STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State of Nebraska

ORGANIZATION AND FUNCTIONS OF THE MEDICAID AGENCY

The Nebraska Department of Health and Human Services is organized into Operations and six Divisions: the Division of Behavioral Health, the Division of Children & Family Services, the Division of Developmental Disabilities, the Division of Medicaid & Long-Term Care, the Division of Public Health, and the Division of Veteran's Homes. The Division of Medicaid & Long-Term Care manages the development and approval of Medicaid policy so that all Divisions operate using the same policies.

Operations includes Human Resources, Communications & Legislative Services, Financial Services, Information Systems & Technology, Regulatory Analysis & Integration.

The Division of Behavioral Health provides funding, oversight, and technical assistance to the six local Behavioral Health Regions. The Regions contract with local programs to provide public inpatient, outpatient, and emergency services and community mental health, substance abuse, and gambling services.

The Division of Children & Family Services includes the areas of child abuse, foster care, adoption, domestic violence, Employment First, ADC, Medicaid eligibility, refugee resettlement, energy assistance, child care subsidy, child support enforcement, food stamps, economic assistance, Integrated Care Coordination Units, resource development, quality assurance, and parole and community-based juvenile services.

The Division of Developmental Disabilities administers the Beatrice State Developmental Center and publicly-funded community-based developmental disability services.

The Division of Medicaid & Long-Term Care encompasses the Medicaid Program, Home and Community Services for Aging and Persons with Disabilities and the State Unit on Aging.

The Division of Veterans' Homes includes administration of the state Veterans' Homes located in Bellevue, Norfolk, Grand Island and Scottsbluff.
STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

STATE: Nebraska

ORGANIZATION AND FUNCTIONS OF THE MEDICAL ASSISTANCE UNIT

The Division of Medicaid & Long-term Care within the Department of Health and Human Services is comprised of two sections - the Acute Care Programs Section and the Long-Term Care Programs Section. The Director of the Division of Medicaid & Long-Term Care has administrative authority over the operations and functions of the Medicaid program including the issuance of policies.

The Acute Care Programs Section is managed by an Administrator. The Section is organized into four units: Behavioral Health and Managed Care Unit, Medicaid Claims Payment Unit, Operations Unit, and Physical Health Services Unit.

The Behavioral Health, Pharmacy, and Ancillary Services Unit is responsible for the pharmacy program; the behavioral health program; and ancillary services such as transportation and durable medical equipment and supplies.

The Medicaid Claims Unit is responsible for provider enrollment; claims payment; coordination of benefits; data entry; screening; and electronic data interchange (EDI).

The Operations Unit is responsible for the Health Insurance Premium Payment (HIPPI) program; the Medicaid Management Information System (MMIS); estate recovery and third party liability (TPL); the program integrity office; school-based contracts, and project management.

The Physical Health Services Unit is responsible for practitioner services such as dental, physician, visual, therapies, etc.; hospital policy and reimbursement development; disability determinations; and administration of the Nebraska Health Connection, Nebraska's Medicaid Managed Care program under approved 1915(b) waivers. Payment methodology is developed, maintained, and monitored by unit staff. This unit is responsible for formulating the request for proposal (RFP) for the program and well as negotiating contracts with the final selected contractors. The unit is also responsible for submittal of appropriate waivers. Quality assurance functions and contract monitoring are ongoing functions of this unit.

The Long-Term Care Section is managed by an Administrator. The Section is organized into four units: Long-Term Care State Plan Services; Home & Community Based Waiver Services; Safety & Independence Supports Unit; and the State Unit on Aging.

The Long-Term Care State Plan Services unit is responsible for hospice/home health/private duty nursing services; nursing facilities; ICF/MR facilities; personal assistance services; and the Money Follows the Person Grant.

The Home & Community Based Waiver Services unit is responsible for waiver policy; quality assurance; and clinical review.

The Safety & Independence Supports Unit is responsible for the Social Services Block Grant (SSBG) & Federal Grants: Disabled Persons and Family Support (DPFS), Medically Handicapped Children's Program (MHCP) and the Disabled Children's Program (DCP); Adult Protective Services; Early Development Network; and Respite Network/Subsidy.

The State Unit on Aging is responsible for aging services and the Long Term Care Ombudsman Program.

MEDICAL PROFESSIONALS INVOLVED IN THE ADMINISTRATION OF THE MEDICAL ASSISTANCE PROGRAM

Employees:

Employees include a part-time physician, the Medical Director for the Medicaid program, who assists with utilization review, quality of care, and policy development and interpretation. The Medical Director works closely with staff in developing and monitoring quality health policy. This physician also confers with program and payment staff on questions involving the establishment of reasonable reimbursement rates and in determining the appropriateness of medical claims payments and compliance with agency regulations. The Medical Director confers with medical professionals to assure appropriate medical input and oversight of programs. The physician is involved with medical reviews for the State Disability Program.

Three pharmacists are responsible for administering the pharmacy program. They set policy, oversee the payment process and payment vendor, and maintain contacts with providers to ensure program quality.

Eleven registered nurses on staff administer sections of the Medicaid program and provide significant medical input into policy and payment decisions. They also consult with the Program Integrity section. A nurse administrator is responsible for the S-CHIP program and oversees operational issues such as estate recovery, HIPP, program integrity, TPL, school based services, contracting process, and the state plan. Nurse program specialists are located throughout the Medicaid program areas and are responsible for the following service areas: physician, hospital, nursing facilities, mental health and substance abuse, home health nursing, vision, anesthesia, chiropractor, podiatry, rural health clinics, FQHC, lab and radiology. Two nurses assigned to Medicaid waivers also consult on issues involving home health care, hospice, and special needs in long term care facilities.

A social worker/licensed mental health practitioner administers the area responsible for mental health and substance abuse, DME, pharmacy, and transportation services.

Under Contract:

One psychologist and one family therapist serve as consultants to the mental health and substance abuse program, assuring quality care for all levels of behavioral health services. There is a pool of psychiatrists under contract who consult with Medicaid on psychiatric issues.

Three dentists, one podiatrist, one optometrist, and one audiologist, consult with their respective service area. One registered nurse consults with the DME and home health programs. All consultants have input into policy making and claims processing determinations as well as quality of care and utilization review.

Numerous registered nurses, many in local health departments, serve under contracts with local health departments to do Medicaid - particularly EPSDT - outreach; they also work with Medicaid clients regarding such things as barriers to keeping appointments, finding and maintaining a medical home, and using health care resources such as the emergency room appropriately.

b. Would still be eligible for SSI or SSP if cost-of-living increases in OASDI paid under section 215(i) of the Act received after the last month for which the individual was eligible for and received SSI/SSP and OASDI, concurrently, were deducted from income.

☐ Not applicable with respect to individuals receiving only SSP because the State either does not make such payments or does not provide Medicaid to SSP-only recipients.

☐ Not applicable because the State applies more restrictive eligibility requirements than those under SSI.

☐ The State applies more restrictive eligibility requirements than those under SSI and the amount of increase that caused SSI/SSP ineligibility and subsequent increases are deducted when determining the amount of countable income for categorically needy eligibility.

1634(d) of the Act

24. Disabled widows, disabled widowers, and disabled unmarried divorced spouses who had been married to the insured individual for a period of at least ten years before the divorce became effective, who have attained the age of 50, who are receiving title II payments, and who because of the receipt of title II income lost eligibility for SSI or SSP which they received in the month prior to the month in which they began to receive title II payments, who would be eligible for SSI or SSP if the amount of the title II benefit were not counted as income, and who are not entitled to Medicare Part A.

☐ The State applies more restrictive eligibility requirements for its blind or disabled than those of the SSI program.

☐ In determining eligibility as categorically needy, the State disregards the amount of the title II benefits identified in 1634(d)(1)(A) in determining the income of the individual, but does not disregard any more of this income than would reduce the individual's income to the SSI income standard.

☐ In determining eligibility as categorically needy, the State disregards only part of the amount of the benefits identified in §1634(d)(1)(A) in determining the income of the individual, which amount would not reduce the individual's income below the SSI income standard. The amount of these benefits to disregarded is specified in Supplement 4 to Attachment 2.6-A.

☒ In determining eligibility as categorically needy, the State chooses not to deduct any of the benefit identified in § 1634(d)(1)(A) in determining the income of the individual.

3. The State deems as eligible those individuals who became otherwise ineligible for Medicaid while enrolled in an HMO qualified under Title XIII of the Public Health Service Act or a managed care organization (MCO), or a primary care case management (PCCM) program, but who have been enrolled in the entity for less than the minimum enrollment period listed below. Coverage under this section is limited to MCO or PCCM services and family planning services described in section 1905(a)(4)(C) of the Act.  

- The State elects not to guarantee eligibility.
- The State elects to guarantee eligibility. The minimum enrollment period is ___ months (not to exceed six).

The State measures the minimum enrollment period from:  

- The date beginning the period of enrollment in the MCO or PCCM, without any intervening disenrollment, regardless of Medicaid eligibility.
- The date beginning the period of enrollment in the MCO or PCCM as a Medicaid patient (including periods when payment is made under this section), without any intervening disenrollment.
- The date beginning the last period of enrollment in the MCO or PCCM as a Medicaid patient (not including periods when payment is made under this section) without any intervening disenrollment or periods of enrollment as a privately paying patient. (A new minimum enrollment period begins each time the individual becomes Medicaid eligible other than under this section).

