on VENA and goal setting, which will contain information about motivational interviewing and counseling skills on July 31, 2018.</i>
5. Strengthen training plan for ensuring all WIC local agency staff receive competency based breastfeeding training.	Narissa Breastfeeding workgroup	Ongoing	• <i>Including continuing education opportunities.</i>
6. Identify or develop and provide educational materials for LA Staff to use with participants for education, promotion and support of breastfeeding messages.	Narissa Breastfeeding workgroup	Ongoing	<i>Progress 2018: Created and provided education materials to use with participants for education of breastfeeding messages</i>

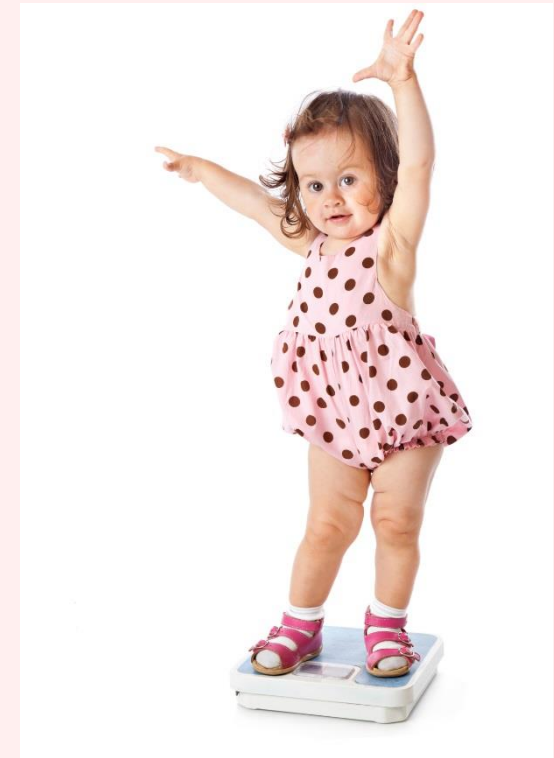

Exp: State Plan Progress notes are written in the Special Notes Section

This is an example of how we would like you to record and document your progress

LA Progress

State Progress

Joint Nutrition/Obesity Goal:

By Oct 1, 2019 the percentage of WIC children ages 2-5 who are overweight/obese will be less than or equal to 18%. FFY 2016 State Baseline 27.2%; FFY 2017 State Progress 25.3%;

Your Local Agency Data

- **Reminder:** The Journey risk code report we were initially wanting to use for this goal was not working
- The chart in the slide above is data from a query that Choo ran that we used instead
- Record your LA data on your action plan; the space for the data is slightly different that we first used since we changed the report; update any actions steps and record your progress in the special notes section

LA Name: _____

FY 2018 Action Plan

JOINT NUTRITION/OBESITY GOAL: By October 1st, 2019, the percentage of WIC children ages 2-5 who are overweight/obese will be less than or equal to 18%.

Data Source: Query of Nutrition Risk Report (113 obese, 114 overweight)

Record your LA data on your action plan

FFY 2019 Action Plan – Nebraska WIC Program – Progress Report

Functional Area II. Nutrition Services

Joint SA/LA Nutrition Goal: By October 1st, 2019, the percentage of WIC children ages 2-5 who are overweight/obese will be less than or equal to 18%.

STATE PROGRESS DATA

Data Source: Journey Query--unduplicated children ages 2-5 with risk codes 113 & 114 during FFY

Date	Children Risk 113, 114	Total Children 2-5 years	% of children with Overweight & Obese Risk
2017	6,184	24,480	25.3%
2016 (baseline)	6,508	23,938	27.2%

Needs Assessment:

- According to a WIC system query of assigned nutritional risk criteria, 27.2% of children participating in WIC have the risk for overweight or obese. (Journey Query for FFY2016)
- According to the Centers for Disease Control, in 2011-2012 8.4% of children aged 2-5 had obesity in the United States.
- In the New England Journal of Medicine, a study found that a child who is overweight when entering kindergarten is four times more likely to become obese. Since children are on WIC between the ages of 2-5, we have a great opportunity to ensure that children enter kindergarten at a healthy weight.
- Research has shown that childhood obesity among preschoolers is more prevalent in lower income families (CDC). The 2010 White House Task Force on Childhood Obesity Report to the President, outlined several ways WIC can prevent low income children from becoming overweight and obese through breastfeeding peer counseling programs, WIC cash vouchers for fruits and vegetables and the WIC farmer's market initiative.

