Service Attachment--Agency Supported Foster Care

Effective July 1, 2015

Definition

Agency Supported Foster Care (ASFC) Service is defined as out of home care in a licensed foster or kinship home or the home of a relative that is supported by a licensed child placing agency (CPA) and designed to meet the complex needs of children who have experienced trauma, abuse, neglect and other serious issues which require out of home placement.

Recruitment of agency supported foster families is defined as active and ongoing efforts to solicit families who are invested in meeting the unique needs of the children and youth served by DHHS. Recruitment includes undertaking targeted and diligent efforts to locate foster families for specific children upon request by DHHS. Recruitment efforts will include engaging communities across the state through outreach and education activities to increase awareness of the need for foster parents who reflect the ethnic and racial diversity of the children served by DHHS.

Recruitment activities may include: organizing special events, speaking engagements, advertising, and networking, etc.

Agency Supported Foster Care Subrecipients will work collaboratively with DHHS local staff to develop a Foster Care Recruitment and Retention Plan that is reflective of the types of foster care homes needed as well as the ethnic and racial diversity of children served in the Service Area. The Foster Care Recruitment and Retention Plan must also identify specific strategies designed to support and improve the retention of foster care families. The Foster Care Recruitment and Retention Plan must also include timelines for strategy implementation and specific, measurable goals for increasing the Subrecipient's number of newly licensed foster families.

Retention is defined as keeping both prospective and current foster, adoptive, and kinship families interested and invested in accepting placement of foster children by treating people well, meeting their needs, and providing encouragement and individualized support beginning with pre-service training and continuing through post placement services.

The Subrecipient shall notify DHHS of placement options within five (5) calendar days of receipt of a placement request by DHHS. When placement requests are marked urgent, the Subrecipient shall respond to DHHS within one hour of receipt of the placement request to notify DHHS of any progress toward securing a foster home placement.

Support is defined as being readily accessible and responsive to foster families in meeting their needs and intervening as necessary to stabilize crisis episodes and prevent placement disruptions. Support includes providing face-to-face visits in the foster parent's home a minimum of one time per month, and more frequently as needed based on the needs of the foster parent and or the child as determined by the Child and Adolescent Needs and Strengths (CANS) Tool or the Family Strength and Needs Assessment (FSNA) Tool. More frequent phone

Effective July 1, 2015

calls may be necessary to maintain communication and develop ongoing rapport. During face-to-face visits, Subrecipients will :

- review and discuss the foster parent's ability to meet the needs of the youth placed in their home, and
- identify stressors the foster parent(s) may be experiencing, and
- review and offer concrete supports, such as transportation, more frequent face-to-face visits, and other resources to ameliorate the stressors; and,
- identify and reinforce the strengths demonstrated by the foster parent(s), and
- assess the current suitability of the child(ren) placed with the foster parent(s), and
- encourage foster parents and youth to complete the "caregiver information form" and the "youth questionnaire form" and submit completed forms to the court, prior to the youth's review hearing and permanency hearing; and,
- encourage and facilitate the use of respite care and educate foster parents on the importance of accepting foster children back into their care after respite care in order to avoid the additional trauma to children from sudden and unplanned placement changes; and
- identify appropriate respite care options, conduct necessary background checks on prospective respite care providers, and facilitate a smooth transition for the child(ren) to and from the respite care home; and,
- provide or arrange for foster parents to receive ongoing training and one-on-one instruction and guidance, as needed, to help promote "normalcy" for youth in their care through the use of reasonable and prudent parenting standards that provide opportunities for youth to grow emotionally, socially, and developmentally by having the most family-like experience possible; and,
- tailor foster parent support to the individual and unique circumstances experienced by relative and kinship foster parents; and,
- review the status of the foster parent(s) license and work diligently to renew the foster parent(s) license timely and prevent the lapse, or need for an extension of the foster parent(s) license.

Support will also include ongoing communication that will be delivered by phone, email, or text message and will include being available to foster care families 24 hours a day, 7 days per week including holidays and weekends.