1932(a)(4) of Act

The Medicaid Agency may elect to restrict the disenrollment of Medicaid enrollees of MCOs, PIHPs, PAHPs, and PCCMs in accordance with the regulations at 42 CFR 438.56. This requirement applies unless a recipient can demonstrate good cause for disenrolling or if he/she moves out of the entity’s service area or becomes ineligible.

- Disenrollment rights are restricted for a period of months (not to exceed 12 months).
  
  During the first three months of each enrollment period the recipient may disenroll without cause. The State will provide notification, at least once per year, to recipients enrolled with such organization of their right to and restrictions of terminating such enrollment.

- No restrictions upon disenrollment rights.

1903(m)(2)(H) 1902(a)(52) of the Act

In the case of individuals who have become ineligible for Medicaid for the brief period described in section 1903(m)(2)(H) and who were enrolled with an MCO, PIHP, PAHP, or PCCM when they became ineligible, the Medicaid agency may elect to re-enroll those individuals in the same entity if that entity still has a contract.

- The agency elects to re-enroll the above individuals who are eligible in a month but in the succeeding two months become eligible, into the same entity in which they were enrolled at the time eligibility was lost.

- The agency elects not to re-enroll above individuals into the same entity in which they were previously enrolled.

*Agency that determines eligibility for coverage.
Except as provided in items 2.1(b)(2) and (3) below, individuals are entitled to Medicaid services under the plan during the three months preceding the month of application, if they were, or on application would have been, eligible. The effective date of prospective and retroactive eligibility is specified in Attachment 2.6-A.

For individuals who are eligible for Medicare cost-sharing expenses as qualified Medicare beneficiaries under section 1902(a)(10)(E)(i) of the Act, coverage is available for services furnished after the end of the month which the individual is first determined to be a qualified Medicare beneficiary. Attachment 2.6-A specifies the requirements for determination of eligibility for this group.

Pregnant women are entitled to ambulatory prenatal care under the plan during a presumptive eligibility period in accordance with section 1920 of the Act. Attachment 2.6-A specifies the requirements for determination of eligibility for this group.

The Medicaid agency elects to enter into a risk contract that complies with 42 CFR 438.6, and that is procured through an open, competitive procurement process that is consistent with 45 CFR Part 74. The risk contract is with:

- [☐] Qualified under Title XIII 1310 of the Public Health Service Act.
- [☑] A Managed Care Organization that meets the definition of 1903(m) of the Act and 42 CFR 438.2.
- [☐] A Prepaid Inpatient Health Plan that meets the definition of 42 CFR 438.2.
- [☐] A Prepaid Ambulatory Health Plan that meets the definition of 42 CFR 438.2.
- [☐] Not applicable.

A group or groups of individuals who would be eligible for Medicaid under the plan if they were in a NF or an ICF/MR, who but for the provision of home and community-based services under a waiver granted under 42 CFR Part 441, Subpart G would require institutionalization, and who will receive home and community-based services under the Waiver. The group or groups covered are listed in the waiver request. This option is effective on the effective date of the State's section 1915(c) waiver under which this group(s) is covered. In the event an existing 1915(c) waiver is amended to cover this group(s), this option is effective on the effective date of the amendment.

This includes PACE enrollees who reside in the community who are eligible using institutional rules.

The following monthly amounts for personal needs are deducted from total monthly income in the application of an institutionalized individual’s or couple’s income to the cost of institutionalized care:

Personal Needs Allowance (PNA) of not less than $30 For Individuals and $60 For Couples For All Institutionalized Persons.

a. Aged, blind, disabled:
   Individuals $ 60
   Couples   $ 120

   For the following persons with greater need:
   - Individuals with a guardian or conservator
   - Individuals in an ICF-MR (ICF-ID) who participate in a sheltered workshop

   Supplement 15 to Attachment 2.6-A describes the greater need; describes the basis or formula for determining the deductible amount when a specific amount is not listed above; lists the criteria to be met; and, where appropriate, identifies the organizational unit which determines that a criterion is met.

b. AFDC related:
   Children $ 60
   Adults    $ 60

   For the following persons with greater need:
   - Individuals with a guardian or conservator
   - Individuals in an ICF-MR (ICF-ID) who participate in a sheltered workshop

   Supplement 15 to Attachment 2.6-A describes the greater need; describes the basis or formula for determining the deductible amount when a specific amount is not listed above; lists the criteria to be met; and, where appropriate, identifies the organizational unit which determines that a criterion is met.

c. Individual under age 21 covered in the plan as specified in Item B. 7. of Attachment 2.2-A.
   $ N/A
For the following persons with greater need:

- Individuals with a guardian or conservator
- Individuals in an ICF-MR (ICF-ID) who participate in a sheltered workshop

Supplement 15 to Attachment 2.6-A describes the greater need; describes the basis or formula for determining the deductible amount when a specific amount is not listed above; lists the criteria to be met; and, where appropriate, identifies the organizational unit which determines that a criterion is met.

3. In addition to the amounts under item 2, the following monthly amounts are deducted from the remaining income of an institutionalized individual with a community spouse:

   a. The monthly income allowance for the community spouse, calculated using the formula in §1924(d)(2), is the amount by which the maintenance needs standard exceeds the community spouse’s income. The maintenance needs standard cannot exceed the maximum prescribed in § 1924 (d)(3)(C). The maintenance needs standard consists of a poverty level component plus an excess shelter allowance.

   X The poverty level component is calculated using the applicable percentage (set out §1924(d)(3)(B) of the Act) of the official poverty level.

   _____ The poverty level component is calculated using a percentage greater than the applicable percentage, equal to ____, of the official poverty level (still subject to maximum maintenance needs standard).

   _____ The maintenance needs standard for all community spouses is set at the maximum permitted by §1924(d)(3)(C).

   Except that, when applicable, the State will set the community spouse’s monthly income allowance at the amount by which exceptional maintenance needs, established at a fair hearing, exceed the community spouse’s income, or at the amount of any court-ordered support.
In determining any excess shelter allowance, utility expenses are calculated using:

- X the standard utility allowance under §5(e) of the Food Stamp Act of 1977 or
-  the actual unreimbursable amount of the community spouse’s utility expenses less any portion of such amount included in condominium or cooperative charges.

b. The monthly income allowance for other dependent family members living with the community spouse is:

- X one-third of the amount by which the poverty level component (calculated under §1924(d)(3)(A)(i) of the Act, using the applicable percentage specified in §1924(d)(3)(B)) exceeds the dependent family member’s monthly income.
-  a greater amount calculated as follows:

The following definition is used in lieu of the definition provided by the Secretary to determine the dependency of family members under §1924(d)(1):

c. Amounts for health care expenses described below that are incurred by and for the institutionalized individual and are not subject to payments by a third party:

(i) Medicaid, Medicare, and other health insurance premiums, deductibles, or coinsurance charges, or copayments.

(ii) Necessary medical or remedial care recognized under State law but not covered under the State plan. (Reasonable limits on amounts are described in Supplement 3 to ATTACHMENT 2.6-A.)
Citation | Condition or Requirement
--- | ---
435.725 | 4. In addition to any amounts deductible under the items above, the following monthly amounts are deducted from the remaining monthly income of an institutionalized individual or an institutionalized couple.

   a. An amount for the maintenance needs of each member of a family living in the institutionalized individual's home with no community spouse living in the home. The amount must be based on a reasonable assessment of need but must not exceed the higher of the:

   o AFDC level or
   o Medically needy level:

   (Check one)
   _____ AFDC level sin Supplement 1
   X Medically needy level in Supplement 1
   _____ Other: $

   b. Amounts for health care expenses described below that have not been deducted under 3.c. above (i.e., for an institutionalized individual with a community spouse), are incurred by and for the institutionalized individual or institutionalized couple, and are not subject to the payment by a third party:

   (i) Medicaid, Medicare, and other health insurance premiums, deductibles, or coinsurance charges, or copayments.

   (ii) Necessary medical or remedial care recognized under State law but not covered under the State plan.

   (Reasonable limits on amount are described in Supplement 3 to ATTACHMENT 2.6-A.)

435.725 | 5. At the option of the State, as specified below, the following is deducted from any remaining monthly income of an institutionalized individual or an institutionalized couple:

A monthly amount for the maintenance of the home of the individual or couple for not longer than 6 months if a physician has certified that the individual, or one member of the institutionalized couple, is likely to return to the home within that period:

   No.
   X Yes (the applicable amount is shown on page 5a.)

The agency applies the following policy under the provisions of section 1902(f) of the Act. The following amounts are deducted from income to determine the individual's countable income:

1. Any SSI benefit received.
2. Any State supplement received that is within the scope of an agreement described in sections 1616 or 1634 of the Act, or a State supplement within the scope of section 1902(a)(10)(A)(ii)(XI) of the Act.
3. Increases in OASDI that are deducted under §§435.134 and 435.135 for individuals specified in that section, in the manner elected by the State under that section.
4. Other deductions from income described in this plan at Attachment 2.6-A, Supplement 4.
5. Incurred expenses for necessary medical and remedial services recognized under State law.