Caseload – Baseline Data

Joint Caseload Goal:

By Oct 1, 2019 the average State participation will be increased by 5%.

- 2016 Baseline 37,480
- 2017 Progress 36,841

Functional Area VII. Caseload Management

Joint SA/LA Caseload Management Goal: By October 1, 2019 the average State participation will be increased by 5%.

Data Source: Journey Participation with Benefits Report

STATE PROGRESS DATA

Year	Average Participation
2017	36,841
2016	37,480

Needs Assessment:

- Demographics and reach: Total participation has been on a downward trend for several years. Nebraska (2012 – 42,079; 2013 – 39,495; 2014 – 38,543; 2015 -37,167). There was a slight increase in 2016 but 2017 was down 1.7% to 36,841. So far in 2018 the monthly average is 35,425, down by 3.85%.
- Average WIC Enrollment has also decreased from 49,027 in 2012 to 45,305 in 2016. 2017 continued to decrease to a monthly average of 43,171. So far in 2018 enrollment is down to 40,618 (6% decline).
- No major difference between Nebraska and the U.S.
- The trend is driven by multiple factors, such as child participation, lower birthrate, and number of immigrant populations seeking services.
- WIC Moms have lower education levels than the general US population. Thus, outreach and education need to consider this.
- Nebraska WIC serves a greater percentage of Medicaid participants than the U.S.
- The current child bearing age women are media savvy and need different outreach techniques.

JOINT STRATEGY #1: Participate in the National WIC Association (NWA) media campaign statewide.

ACTION STEPS: (what & why)	WHO:	WHEN:	SPECIAL NOTES:
1. Develop a WIC Outreach workgroup including state staff and local agency staff. Continue to meet during the year. This group helps provide input from several levels of WIC services with Local Agency Clerks, LA Directors, LA Vendor Manager, as well as state staff.	State Administrative Operations/Outreach Coordinator	Fall 2017 Spring 2018	<i>Progress 2017: Met twice in FY 17. Will meet quarterly in FY 18.</i> <i>Progress 2018: One conference call was held and one face to face meeting is scheduled.</i>
2. Review NWA Outreach media campaign materials. Determine which parts of the NWA media campaign to use in the various parts of Nebraska. Continue to select areas of the campaign to use as we continue.	State Outreach Coordinator and Outreach workgroup	Fall 2017 Spring 2018	<i>Progress 2017: On going. Selected state logo, developed outreach brochure,</i> <i>Progress 2018: Several local agencies have used the NWA logo and design in their clinics.</i>
2. Prepare webinar for Local Agency WIC Directors. Determine when next webinar is needed. This helps keep all agencies on the same page in regards to using campaign materials. It also give local agencies ideas to try in their own area.	State Outreach Coordinator and Outreach workgroup	December 2017	<i>Progress 2017: Presented intro to campaign on 3/31/17. Discussed new brochure on 6/30/17 webinar.</i> <i>Progress 2018: Discussed Outreach ideas at WIC Directors (NeWA) meeting.</i>
3. Review their findings and tailor selected materials to Nebraska needs. Prepare order for new outdoor signage for clinics.	State Outreach Coordinator and Outreach workgroup	January 2017 Fall 2017	<i>Progress 2017: Completed Outreach Brochure using new materials.</i> <i>Progress 2018: Revised Outreach Brochure with new income guidelines June 2018.</i>
4. Start Media Campaign Statewide. Continue Campaign with outreach to physicians serving WIC participants. Physician pamphlets from NWA will be sent to area clinics. Materials are consistent with the new logo and format that the Outreach Brochure contains.	State Staff, Outreach workgroup, Local Agencies involved	October 2017	<i>Progress 2017: Nebraska DHHS is using new materials on their facebook page. Outreach brochures sent to LA July 1, 2017. Ran quarterly reports on referrals.</i>

State Action Plan

Diversity – Baseline Data

Joint Diversity Goal:

By Oct 1, 2019 WIC agencies will demonstrate an increased capacity in delivering culturally competent WIC services as measured through an evidenced based assessment tool.

