SUBJECT: Program Instructions and Information Memorandum Archiving

CONTENT: Program Instructions (PIs) and Information Memorandum (IMs) are issued by the State Unit on Aging (SUA) to Area Agencies on Aging (AAAs) to provide guidance, directives and information regarding activities under the Federal Older Americans Act and the Nebraska Community Aging Services Act.

When new PIs and IMs are published, they often override previous documents. These PIs and IMs are identified by the SUA as archived. AAAs should no longer refer to the archived PI or IM but use the current version. PIs and IMs superseding earlier materials will be noted in the text.