Incurred expenses that are subject to payment by a third party are not deducted unless the expenses are subject to payment by a third party that is a publicly funded program (other than Medicaid) of a State or local government.

MORE LIBERAL METHODS OF TREATING RESOURCES UNDER SECTION 1902(r)(2) OF THE ACT

☐ Section 1902(f) State ☒ Non-Section 1902(f) State

TREATMENT OF EXCESS RESOURCES UNDER 1902(r)(2)

Excess resources make the individual ineligible. Once the excess resources have been reduced to the allowable limit, eligibility may begin –

1. The first day of the month in which the resources are actually reduced to or below the allowable limit if the resources were not used to pay bills incurred in a prior month. The resources may be reduced by paying any bills or by purchasing any items of need.

2. The first day of the month in which the most recent bill(s) for maintenance or medical was incurred which was paid to reduce the excess resources. Maintenance needs include items such as food, shelter, clothing, transportation and personal comfort items. Qualifying bills would be those incurred by the client, the client’s spouse or dependent child(ren).

Example

<table>
<thead>
<tr>
<th>Medicaid Bills Incurred</th>
<th>Application Made</th>
<th>Bills Paid</th>
</tr>
</thead>
<tbody>
<tr>
<td>Jan. 1, Feb. 3, Mar. 5, Mar. 25</td>
<td>March</td>
<td>April</td>
</tr>
<tr>
<td>Excess Resources</td>
<td>Below</td>
<td></td>
</tr>
</tbody>
</table>

If bills from Jan. 1 and Feb. 3 were used to reduce resources, eligibility would begin Feb. 1 even though the bills were not actually paid until April.

This methodology would apply to all eligibility groups except deemed cash recipients and Qualified Medicare Beneficiary’s.

All of the requirements of 1917(c)(4) are met for individuals who dispose of resources for less than fair market value.

Eligibility will never begin before the third month before the month of application.

From the date of determination of eligibility for Medicaid, an applicant has 90 days in which to spend down excess resources to become retroactively eligible for Medicaid.

STATE LONG-TERM CARE INSURANCE PARTNERSHIP

The following more liberal methodology applies to individuals who are eligible for medical assistance under one of the following eligibility groups:

1902(a)(10)(A)(ii)(I), 1902(a)(10)(A)(ii)(X), 1902(a)(10)(C) - (Section 1905(a)(iii), Section 1905(a)(iv) & Section 1905(a)(v))

An individual who is a beneficiary under a long-term care insurance policy that meets the requirements of a "qualified State long-term care insurance partnership" policy (partnership policy) as set forth below, is given a resource disregard as described in this amendment. The amount of the disregard is equal to the amount of the insurance benefit payments made to or on behalf of the individual. The term "long-term care insurance policy" includes a certificate issued under a group insurance contract.

The State Medicaid Agency (Agency) stipulates that the following requirements will be satisfied in order for a long-term care policy to qualify for a disregard. Where appropriate, the Agency relies on attestations by the State Insurance Commissioner (Commissioner) or other State official charged with regulation and oversight of insurance policies sold in the state, regarding information within the expertise of the State's Insurance Department.

- The policy is a qualified long-term care insurance policy as defined in section 7702B(b) of the Internal Revenue Code of 1986.

- The policy meets the requirements of the long-term care insurance model regulation and long-term care insurance model Act promulgated by the National Association of Insurance Commissioners (as adopted as of October 2000) as those requirements are set forth in section 1917(b)(5)(A) of the Social Security Act.
STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: Nebraska

STATE LONG-TERM CARE INSURANCE PARTNERSHIP

• The policy was issued no earlier than the effective date of this State plan amendment.

• The insured individual was a resident of a Partnership State when coverage first became effective under the policy. If the policy is later exchanged for a different long-term care policy, the individual was a resident of a Partnership State when coverage under the earliest policy became effective.

• The policy meets the inflation protection requirements set forth in section 1917(b)(1)(C)(iii)(IV) of the Social Security Act.

• The Commissioner requires the issuer of the policy to make regular reports to the Secretary that include notification regarding when benefits provided under the policy have been paid and the amount of such benefits paid, notification regarding when the policy otherwise terminates, and such other information as the Secretary determines may be appropriate to the administration of such partnerships.

• The State does not impose any requirement affecting the terms or benefits of a partnership policy that the state does not also impose on non-partnership policies.

• The State Insurance Department assures that any individual who sells a partnership policy receives training, and demonstrates evidence of an understanding of such policies and how they relate to other public and private coverage of long-term care.

• The Agency provides information and technical assistance to the Insurance Department regarding the training described above.

TRANSFER OF RESOURCES

1917(c) The agency provides for the denial of eligibility by reason of disposal of resources for less than fair market value.

A. Transfer of resources of an individual who is an inpatient in a medical institution or nursing facility.

1. The agency provides for a period of ineligibility in the case of an institutionalized individual who at any time during the 30 month period immediately preceding the individual's application for medical assistance, disposed of resources for less than fair market value. The period of ineligibility shall begin with the month in which the resources were transferred and the number of months will be equal to the less of 30 months, or the total uncompensated value of the transferred resources divided by the average cost to a private patient at the time of application, of nursing facility services.

B. Transfer of the home of an individual who is an inpatient in a medical institution or nursing facility.

1. A period of ineligibility is not imposed if the resource transferred were a home and title to the home was transferred to-

   a. the spouse of the individual,

   b. a child of the individual who is under age 21, or is blind or disabled,

   c. a sibling of such individual who has an equity interest in the home and who was residing in the home for a period of at least one year immediately preceding the date of the individual's admission to the medical institution or nursing facility, or

TRANSFER OF RESOURCES

d. a son or daughter who was residing in the home for a period of two years immediately preceding the individuals admission to the medical institution or nursing facility, and who provided care to the individual which permitted him/her to reside at home rather than in the institution or facility.

C. A period of ineligibility for transfer of resources will not be imposed if the individual can show that s/he intended to dispose of the resource for fair market value or for other valuable consideration, the transfer was not made to qualify for assistance, or that denial of assistance would cause undue hardship

TRANSFER OF ASSETS

1917(c) The agency provides for the denial of certain Medicaid services by reason of disposal of assets for less than fair market value.

1. Institutionalized individuals may be denied certain Medicaid services upon disposing of assets for less than fair market value on or after the look-back date.

   The agency withholds payment to institutionalized individuals for the following services:

   Payments based on a level of care in a nursing facility;

   Payments based on a nursing facility level of care in a medical institution;

   Home and community-based services under a 1915 waiver.

2. Non-institutionalized individuals:

   ☒ The agency applies these provisions to the following non-institutionalized eligibility groups. These groups can be no more restrictive than those set forth in section 1905(a) of the Social Security Act:

   The agency withholds payment to non-institutionalized individuals for the following services:

   Home health services (section 1905(a)(7));

   Home and community care for functionally disabled and elderly adults (section 1905(a)(22));

   Personal care services furnished to individuals who are not inpatients in certain medical institutions, as recognized under agency law and specified in section 1905(a)(24).

   ☒ The following other long-term care services for which medical assistance is otherwise under the agency plan:

TRANSFER OF ASSETS

3. **Penalty Date**--
The beginning date of each penalty period imposed for an uncompensated transfer of assets is:

- the first day of the month in which the asset was transferred;
- the first day of the month following the month of transfer.

4. **Penalty Period - Institutionalized Individuals**--
In determining the penalty for an institutionalized individual, the agency uses:

- the average monthly cost to a private patient of nursing facility services in the agency;
- the average monthly cost to a private patient of nursing facility services in the community in which the individual is institutionalized.

5. **Penalty Period-Non-institutionalized Individuals**--
The agency imposes a penalty period determined by using the same method as is used for an institutionalized individual, including the use of the average monthly cost of nursing facility services;

- imposes a shorter penalty period than would be imposed for institutionalized individuals, as outlined below:
State: Nebraska

TRANSFER OF ASSETS

6. Penalty period for amounts of transfer less than cost of nursing facility care -
   a. Where the amount of the transfer is less than the monthly cost of nursing facility care, the agency:
      ☒ does not impose a penalty;
      ☐ imposes a penalty for less than a full month, based on the proportion of the agency's private nursing facility rate that was transferred.
   b. Where an individual makes a series of transfers, each less than the private nursing facility rate for a month, the agency:
      ☐ does not impose a penalty;
      ☒ imposes a series of penalties, each for less than a full month.

7. Transfers made so that penalty periods would overlap -
   The agency:
      ☒ totals the value of all assets transferred to produce a single penalty period;
      ☐ calculates the individual penalty periods and imposes them sequentially.

8. Transfers made so that penalty periods would not overlap -
   The agency:
      ☒ assigns each transfer its own penalty period;
      ☐ uses the method outlined below:
State: Nebraska

TRANSFER OF ASSETS

9. Penalty periods - transfer by a spouse that results in a penalty period for the individual -
   
a. The agency apportions any existing penalty period between the spouses using the method outlined below, provided the spouse is eligible for Medicaid. A penalty can be assessed against the spouse, and some portion of the penalty against the individual remains.

   b. If one spouse is no longer subject to a penalty, the remaining penalty period must be served by the remaining spouse.