Data Source – 3 assessment tools

- Clinic Services Assessment Tool
- Agency Assessment Tool
- Staff Perception Tool

See power point from Marge that was handed out at WIC Dir meeting

2019 Action Plan

DIVERSITY GOAL

Joint Diversity Goal: By October 1, 2019 WIC agencies will demonstrate an increased capacity in delivering culturally competent WIC services as measured through an evidence based assessment tool.

Data Source: Use of an evidence based assessment tool.

JOINT STRATEGY #1: Identify and implement an evidence based tool to assess culturally competent WIC services.

ACTION STEPS: (what & why)	WHO:	WHEN:	SPECIAL NOTES:
Evaluation Methods will be:			

Add additional lines as needed

Review the power-point summary of info provided from the 3 assessment tools as a resource when making your action steps.

FFY 2019 Action Plan – Nebraska WIC Program—Progress Report

Functional Area VII. Caseload Management

Joint SA/LA Diversity Goal: By October 1, 2019 WIC agencies will demonstrate an increased capacity in delivering culturally competent WIC services as measured through an evidence based assessment tool.

Data Source: Use of an evidence based assessment tool.

Needs Assessment:

- WIC client makeup has become increasingly more diverse.
- Lack of translation services and interpreters for newly arrived refugees creates barriers to services.
- Clinics and the clients they serve are very diverse (rural/urban, immigrants/farm families, teens/grandparents, English/multiple languages)
- Nebraska has seen an influx of migrants and refugees in the last 10 years.
- In 2014 56% of WIC clients in Nebraska identified with a race other than White.
- In June 2018 37% of WIC clients in Nebraska identified as Hispanic.
- In June 2018 26.5% of WIC clients in Nebraska identified with a race other than White.
- In 2018 34% of WIC clients spoke a language other than English. Most common languages spoken were: Spanish 24%; Karen 2.3%; Arabic 1.7%; Somali 1.3%; Kurdish 1%.

JOINT STRATEGY #1: Identify and implement an evidence based tool to assess culturally competent WIC services.

ACTION STEPS: (what & why)	WHO:	WHEN:	SPECIAL NOTES:
1. Convene a workgroup made up of state and local agency staff to identify a measurement tool.	Marge and Liz	August 2016	<i>Progress 2017: Workgroup met to select assessment tools to complete staff and Agency assessments</i> <i>Progress 2018: Completed</i>
2. Workgroup will develop criteria to use to select a tool	Marge, Liz, Workgroup	October 2016	Consider purpose of tool, ease of data collection and reports produced.

Mental Health – Baseline Data

Joint Mental Health Goal:

By Oct 1, 2019 increase the *number* of mental health referrals by 25%

Data Source:

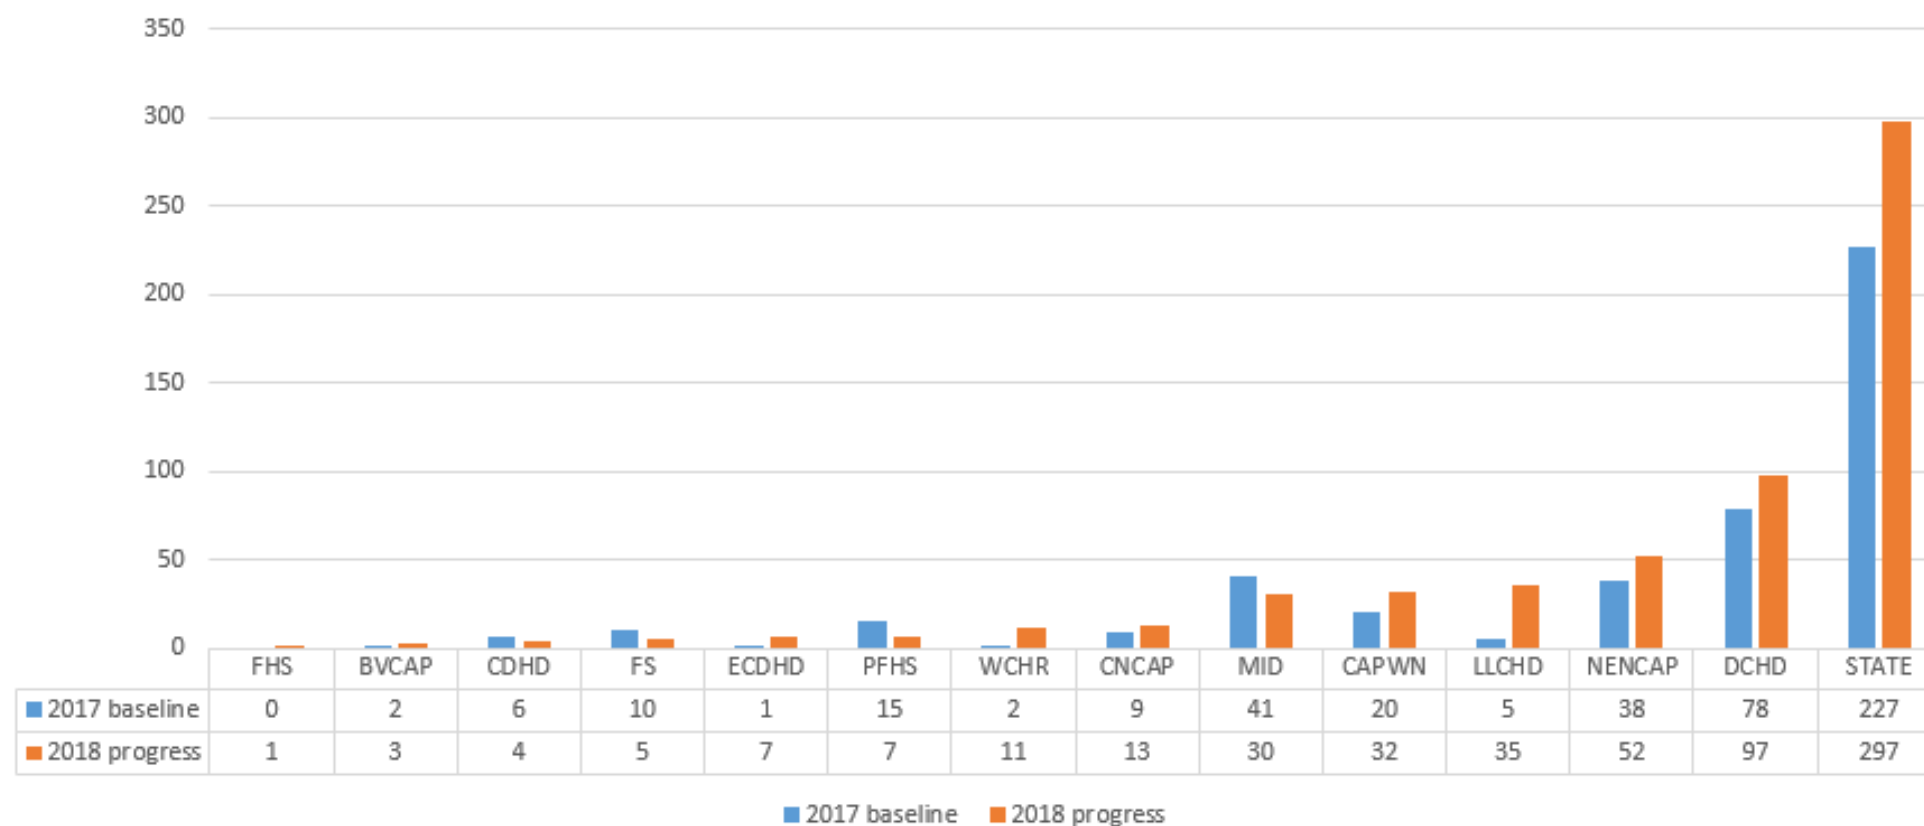

New Journey Referral Summary Report –newly created referral code referring to mental HCP

State Baseline: 227 – June 1, 2016 – June 30, 2017

State Progress: 297 - June 1, 2017 – June 30, 2018

Mental Health Goal - Baseline Data # of referrals to Mental Health Provider - By Local Agency Referral Summary Report 2017 & 2018

Your Local Agency Data

June 2017 – June 2018		June 2017 – June 2018	297

JOINT STRATEGY #1: Implement a maternal mental health screening, referral and education policy/process.

