Public Inspection of the State Plan and Pre-expenditure Report

A draft of this plan was published May 2, 2013, and distributed to Nebraska Department of Health and Human Services local offices and interested groups for comment. Newspaper advertisements were published to announce the availability of the draft report for review. The draft report was published on the Nebraska Department of Health and Human Services website and made available by mail to allow interested groups and individuals to comment. The public comment period ran from May 2, 2013 through 4:00p.m. CST May 31, 2013.

Narrative Pre-expenditure Report

Administrative Operations

The Governor of Nebraska has designated the Nebraska Department of Health and Human Services as the state agency to receive and administer the Title XX Social Services Block Grant. The department has composed this plan to meet the requirements for receiving Title XX Social Services Block Grant funds and to facilitate public comment on the services to be supported by Title XX funds.

The Department's mission is "Helping people live better lives." This is the focus of the work that is completed every day, whether we are educating and protecting people through public health efforts; assisting the elderly, the impoverished and those with disabilities; providing safety to abused and/or neglected children or vulnerable adults; or serving those in need of 24-hour facility care.

The responsibilities for SSBG services to elderly persons and persons with disabilities reside in the Division of Medicaid and Long-Term Care. Services focused on children, families and children and adult protective services are administered by the Division of Children and Family Services.

The services provided by the Block Grant are designed to support the following objectives:

1. Enable families to stay together;
2. Allow elderly individuals and persons with disabilities to remain independent;
3. Promote integration in communities for elderly individuals and persons with disabilities;
and;
4. Prevent or remedy abuse and neglect.

State Offices/Departments

SSBG funds are utilized in the Medicaid and Long-Term Care and Children & Family Services Divisions. Funds support various programs and services within these Divisions. The following is a brief description of the services supported by each of the DHHS Divisions:

1) Medicaid and Long-Term Care Division administers the services for the elderly and adults with disabilities which include the following:

- a. Case Management;
- b. Congregate Meals;
- c. Adult Day Care;
- d. Home Delivered Meals;
- e. Home-Based Services;
- f. Homemaker for Adults;
- g. Special Services Disabled; and
- h. Transportation Services.

2) Children and Family Services Division administers the services for children and their families which include the following:

- a. Case Management;
- b. Day Care-Children (Center Based Child Care Services);
- c. Homemaker;
- d. Independent and Transitional Living Services;
- e. Child Protective Services;
- f. Adult Protective Services; and
- g. Transportation Services.

Staff provided services are delivered by the Children & Family Services Division to all populations at the local level. Other services are delivered through independent contractors.

Fiscal Operations

1. Description of Criteria for Distribution:

Nebraska identifies all expenditures claimable under SSBG and distributes federal funding on a pro-rata basis.

2. Distribution and Use of Funds:

Nebraska uses historical expenditures and caseload trends to project the need for SSBG funds and distributes federal funds accordingly.

3. Description of Financial Operations System:

The Nebraska Department of Health and Human Services follows the federally approved Public Assistance Cost Allocation Plan (PACAP) to identify administrative costs related to the Social Service Block Grant.

The allocations in the PACAP have a variety of allocation methodologies depending on the category of costs. A Random Moment Time Study is used to identify costs for the Social Services section of the Service Area activities. The number of clients receiving benefits is used to identify the costs from NFOCUS, the eligibility and payment system. Time reporting and direct charge items are also used in the overall accumulation of Social Service Block Grant Costs.

Program Operations

SSBG Statutory Goals the State Plans to Achieve:

Social Services are authorized based on the client's income eligibility and needs and are not provided based on demand. Need for a particular service implies that the provision of that service will assist the client to advance toward the achievement of one of the five statutory goals:

1. Achieving or maintaining economic self-support to prevent, reduce, or eliminate dependency;
2. Achieving or maintaining self-sufficiency, including reduction or prevention of dependency;
3. Preventing or remedying neglect, abuse or exploitation of children and adults unable to protect their own interests, or preserving, rehabilitating or reuniting families;
4. Preventing or reducing inappropriate institutional care by providing community-based care, home-based care, or other forms of less intensive care; and
5. Securing referral or admission for institutional care when other forms of care are not appropriate or providing services to individuals in institutions.

Characteristics of Individuals to be Served