10. Treatment of income as an asset -
    When income has been transferred as a lump sum, the agency will calculate the penalty period on the lump sum value.

    ☒ The agency will impose partial month penalty periods.

    When a stream of income or the right to a stream of income has been transferred, the agency will impose a penalty period for each income payment.

    ☒ For transfers of individual income payments, the agency will impose partial month penalty periods.

    ☒ For transfers of the right to an income stream, the agency will use the actuarial value of all payments transferred.

    ☐ The agency uses an alternate method to calculate penalty periods, as described below:

TRANSFER OF ASSETS

11. **Imposition of a penalty would work an undue hardship**--
The agency does not apply the transfer of assets provisions in any case in which the agency determines that such an application would work an undue hardship. The agency will use the following procedures in making undue hardship determinations:

a. The client will be sent a notice that their Medicaid case is being closed or application rejected due to a gratuitous transfer, the length of the penalty period and notification that they can claim undue hardship.

b. The client must then file for an administrative hearing within 90 days from this notice to follow-up on their claim of undue hardship.

c. The client and/or their representative must present their claim and supporting documentation.

d. A decision/finding is issued within 45 days.

The following criteria will be used to determine whether the agency will not count assets transferred because the penalty would work an undue hardship:

Factors that would be considered would include but are not limited to: whether the client's health or life would be endangered; whether the application of a penalty would deprive the client or financially dependent family members of food, clothing, or shelter; whether the individual made a reasonable attempt to recover the assets.
TRANSFER OF ASSETS

FOR TRANSFERS OF ASSETS FOR LESS THAN FAIR MARKET VALUE MADE ON OR AFTER FEBRUARY 8, 2006, the agency provides for the denial of certain Medicaid services.

1. Institutionalized individuals are denied coverage of certain Medicaid services upon disposing of assets for less than fair market value on or after the look-back date.

The agency does not provide medical assistance coverage for institutionalized individuals for the following services:

- Nursing facility services;
- Nursing facility level of care provided in a medical institution;
- Home and community-based services under a 1915(c) or (d) waiver.

2. Non-institutionalized individuals:

☐ The agency applies these provisions to the following non-institutionalized eligibility groups. These groups can be no more restrictive than those set forth in section 1905(a) of the Social Security Act:

The agency Withholds payment to non-institutionalized individuals for the following services:

Home health services (section 1905(a) (7));

Home and community care for functionally disabled elderly adults (section 1905(a) (22));

Personal care services furnished to individuals who are not inpatients in certain medical institutions, as recognized under agency law and specified in section 1905(a) (24).

☐ The following other long-term care services for which payment for medical assistance is otherwise made under the agency plan:

3. Penalty Date--The beginning date of each penalty period imposed for an uncompensated transfer of assets is the later of:

- the first day of a month during or after which assets have been transferred for less than fair market value;

  ☐ The State uses the first day of the month in which the assets were transferred

  ☑ The state uses the first day of the month after the month in which the assets were transferred

  or

- the date on which the individual is eligible for medical assistance under the State plan and is receiving institutional level care services described in paragraphs 1 and 2 that, were it not for the imposition of the penalty period, would be covered by Medicaid;

4. **Penalty Period Institutionalized Individuals**--
   In determining the penalty for an institutionalized individual, the agency uses:
   - [ ] the average monthly cost to a private patient of nursing facility services in the State at the time of application;
   - [x] the average monthly cost to a private patient of nursing facility services in the community in which the individual is institutionalized at the time of application.

5. **Penalty Period - Non-institutionalized Individuals**--
   The agency imposes a penalty period determined by using the same method as is used for an institutionalized individual, including the use of the average monthly cost of nursing facility services;
   - [ ] imposes a shorter penalty period than would be imposed for institutionalized individuals, as outlined below:

6. **Penalty period for amounts of transfer less than cost of nursing facility care** -
   - [x] Where the amount of the transfer is less than the monthly cost of nursing facility care, the agency imposes a penalty for less than a full month, based on the option selected in item 4.
   - [x] The state adds together all transfers for less than fair market value made during the look-back period in more than one month and calculates a single period of ineligibility, that begins on the earliest date that would otherwise apply if the transfer had been made in single lump sum.
TRANSFER OF ASSETS

7. Penalty periods - transfer by a spouse that results in a penalty period for the individual -

(a) The agency apportions any existing penalty period between the spouses using the method outlined below, provided the spouse is eligible for Medicaid. A penalty can be assessed against the spouse, and some portion of the penalty against the individual remains.

(b) If one spouse is no longer subject to a penalty, the remaining penalty period must be served by the remaining spouse.

8. Treatment of a transfer of income--

When income has been transferred as a lump sum, the agency will calculate the penalty period on the lump sum value.

When a stream of income or the right to a stream of income has been transferred, the agency will impose a penalty period for each income payment.

☒ For transfers of individual income payments, the agency will impose partial month penalty periods using the methodology selected in 6. above.

☒ For transfers of the right to an income stream, the agency will base the penalty period on the combined actuarial value of all payments transferred.
TRANSFER OF ASSETS

9. Imposition of a penalty would work an undue hardship--

The agency does not impose a penalty for transferring assets for less than fair market value in any case in which the agency determines that such imposition would work an undue hardship. The agency will use the following criteria in making undue hardship determinations:

Application of a transfer of assets penalty would deprive the individual:

(a) Of medical care such that the individual's health or life would be endangered; or

(b) Of food, clothing, shelter, or other necessities of life.

10. Procedures for Undue Hardship waivers

The agency has established a process under which hardship waivers may be requested that provides for:

(a) Notice to a recipient subject to a penalty that an undue hardship exception exists;

(b) A timely process for determining whether an undue hardship waiver will be granted; and

(c) A process, which is described in the notice, under which an adverse determination can be appealed.

These procedures shall permit the facility in which the institutionalized individual is residing to file an undue hardship waiver application on behalf of the individual with the consent of the individual or the individual's personal representative.

11. Bed Hold Waivers For Hardship Applicants

The agency provides that while an application for an undue hardship waiver is pending in the case of an individual who is a resident of a nursing facility:

- Payments to the nursing facility to hold the bed for the individual will be made for a period not to exceed 30 days (may not be greater than 30).

The agency does not apply the trust provisions in any case in which the agency determines that such application would work an undue hardship.

The following criteria will be used to determine whether the agency will not count assets transferred because doing so would work an undue hardship:

Criteria would include but are not limited to: whether application of the provisions would deprive the client of medical care such that his/her health or life would be endangered; whether the application of the transfer provisions would deprive a financially dependent family member of food, clothing, or shelter; whether the client or client's representative has made a reasonable effort to recover the assets.

Under the agency's undue hardship provisions, the agency exempts the funds in an irrevocable burial trust.

The maximum value of the exemption for an irrevocable burial trust is $4,926 (the amount as of the effective date of this approval) which will be increased annually by the percentage change in the Consumer Price Index published by the Federal Bureau of Labor Statistics at the close of the twelve-month period ending on August 31 of such year.

ASSET VERIFICATION SYSTEM

1. The agency will provide for the verification of assets for purposes of determining or re-determining Medicaid eligibility for aged, blind and disabled Medicaid applicants and recipients using an Asset Verification System (AVS) that meets the following minimum requirements.

A. The request and response system must be electronic:

   1. Verification inquiries must be sent electronically via the internet or similar means from the agency to the financial institution (FI).
   2. The system cannot be based on mailing paper-based requests.
   3. The system must have the capability to accept responses electronically.

B. The system must be secure, based on a recognized industry standard of security (e.g., as defined by the U.S. Commerce Department’s National Institute of Standards and Technology, or NIST).

C. The system must establish and maintain a database of FIs that participate in the agency’s AVS.

D. Verification requests also must be sent to FIs other than those identified by applicants and recipients, based on some logic such as geographic proximity to the applicant’s home address, or other reasonable factors whenever the agency determines that such requests are needed to determine or re-determine the individual’s eligibility.

E. The verification requests must include a request for information on both open and closed accounts, going back up to 5 years as determined by the State.

ASSET VERIFICATION SYSTEM

3. Provide the AVS implementation information requested for the implementation approach checked in Section 2, and any other information the agency may want to include.

Nebraska Medicaid is preparing to take part in a multi-state consortium, and enter into a contract with the New England States Consortium System Organization (NESCSO), to meet the Federal requirements in implementing an Asset Verification System (AVS). The intention of States in the consortium, is to ensure the AVS module and its different components have well documented system interfaces, providing the flexibility to connect with eligibility systems at different levels. Advantages include minimized procurement costs, purchasing leverage when negotiating with other states, collaboration across states for identifying business and technical requirements, and cost-shared customization.

AND SERVICES PROVIDED TO THE CATEGORICALLY NEEDY

4. a. Nursing facility services (other than services in an institution for mental diseases) for individuals 21 years of age or older.

Provided: ☐ No limitations ☒ With limitations*

Nursing facility (NF) services are available to eligible individuals in accordance with 42 CFR 440.40 and 440.155.

Specialized add-on services are available to certain individuals residing in a Medicaid-certified nursing facility. Specialized add-on services are paid as add-on services to the provider of the specialized add-on service in accordance with Attachment 4.19-D, page 33. Services will not be paid as specialized add-on services if the services are included in the nursing facility’s per diem rate or covered under other sections of the State Plan.