The Subrecipient shall utilize Trauma Informed Partnering for Safety - Model Approach to Partnerships in Parenting (TIPPS-MAPP) or TIPPS-MAPP Deciding Together curricula when providing initial pre-service training to license foster parents. The Subrecipient shall also provide ongoing training that is relevant and that enhances the foster care family's ability and capacity to meet the unique needs of children age 0 to 5 years old, and all other youth for whom they are providing care. This ongoing training must

Service Attachment--Agency Supported Foster Care

Effective July 1, 2015

be a combination of face-to-face training, classroom training, web-based training, and reading materials that meets the above criteria.

The Subrecipient shall develop a Placement Support Plan in a standard format provided by DHHS that is specific and individualized for each child placed in a licensed, kinship, or relative foster care or adoptive home, affiliated with the Subrecipient. The Placement Support Plan shall address how the Subrecipient will prevent the placement from disrupting in order to minimize trauma to the child(ren) and identify interventions to be used during a time of crisis in order to stabilize the placement. The Placement Support Plan will be submitted to the designated DHHS staff within seven (7) business days of physical placement of the youth.

As part of supporting the foster care family, the Subrecipient shall communicate all known information about the child to the foster care family. The Subrecipient will also provide input to planning processes i.e. Family Team Meetings, Independent Living Plans and preparation of Case Plans and Court Reports, as well as attend Family Team Meetings, when requested by DHHS or by the family.

The Subrecipient shall complete all activities required for licensing and placement purposes. The Subrecipient shall make every effort to complete licensing activities with kinship and relative foster care families in order to maximize IV-E Federal funding. The Subrecipient shall make foster care placement decisions that enable youth to remain in the youth's home school/school of origin. When this is not possible, the Subrecipient must immediately notify the DHHS Case Manager in writing.

The Subrecipient will provide any information requested by DHHS necessary to complete reports required by any applicable Federal or State law and regulation.

The Subrecipient shall complete all foster care home studies in accordance with DHHS policy, utilizing the home study template provided by DHHS. The Subrecipient shall update all home studies for licensed homes every two years and for all homes when there is a change in circumstance in the foster care home.

All Subrecipients shall be in compliance, and remain in compliance, with all DHHS policy and regulation.

All Subrecipients shall be in compliance, and remain in compliance, with regulation and licensure as a Child Placing Agency for foster care services and adoption services established by the Division of Public Health by the date this Subaward is fully executed.

Subrecipients who are accredited by a nationally recognized accreditation organization shall complete adoption home studies and provide pre-adoptive services for those youth in placement with the Subrecipient.

Service Attachment--Agency Supported Foster Care

Effective July 1, 2015

Subrecipients who are not accredited by a nationally recognized accreditation organization must work toward accreditation, and must submit written evidence of their progress toward accreditation for foster care services.

Subrecipients who are not fully accredited by a nationally recognized accreditation organization must ensure that adoption home studies and pre-adoptive services for those youth in placement with the Subrecipient are completed by a fully accredited agency that is licensed as a Child Placing Agency to provide adoption services as established by the Division of Public Health.

Adoption services shall include, but not be limited to, (1) completing and utilizing the adoptive home study as a comprehensive assessment tool to help determine the prospective adoptive family's ability to make a lifelong commitment to providing a nurturing home for the child(ren); (2) preparing the child(ren) for adoption, and assessing the level of integration and adjustment of the adoptive child(ren) to the prospective adoptive home; (3) providing support services to assist the prospective adoptive family with the creation of a new family unit; and, (4) assisting the prospective adoptive family with planning for post-adoptive services across the lifespan.

For purposes of this Subaward, the requirements for adoption services shall be limited to those necessary to conduct domestic adoptions.

The Subrecipient shall be responsible for transporting foster care children to their home school, activities, and services that are located within a 25-mile radius from the foster care home to support foster parents as needed, at no additional cost to DHHS. Activities and services include, but are not limited to, behavioral health appointments, medical appointments, and extra-curricular activities. DHHS encourages foster families to transport their foster care children to and from scheduled visits with the children's parents, siblings, and family members whenever possible and practicable.

When an emergency transition from a foster care home is likely to occur, the Subrecipient shall collaborate with DHHS to identify interventions and resources that could preserve the child's placement. When it is not possible to preserve the child's placement, the Subrecipient shall provide DHHS with as much notice as possible, but no less than fourteen (14) calendar days, in order to allow ample time to identify and secure the next placement and to provide notification to the Courts and legal parties as required.
