SNAP (Food Stamps) – Key Performance Metrics

State Reported SNAP (Food Stamps) Application Processing Timeliness

USDA Reported SNAP (Food Stamps) Application Processing Timeliness

This is a DHHS generated report. Data is based on the percentage of SNAP initial applications received which were processed within SNAP federal timelines. In order to meet expedited timeliness, an application must be processed within 7 days. The timeline for non-expedited applications is 30 days.

Data is based on information provided to states from the USDA. Data is reported quarterly using a six month rolling average of SNAP Quality Control data reported by all states/territories. Quality control in Nebraska is conducted by staff within the division of Public Health. **The Jan 2016 – Jun 2016 Federal data is not available at this time.

USDA SNAP (Food Stamps) Payment Accuracy Rate

USDA SNAP (Food Stamps) Denial Accuracy Rate

Data is based on information provided to states from the USDA. Data is reported monthly using SNAP Quality Control data reported by all states/territories. Payment accuracy rate measures the amount of correct SNAP benefits provided to households. Quality control in Nebraska is conducted by staff within the Division of Public Health. **The April 2016 Federal data is not available at this time.

Data is based on information provided to states from the USDA. Data is reported monthly using SNAP Quality Control data reported by all states/territories. Denial accuracy rate measures whether a household's SNAP benefits are correctly closed or denied, whether the household was informed of their ineligibility in a timely manner and whether the notice of action provided to households is accurate. Quality control in Nebraska is conducted by staff within the Division of Public Health. **The April 2016 Federal data is not available at this time.