Specialized add-on services are services which result in a continuous, aggressive individualized plan of care and recommended and monitored by the individual’s interdisciplinary team (IDT). Specialized add-on services include habilitative services and are not provided by the nursing facility. Habilitative services are medically necessary services intended to assist the individual in obtaining, maintaining, or improving developmental-age appropriate skills not fully acquired as a result of congenital, genetic, or early acquired health condition.

Specialized add-on services are provided only when prior authorized, recommended by the individual’s IDT and are included in the individual’s plan of care. The IDT includes but is not limited to the attending physician, a RN and nurse aide with responsibility for the individual, a member of the food and nutrition services staff, to the extent possible the individual and the individual’s representative(s), and other appropriate staff or professionals in disciplines as determined by the individual’s needs or as requested by the individual.

Specialized add-on services must meet professional standards of quality and be provided by qualified persons in accordance with each individual’s written plan of care.

Specialized add-on services, limitations, and the providers who may furnish the services are as follows:

4. a. Nursing facility services (other than services in an institution for mental diseases) for individuals 21 years of age or older.

I. Habilitative Skills

A. Habilitative Skills supports individuals to acquire new skills and/or increase skills in the areas of hygiene, self-advocacy, activities of daily living and communication. Habilitative skills can occur on-site (at the nursing facility) but may be expanded to also occur in the community such as grocery stores, financial institutions, movie theatres, recreational centers/events, and social activities so the individual learns these skills in a variety of settings. Services are expected to include both formal training (goal oriented and measureable) and opportunities to practice the skills in various settings.

Habilitative Skills services consist of:

1. Identification of skill needs requiring training with regard to individual rights and due process, advocating for their own needs, desires, future life goals and participation in the development of their plan of care, communication skills, personal hygiene skills, dressing skills, laundry skills, bathing skills, and toileting skills;

2. Development and implementation of formal training goals related to identified skill needs; and

3. Monitor and revise goals according to the individual's response to training.

This service is provided with a staff to individual ratio of 1:1.

This service is provided to individuals in order to meet the goals and outcome measurements as outlined in the individual's plan of care per 42 CFR §483.120 and 42 CFR §483.21.

B. Limitations

1. Transportation is not included in the reimbursement rates. Transportation services can be billed separately for off-site habilitative skills only and is limited to travel to and from the habilitative service. The individual must be present in the vehicle.

2. This service can be authorized in combination with but cannot be provided during the same time period as Habilitative Community Inclusion.
4. a. Nursing facility services (other than services in an institution for mental diseases) for individuals 21 years of age or older.

3. This service shall exclude any services available through public education programs funded under the Individuals with Disabilities Education Act (IDEA). This includes services not otherwise available through public education programs in the individual’s local school district, including after school supervision and daytime services when school is not in session (i.e., summer breaks and/or scheduled school holidays, in-service days, etc.). Services cannot be provided during the school hours set by the local school district for the individual. Regular school hours and days apply for a child who receives home schooling.

C. Provider requirements: Any person providing specialized add-on services for the individual (as an independent provider or as an employee of an agency provider) must comply with the following requirements:
   1. Be legally authorized to work in the United States;
   2. Not be a family member or legal guardian of the individual;
   3. Not be an employee of the Nebraska Department of Health and Human Services (DHHS);
   4. Be at least 19 years of age;
   5. Meet the following educational and/or work experience requirements:
      a. Have a bachelor’s or advanced degree from an accredited college or university in one of the following areas: social, behavioral, or human services, such as psychology, sociology, social work, medicine, nursing, rehabilitation, counseling, human development, gerontology, educational psychology, education, or criminal justice; and
      b. At least one year of direct care experience with intellectually disabled individuals; OR
      c. In lieu of a bachelor’s/advanced degree, a minimum of three years direct care experience with intellectually disabled individuals;
   6. Willing and qualified habilitation providers who are enrolled in Medicaid may provide this service.

II. Employment Assistance
   A. Employment Assistance supports the individual through habilitative training to obtain gainful employment in their community. The goal is to provide the skills, tools, and supports to enable the individual to seek and obtain employment.
4. a. Nursing facility services (other than services in an institution for mental diseases) for individuals 21 years of age or older.

Employment Assistance services consist of:

1. Identification of the individual’s job preferences and skill needs;
2. Identification of available employment opportunities in their community;
3. Development and implementation of formal training goals related to the individual’s employment needs including application for employment, job readiness and preparation skills and appropriate work behavior;
4. Monitor and revise goals according to the individual’s response to training.

This service is provided with a staff to individual ratio of 1:1 and may be provided at the nursing facility or in the community.

This service is provided to individuals in order to meet the goals and outcome measurements as outlined in the individual’s plan of care per 42 CFR §483.120 and 42 CFR §483.21.

B. Limitations
1. The individual’s service hours are determined by the assistance needed to reach employment goals.
2. This service can be authorized in combination with but cannot be provided during the same time period as Employment Support.
3. Transportation is not included in the reimbursement rate and must be billed separately and is limited to travel to and from the habilitative service. The individual must be present in the vehicle.
4. This service shall exclude any services available through public education programs funded under the Individuals with Disabilities Education Act (IDEA). This includes services not otherwise available through public education programs in the individual’s local school district, including after school supervision and daytime services when school is not in session (i.e., summer breaks and/or scheduled school holidays, in-service days, etc.). Services cannot be provided during the school hours set by the local school district for the individual. Regular school hours and days apply for a child who receives home schooling.
5. No employment assistance or support services are available to a resident of a nursing facility through a program funded by the Rehabilitation Act of 1973 in Nebraska.

   c. In lieu of a bachelor's/advanced degree, a minimum of three years direct care experience with intellectually disabled individuals;
6. Willing and qualified habilitation providers who are enrolled in Medicaid may provide this service.

III. Employment Support
   A. Employment Support supports the individual through habilitative training to maintain integrated and gainful employment after the individual has secured employment. The goal is to provide the skills, tools, and supports necessary for the individual to maintain employment.

   Employment Support services consist of:

   1. Teaching appropriate work behavior related to punctuality, attendance and co-worker relationships;
   2. Providing training and support for the individual to develop time management skills;
   3. Providing training and monitoring in order for the individual to learn the job tasks necessary to maintain employment;
   4. Providing social skills training in relation to the work environment; and
   5. Monitoring and revising goals according to the individual's response to training.

Telehealth means the use of medical information electronically exchanged from one site to another, whether synchronously or asynchronously, to aid a health care practitioner in the diagnosis or treatment of a patient. Telehealth includes services originating from a patient's home or any other location where such patient is located. Asynchronous services involving the acquisition and storage of medical information at one site that is then forwarded to and retrieved by a health care practitioner at another site for medical evaluation and telemonitoring.

Telehealth consultation means any contact between a patient and a health care practitioner relating to the health care diagnosis or treatment of such patient through telehealth, but does not include a telephone conversation, electronic mail message, or facsimile transmission between a health care practitioner and a patient or a consultation between two health care practitioners.

Telemonitoring means the remote monitoring of a patient’s vital signs, biometric data, or subjective data by a monitoring device which transmits such data electronically to a health care practitioner for analysis and storage.

Health care practitioners must:

1. act within their scope of practice;
2. be enrolled with Nebraska Medicaid; and
3. be appropriately licensed, certified, or registered by Nebraska HHS Regulation and Licensure for the service for which they bill Medicaid.

All state plan prior authorization requirements must be met to be covered as a telehealth service. Prior authorization requests must state the intent to provide the service as a telehealth service.

LIMITATIONS - INPATIENT HOSPITAL SERVICES

NMAP covers medical transplants including donor services that are medically necessary and defined as non-experimental by Medicare. If no Medicare policy exists for a specific type of transplant, the appropriate staff in the Medicaid Division shall determine whether the transplant is medically necessary and non-experimental.

Notwithstanding any Medicare policy on liver or heart transplants, the Nebraska Medical Assistance Program covers liver or heart transplantation when the written opinions of two physicians specializing in transplantation state that -

1. No other therapeutic alternatives exist; and
2. The death of the patient is imminent.

NMAP requires prior authorization of all transplant services before the services are provided.

NMAP covers medically necessary services for the NMAP-eligible donor to an NMAP-eligible client. The services must be directly related to the transplant.

NMAP covers laboratory tests for NMAP-eligible prospective donors. The tests must be directly related to the transplant.

NMAP covers medically necessary services for the NMAP-ineligible donor to an NMAP-eligible client. The services must be directly related to the transplant and must directly benefit the NMAP transplant client. Coverage of treatment of complications is limited to those that are reasonably medically foreseeable.

NMAP covers laboratory tests for NMAP-ineligible prospective donors that directly benefit the NMAP transplant client. The tests must be directly related to the transplant.

NMAP does not cover services provided to an NMAP-ineligible donor that are not medically necessary or that are not directly related to the transplant.