ACTION STEPS: (what & why)	WHO:	WHEN:	SPECIAL NOTES:
EVALUATION METHODS:			

Add additional rows as needed

FY 2019 Action Plan – Nebraska WIC Program—Progress Report

Functional Area VIII. Certification, Eligibility and Coordination.

Joint SA/LA Goal: By October 1, 2019, increase the number of mental health referrals by 25%.

New Data Source: Journey Referral Summary Report

Date	Total # Of Referrals To Mental Health Provider
June 2017 - June 2018	297
June 2016 - June 2017	227

- Using newly created referral code

Needs Assessment:

- According to WIC system reports of assigned nutritional risk criteria, 6%, 8% and 11.7% of pregnant, breastfeeding and not breastfeeding women participating in WIC, respectively, have the risk for diagnosed depression. (Journey, June 2018)
- Nebraska Pregnancy Risk Assessment Monitoring System (PRAMS) information sheet:
 - 2011 PRAMS data shows that 1 out of 10 Nebraska mothers report depression or sadness.
 - Nationwide – Post Partum Depression is estimated to occur among 10-15% of mothers who have recently given birth.
 - Research shows that the experience of mental illness in the household may effect a child's brain development.
 - "Mothers with PPD are less likely to engage in healthy parenting behaviors, compromising mother-infant bonding and attachment. In extreme cases, mothers have harmed themselves or their babies."
 - "All new mothers should be screened for PPD. However, some Nebraska mothers are particularly 'at risk' for PPD: teens, those with fewer years of education, those who experienced stressful life events, racial/ethnic minorities, uninsured, insured by Medicaid, WIC recipients, those living in poverty, tobacco users"

JOINT STRATEGY #1: Implement a maternal mental health screening tool, referral and education policy/process.

ACTION STEPS: (what & why)	WHO:	WHEN:	SPECIAL NOTES:
1. Create a work group to select a maternal mental health screening tool.	Narissa	Oct 2017	<ul style="list-style-type: none"> • Progress 2018: Created maternal mental health

State Action Plan
Example of a page
showing how to record
your progress in the
special notes field.

ACTION STEPS: (what & why)	WHO:	WHEN:	SPECIAL NOTES:
			<i>workgroup with two behavioral health therapist, Marge Blankenship (NE WIC Program), one urban and one rural Local WIC agency.</i>
2. Research and select appropriate evidence based maternal mental health screening tool.	Workgroup	Jan 2018-July 2018	<i>Progress 2018: Through research and discussions within the workgroup, we decided to pilot the PHQ 4, which has been validated in a WIC population.</i>
3. Pilot use of mental health screening tool as part of the WIC assessment.	Selected LA's	March 2019-July 2019	
4. Support Local agencies in the creating/updating of a referral list dedicated to mental health agencies in the community.	Workgroup	Ongoing	<i>Progress 2017: Susan consistently updates this list as LAs send her information.</i>
5. Create referral codes for mental health to provide baseline referral percentages.	State WIC Staff	Oct 2016	<i>2017: Complete</i>
6. Investigate how to utilize Journey to help determine the percentage of women who receive a mental health referral. The referral will be based on the finding of mental health symptoms after completion of the piloted maternal mental health screening tool.	State WIC Staff	March 2019	<i>Julieann, Choo, Narissa</i>
7. Offer annual training opportunities covering general mental health issues for women.	State Staff	Feb 2019-Sept 2019	Provide webinars that focus on maternal mental health
EVALUATION			
Referral reports for women with assigned risk for depression to determine the percentage of these women who receive a referral.