LIMITATIONS - EARLY AND PERIODIC SCREENING AND DIAGNOSIS AND TREATMENT OF CONDITIONS FOUND

SERVICES DESCRIBED IN SECTION 1905(a) of the Social Security Act that are not covered under Nebraska State Plan for Medical Assistance are covered for treatment when the condition is disclosed in an EPSDT exam, health screen, dental screen, vision screen, or hearing screen. These services are considered EPSDT follow-up services and are covered under the following conditions:

1. The service is required to treat the condition (i.e., to correct or ameliorate defects and physical or mental illnesses or conditions) identified during a HEALTH CHECK (EPSDT) screening examination;

2. The provider of services is a Medicaid-enrolled provider and is authorized to provide the service within the scope of practice under applicable federal and state law;

3. The service is consistent with applicable federal and state laws that govern the provision of health care;

4. The service must be medically necessary, safe and effective, and not considered experimental/investigational;

5. Services not covered under the plan must be prior authorized by the Medicaid Division, Department of Health and Human Services Finance and Support. The screening practitioner shall submit the request which must include -

   a. A copy of the screening exam from or the name of the screening practitioner and the date of the screening exam which identified the condition; and

   b. A plan of care which includes -

      (1) History of the condition;
      (2) Physical findings and other signs and symptoms, including appropriate laboratory data;
      (3) Recommended service/procedure, including (if known) the potential provider of service;
      (4) Estimated cost, if available; and
      (5) Expected outcomes.

The Medical Director or designee shall make a decision on each request in an expeditious manner. Appropriate health care professionals may be consulted during the decision-making process. If the initial request is denied, additional information may be sent for reconsideration.

EPSDT follow-up services include -

- Dental sealants: Application is covered if applied to permanent teeth within three years of eruption. Sealant application is covered only for permanent teeth numbered 2, 3, 4, 5, 12, 13, 14, 15, 18, 19, 20, 21, 28, 29, 30, and 31.

- Orthodontic treatment for individuals age 20 and younger: NMAP requires prior authorization of all orthodontic treatment except diagnostic evaluation procedures. Total payment of prior-authorized orthodontic treatment is made upon approval of the treatment plan and submittal of an ADA dental claim form.

- Well child cluster visits: The cluster visit is a well-child visit in a group setting with parent-child pairs of the same age, offering the opportunity for the provision of extended physician parent/child time with a focus on psychosocial aspects as well as physical aspects of well-child care. The cluster visit must include a complete EPSDT exam.

- Nutritional counseling: Nutritional counseling is provided by the screening physician, screening physician auxiliary staff, physician-contracted staff, as part of comprehensive well child or periodic visit. When a diagnostic finding from the EPSDT exam indicates that a nutritional problem or condition of such severity exists that nutritional counseling beyond that normally expected as part of the standard medical management is warranted, medical nutritional therapy can be ordered in compliance with Attachment 3.1-A, Item 4b, Page 33-34.

MENTAL HEALTH AND SUBSTANCE ABUSE SERVICES COVERED UNDER EPSDT:

Medicaid covers certain mental health and substance abuse (MH/SA) services as part of the HEALTHCHECK (EPSDT) benefit.

Licensed Mental Health Practitioner (LMHP) - 42 CFR 440.60 - Other Licensed Practitioners

The following mental health and substance abuse practitioners who are licensed in the State of Nebraska to diagnose and treat mental illness or substance abuse acting within the scope of all applicable state laws and their professional license may be enrolled as an individual provider of mental health/substance abuse services. The following individuals are licensed to practice: Licensed Alcohol and Drug Counselor who is an individual licensed by the Nebraska Health and Human Services.

All services provided while a person is a resident of an Institution for Mental Disease (IMD) are considered content of the institutional service and not otherwise reimbursable by Medicaid.

Medicaid and/or its designee does not permit separate billing of mileage and conference fees for home-based family therapy providers of outpatient psychiatric services. Those costs are assumed to be covered in the rates. For the purposes of this section, Medicaid agency designee will be a contractor designated by the agency to conduct prior authorization and utilization review.

MENTAL HEALTH AND SUBSTANCE ABUSE SERVICES COVERED UNDER EPSDT:

Rehabilitation Services - 42 CFR 440.130(d)

The following explanation and limitations apply to the mental health and substance abuse rehabilitation services provided by unlicensed direct care staff listed below:

- Day Treatment/Intensive Outpatient Service
- Community Treatment Aide
- Professional Resource Family Care
- Therapeutic Group Home
- Multisystemic Therapy
- Functional Family Therapy
- Peer Support

These rehabilitation services are provided as part of a comprehensive specialized psychiatric program available to all Medicaid EPSDT eligible clients with significant functional impairments resulting from an identified mental health or substance abuse diagnosis. The recommendation of medical necessity for these rehabilitative services shall be determined by a licensed psychologist, licensed independent mental health practitioner (LIMHP) or physician who is acting within the scope of his/her professional license and applicable state law, to promote the maximum reduction of symptoms and/or restoration of an individual to his/her best age-appropriate functional level according to an individualized treatment plan, which addresses the child’s assessed needs.

The activities included in the rehabilitation service shall be intended to achieve the identified Medicaid eligible client’s treatment plan goals or objectives. Components that are not provided to or directed exclusively toward the treatment of the Medicaid eligible individual are not eligible for Medicaid reimbursement. All services are directed exclusively towards the treatment of the Medicaid eligible.
STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State: Nebraska

LIMITATIONS- EARLY AND PERIODIC SCREENING AND DIAGNOSIS AND TREATMENT OF CONDITIONS FOUND

Services shall be medically necessary and shall be recommended by a psychologist, LIMHP or physician according to an individualized treatment plan, which addresses the eligible individual’s assessed needs. An Initial Diagnostic Interview (IDI) is a comprehensive assessment that identifies the clinical need for treatment and the most effective treatment intervention/level of care to meet the medical necessity needs of the client. The IDI is completed prior to service provision and the IDI documentation accompanies the referral information to the rehabilitation program provider. The recommendations of the licensed supervising practitioner following the Initial Diagnostic Interview serves as the treatment plan until the comprehensive treatment plan is developed.

The treatment plan shall specify the frequency, amount and duration of services. The treatment plan shall be signed by the psychologist, licensed mental health practitioner or physician responsible for developing the plan. The plan will specify a timeline for reevaluation of the plan that is at least an annual redetermination. A new treatment plan with a different rehabilitation strategy shall be developed if there is no measurable reduction of disability or restoration of functional level.

Agencies and practitioners shall maintain case records that include a copy of the treatment plan, the name of the individual, dates of services provided, nature, content and units of rehabilitation services provided, and progress made toward functional improvement and goals in the treatment plan.

Rehabilitation services shall meet the following requirements:

- If provided at a work site, the rehabilitation service shall not be job tasks oriented.
- Any services or components of services which the basic nature is to supplant housekeeping, homemaking, or basic services for the convenience of a person receiving covered services (including housekeeping, shopping, child care, and laundry services) are not covered.
- Services shall not be provided in an Institution for Mental Disease (IMD).
- Room and board is excluded from any services or rates provided in a residential setting.
- Transportation of children is not included in rehabilitation services or rates.
- Education services are not included in or eligible for payment by the Medicaid Program, and do not apply toward the hours of minimum treatment activities for any service in this section. Practitioners shall be familiar with each youth’s IEP and coordinate with the youth and the youth’s school to achieve the IEP. Education services may not be the primary reason for rehabilitation admission or treatment. Academic education services, when required by law, shall be available.

LIMITATIONS- EARLY AND PERIODIC SCREENING AND DIAGNOSIS AND TREATMENT OF CONDITIONS FOUND

Rehabilitation services shall be offered to all EPSDT eligible clients who need them regardless of their living arrangements, including foster care status. EPSDT eligible clients covered by Medicaid, including their parents and guardians, shall be able to choose any willing and qualified provider of services (e.g., not limited to foster care parents). Medically necessary rehabilitation services for an EPSDT eligible shall be provided by qualified Medicaid providers distinct from placement and excluding room and board. For all EPSDT services, the practitioner shall include communication and coordination with the family and/or legal guardian. Coordination with other child serving systems should occur as needed to achieve the treatment goals. All coordination shall be documented in the youth’s medical record.

Rehabilitation services may not include reimbursement for other services to which an eligible individual has been referred, including foster care programs and services such as, but not limited to, the following:

1. Research gathering and completion of documentation required by the foster care program
2. Assessing adoption placements
3. Recruiting or interviewing potential foster care parents
4. Serving legal papers
5. Home investigations
6. Providing transportation
7. Administering foster care subsidies
8. Making placement arrangements

Definitions:
The mental health and substance abuse rehabilitation services provided by unlicensed direct care staff are defined as follows:

1. Treatment in Day Treatment and Intensive Outpatient Service (IOP) by Unlicensed Direct Care Staff

Day Treatment and Intensive Outpatient services are part of a continuum of care to prevent inpatient services and/or to facilitate the movement of the client from an inpatient setting (in a hospital or PRTF) service to a status in which the client is capable of functioning within the community with less frequent contact with the mental health or substance abuse provider. These services shall lead to an attainment of specific goals through a group of individualized treatment interventions and services.

Individualized treatment shall provide the basis for transitioning an EPSDT eligible to a less intense level of care if additional services are clinically necessary. Individualized treatment is based upon an active treatment plan reviewed every 30 days after it is finalized and a specific plan for discharge from Day Treatment when the treatment goals have been met.

LIMITATIONS- EARLY AND PERIODIC SCREENING AND DIAGNOSIS AND TREATMENT OF CONDITIONS FOUND

Treatment services may be appropriately used to transition a client from higher levels of care and may be provided for clients at risk of needing more intensive care than traditional weekly outpatient treatment services. Medicaid covers only treatment by unlicensed direct care staff. For these specific rehabilitation services, the comprehensive specialized psychiatric program, Medicaid covers only treatment by unlicensed direct care staff. Unlicensed direct care staff perform the following functions:

A. Provide psychoeducational activities and interventions to support the EPSDT eligible in developing social, therapeutic, and other independent living skills as appropriate.

Psychoeducational therapy services may include:

(1) **Crisis Intervention Plan and Aftercare Planning** - This service is provided in a group or individual session and assists the client in understanding crisis planning and supports the client in developing their individualized plan for crisis intervention.

(2) **Social Skills Building** - This service is a behavioral health intervention used to support the psychotherapy provided by a licensed person that assist the client in learning better relationship skills with other individuals around him/her. The service is provided by a skilled and trained, unlicensed individual under the supervision of a licensed practitioner.

(3) **Life Survival Skills** - These are interactions either in the group setting or the individual session which develop better interaction skills in the community. These services are led and provided by a skilled and trained unlicensed direct care staff person under the supervision of a licensed practitioner.

(4) **Substance Abuse Prevention Intervention** - This service provides substance abuse education and is provided by a skilled and trained unlicensed direct care staff person under the supervision of a licensed practitioner.

(5) **Self-care services** - These are interventions to assist the client in coping and managing in their environment. These services are led and provided by a skilled and trained unlicensed direct care staff under the supervision of a licensed practitioner.

(6) **Medication education and medication compliance groups** - These are treatment interventions either in a group setting or an individual session that assists the client in understanding the purpose of medication, assists in identifying side effects, and assists in helping the client maintain compliance. Services are provided by a registered nurse.

(7) **Health care issues group (may include nutrition, hygiene, personal wellness)** - This is a psychoeducational group service, generally provided by a licensed nurse, that provides assistance to the client in learning how to better manage their health issues.

These activities (1 through 7) are rehabilitative skill building provided by a skilled and trained unlicensed direct care staff or by a licensed nurse, when indicated, who has proven competency in delivering these psychosocial activities.

B. Implement the treatment plan and discharge plan for each EPSDT eligible
C. Provide continual care to the EPSDT eligible clients in the program
D. Report all crisis or emergency situations to the program/clinical director or to the program's designee in the absence of the program/clinical director
E. Understand the program's philosophy regarding behavior management and apply its philosophy in daily interactions with the clients in care

Provider Qualifications:
Agencies shall be certified by Medicaid and/or its designee. Agencies shall be licensed by the State of Nebraska for substance abuse service delivery if substance abuse treatment is delivered. Each agency will employ program/clinical directors to supervise unlicensed direct care staff consistent with State licensure, accreditation, and regulations including co-occurring conditions. The program shall identify an on-call system of licensed practitioners available for crisis management when the client is not in the program's scheduled hours and/or the program is not in session. Programs shall identify a coverage Supervising Practitioner to serve the program in the unforeseen absence of the designated Supervising Practitioner due to illness or vacations.

Practitioners providing substance abuse or mental health services must meet the training requirements outlined by Medicaid and/or its designee, in addition to any required scope of practice license required for the facility or agency to practice in the State of Nebraska. The unlicensed direct care staff shall have a bachelor's degree or higher in psychology, sociology, or related human service field, but two years of course work in the human services field and two years experience/training with demonstrated skills and competencies in treatment of youth with mental illness is acceptable. These requirements for unlicensed direct care staff become effective for staff hired on or after the effective date of this policy. Unlicensed direct care staff:

1. Shall complete the initial program training and successfully complete the agency's competency check. In addition, each staff shall have demonstrated skill and competency in the treatment of clients with mental health and substance abuse disorders prior to delivery of services.
2. Shall pass child abuse check, Adult abuse registry and motor vehicle screens
3. Shall complete specific training for behavioral management and update the training as required by the program
4. Shall understand de-escalation techniques and demonstrate the ability to implement those techniques effectively

Unit of Service: 15-minute unit for unlicensed direct care staff. A unit of service is defined according to the HCPCS approved code set.

Limitations:
Agency providers cannot receive Medicaid reimbursement for treatment services provided to clients who live in any institution and are transported to the program. When a Medicaid beneficiary is receiving Therapeutic Group Home, Professional Resource Family Care, hospital or PRTF services, the client may not participate in day treatment or Intensive Outpatient Services.

The service definition does not include activities or reimbursement for the following clients:

(1) Living in institutions
(2) With social or educational needs met through a less structured program
(3) With primary diagnosis and functional impairment acutely psychiatric in nature and an unstable condition which will not benefit from the program
(4) Where referral information supports that the client cannot benefit from services

LIMITATIONS- EARLY AND PERIODIC SCREENING AND DIAGNOSIS AND TREATMENT OF CONDITIONS FOUND

The overall program may generally only bill for 6 hours a day for day treatment and 3 hours per day for intensive outpatient services. The number of hours per day shall be determined by the specific clinical needs of the client and by the level of acuity of the client. Medicaid and/or its designee may prior authorize treatment in excess of these guidelines if medically necessary.

Licensed practitioners will provide services and bill separately from unlicensed practitioners for the time spent in direct therapy per direct therapy coding under the Other Licensed Practitioner Section of the State Plan (e.g., unbundled). Licensed and unlicensed practitioners may not bill for the same time. Clinical supervision costs for unlicensed practitioners are built into the unlicensed direct care practitioner service and reimbursement.

Day Treatment Direct Care Staff time may only be provided in an office-based facility with a well organized supportive therapeutic environment for EPSDT eligible clients in order that EPSDT eligible clients can apply the goals of their individualized, active treatment plan and achieve progress in accomplishing those goals. Clients whose symptoms includes uncontrolled disruptive behavior shall have de-escalation and anger management identified in the initial treatment plan and measures shall be taken to aggressively enforce and manage those behaviors at the earliest time possible. Day Treatment workers shall be aware of safety issues unique to each EPSDT eligible and provide safety intervention within the milieu. Procedures such as seclusion and restraint to manage the treatment milieu are not permitted in Day Treatment programs. Treatment Plans shall be developed within 10 days of admission to the Day Treatment program.

Intensive Outpatient Direct Care Staff time may only be provided in an office-based facility providing group-based, non-residential, intensive outpatient mental health/substance abuse treatment services in conjunction with psychotherapy services and substance abuse counseling services provided by licensed practitioners. Treatment Plans shall be developed within 14 days of admission to the IOP program.

2. Community Treatment Aide (CTA)

Community Treatment Aide (CTA) services are supportive, and psycho-educational interventions provided primarily in the client’s natural environment. Natural environment primarily is the client’s home but may also include a foster home, school, or other appropriate community locations conducive for the delivery of CTA services per the service. CTA services shall be expected to improve the client’s level of functioning within their environment to enhance the client and caregiver’s ability to manage the client’s primary mental health and substance abuse related symptoms. The service is delivered by a highly skilled, educated and trained non-licensed (paraprofessional) staff person under the direction and supervision of a licensed practitioner who simultaneously provides family and individual therapy on a regular basis to the client and the client’s caregiver/family. Community Treatment Aide (CTA) services are designed to assist the individual with compensating for or eliminating functional deficits and interpersonal and/or environmental barriers associated with their mental illness. Services may be provided in the community or in the individual’s place of residence as outlined in the Plan of Care.

The intent of CTA is to restore the fullest possible integration of the individual as an active and productive member of his or her family, community, and/or culture with the least amount of ongoing professional intervention. CTA is a face-to-face intervention with the individual present. Services may be provided individually and in a family setting. A majority of CTA contacts shall occur in community locations where the person lives, works, attends school, and/or socializes.

A CTA provider performs the following functions:

(A) Provides training and rehabilitation of basic personal care and activities of daily living through training the EPSDT eligible clients and the usual caregiver (such as the biological family, foster family) etc. This function provides basic education and encouragement to clients with mental health issues to develop personal grooming habits which assists in better personal relationships and assists the client to provide better daily organization.

LIMITATIONS- EARLY AND PERIODIC SCREENING AND DIAGNOSIS AND TREATMENT OF CONDITIONS FOUND

(B) Promotes improvement in the EPSDT eligible client’s social skills and relationship skills through training and education of the EPSDT eligible clients and the usual caregiver - This rehabilitative service assists the client in learning acceptable social behavior to improve relationships with family members, peer groups and community.

(C) Teaches and instructs the caregiver in crisis and de-escalation techniques - This is a rehabilitative function provided individually or in a group setting that assists the client in managing emotions, particularly understanding anger and healthy releases and outlets for emotions.

(D) Teaches and models appropriate behavioral treatment interventions and techniques for the EPSDT eligible and the caregiver - This rehabilitative function assists the caregiver and client in understanding appropriate interactions through the use of role playing techniques and modeling appropriate behaviors.

(E) Teaches and models appropriate coping skills to manage dysfunctional behavior for the caregiver - This rehabilitative function assists the client in understanding methods of healthy coping of stress to reduce and eliminate dysfunctional behavior.

(F) Provides information about medication compliance and relapse prevention and reports to her/his supervising licensed mental health practitioner - This rehabilitative function assists the client/caregiver with resolving any medication compliance issues by CTA reporting any medication problems to his/her immediate supervisor to assist in bringing these issues to the physician.

(G) Teaches and models proper and effective parenting practice - This rehabilitative function assists the immediate caregiver and client in learning more effective parenting techniques in relation to managing mental health and substance abuse symptoms.

These activities (A through G) are rehabilitative skill building provided by a skilled and trained unlicensed staff person who has proven competency in delivering these activities.

3. Professional Resource Family Care

Professional Resource Family Care is intended to provide short-term and intensive supportive resources for the EPSDT eligible and his/her family. The intent of this service is to provide a crisis stabilization option for the family in order to avoid psychiatric inpatient and institutional treatment of the EPSDT eligible by responding to potential crisis situations through the utilization of a co-parenting approach provided in a surrogate family setting. The goal will be to support the EPSDT eligible and family in ways that will address current acute and/or chronic mental health needs and coordinate a successful return to the family setting at the earliest possible time. During the time the professional resource family is supporting the EPSDT eligible, there is regular contact with the family to prepare for the EPSDT eligible client’s return and his/her ongoing needs as part of the family. It is expected that the EPSDT eligible, family and professional resource family are integral members of the EPSDT eligible client’s individual treatment team. A professional resource family performs the following functions:

(A) Promotes improvement in the EPSDT eligible client’s social skills and family and peer relationship skills through training and education of the EPSDT eligible and the biological parents/primary caregiver
(B) Teaches and instructs the caregiver in crisis and de-escalation techniques
(C) Teaches and models appropriate behavioral treatment interventions and techniques for the EPSDT eligible and the biological parents/primary caregiver
(D) Teaches and models appropriate coping skills to manage dysfunctional behavior for the biological parents/primary caregiver
(E) Teaches and models proper and effective parenting practice to biological parents/primary caregiver
(F) Provides information about medication compliance and relapse prevention and reports to her/his supervising licensed mental health practitioner
(G) Provides training and rehabilitation of basic personal care and activities of daily living through training the EPSDT eligible and the usual biological parents/primary caregiver
(H) Assists the EPSDT eligible to develop positive peer relationships
(I) Works with the biological parents/primary caregiver to explore community resources in the EPSDT eligible client’s natural setting

Provider Qualifications:
Agencies shall be licensed by the State of Nebraska as a Child Placing Agency and accredited by a national accrediting body. Each agency will employ licensed program/clinical directors to supervise unlicensed direct care staff consistent with State licensure. PRFC service staff shall receive ongoing and regular clinical supervision through a Child Placing Agency by a person meeting the qualifications of a psychiatrist or psychologist with experience regarding this specialized mental health service, and such supervision shall be available at all times to provide back up, support, and/or consultation.

Practitioners providing substance abuse or mental health services must meet the training requirements outlined by Medicaid and/or its designee, in addition to any required scope of practice license required for the facility or agency to practice in the State of Nebraska. The agency will also employ Professional Resource Families Care staff with the following qualifications:

(1) Have a high school diploma or equivalent for all staff and a bachelor’s degree in a human service field for specialists
(2) Be 21 years of age and have a minimum of 2 years experience working with children, 2 years education in the human service field or a combination of work experience and education with one year of education substituting for one year of experience
(3) Complete training according to a curriculum approved by State prior to providing the service
(4) Pass child abuse check, Adult abuse registry and motor vehicle screens
(5) Each surrogate family setting shall have a Foster Family license by the State. Each PRFC practitioner shall be supported by a Child Placing Agency with appropriate clinical supervision, training and staffing.
(6) Understand de-escalation techniques and demonstrate the ability to implement those techniques effectively

Unit of Service: Day unit for unlicensed direct care staff. A unit of service is defined according to the HCPCS approved code set.

Limitations: PRFC services require prior authorization. The duration of services is prior authorized. Additional days can be authorized with prior approval from Medicaid and/or its designee. Each unlicensed direct care staff may only care for one EPSDT eligible in treatment unless an exception is granted by Medicaid and/or its designee.

PRFC services may not be provided simultaneously with ThGH care and do not duplicate any other Medicaid State Plan Service or service otherwise available to recipient at no cost as charity care. Treatment Plans shall be developed within 7 days of admission to the PRFC program and reviewed every 14 days thereafter.

Direct care by licensed staff is billed separately from the PRFC services per diem treatment rate for unlicensed practitioners (e.g., unbundled) which does not include room and board.

4. Therapeutic Group Home

Therapeutic Group Homes (ThGHs) provide a community-based residential service in a home-like setting of no greater than eight beds under the supervision and program oversight of a psychiatrist or psychologist. The treatment should be targeted to support the development of adaptive and functional behaviors that will enable the EPSDT eligible to remain successfully in his/her community, and to regularly attend and participate in work, school or training. ThGHs deliver an array of clinical and related services within the ThGH including psychiatric supports, integration with community resources and skill-building taught within the context of the home-like setting. ThGH treatment shall target reducing the severity of the behavioral health issue that was identified as the reason for admission. Most often, targeted behaviors will relate directly to the EPSDT eligible client's ability to function successfully in a home setting and school environment (e.g., compliance with reasonable behavioral expectations; safe behavior and appropriate responses to social cues and conflicts).

Treatment shall:

(A) Focus on reducing the behavior and symptoms of the psychiatric disorder that necessitated the removal of the EPSDT eligible from his/her usual living situation
(B) Decrease problem behavior and increase developmentally-appropriate, normative and pro-social behavior in EPSDT eligible clients who are in need of out-of-home placement
(C) Transition EPSDT eligible from therapeutic group home to home or community based living with outpatient treatment (e.g., individual and family therapy) if necessary.

ThGH services are utilized when less intensive levels of treatment shall have been determined to be unsafe, unsuccessful or unavailable. The EPSDT eligible shall require active treatment on an individualized active treatment plan that would not be able to be provided at a less restrictive level of care is being provided on a 24-hour basis with licensed program/clinical directors supervising the behavioral health staff. The treatment plan shall be developed within 7 days of admission and reviewed every 14 days thereafter.

The setting shall be ideally situated to allow ongoing participation of the EPSDT eligible client’s family. The EPSDT eligible shall attend a school in the community (e.g., a school integrated with children not from the institution and not on the institution’s campus). In this setting, the EPSDT eligible remains involved in community-based activities and may attend a community educational, vocational program or other treatment setting.

ThGHs provide twenty-four hours/day, seven days/week structured and supportive living environment. Care coordination is provided to plan and arrange access to a range of educational and therapeutic services. Psychotropic medications should be used with specific target symptoms identification, with medical monitoring and 24-hour medical availability, when appropriate and relevant. Physicians and Advanced Practice Registered Nurses administer and monitor the psychotropic medications. Screening and assessment is required upon admission and every 14 days thereafter to track progress and revise the treatment plan to address any lack of progress and to monitor for current medical problems and concomitant substance use issues.

The individualized, strengths-based services and supports:

(1) Are identified in partnership with the EPSDT eligible and the family and support system, to the extent possible, and if developmentally appropriate
(2) Are based on both clinical and functional assessments
(3) Are clinically monitored and coordinated, with 24-hour availability
(4) Are implemented with oversight from a licensed mental health professional
(5) Assist with the development of skills for daily living and support success in community settings, including home and school

The ThGH is required to coordinate with the EPSDT eligible client’s community resources, with the goal of transitioning the EPSDT eligible out of the program as soon as possible and appropriate. Discharge planning begins upon admission with concrete plans for the EPSDT eligible to transition back into the community beginning within the first week of admission with clear action steps and target dates outlined in the treatment plan. The treatment plan shall include behaviorally-measurable discharge goals.

For treatment planning, the program shall use a standardized assessment and treatment planning tool such as the Child and Adolescent Needs and Strengths. The assessment protocol shall differentiate across life domains, as well as risk and protective factors, sufficiently so that a treatment plan can be tailored to the areas related to the presenting problems of each EPSDT eligible and their family in order to ensure targeted treatment. The tool should also allow tracking of progress over time. The specific tools and approaches used by each program shall be specified in the program description and are subject to approval by the State. In addition, the program shall ensure that requirements for pretreatment assessment are met prior to treatment commencing.

For service delivery, the program shall incorporate at least two research-based approaches including either Evidence-Based Practices (EBPs) or ASAM pertinent to the sub-populations of ThGH clients to be served by the specific program. The specific research-based models to be used should be incorporated into the program description and submitted to the State for approval. All research-based programming in ThGH settings must be approved by the State.

Annually, facilities shall submit documentation demonstrating compliance with fidelity monitoring for at least two research-based approaches (e.g., EBP and/or ASAM). The State shall approve the auditing body providing the fidelity monitoring. ThGH facilities may specialize and provide care for sexually deviant behaviors, substance abuse, or dually diagnosed individuals. If a program provides care to any of these categories of populations, the program shall submit documentation regarding the appropriateness of the research-based approaches. For milieu management, all programs should also incorporate some form of research-based, trauma-informed programming and training, if the primary research-based treatment model used by the program does not.

Provider Qualifications: A Therapeutic Group Home shall be nationally accredited and licensed as a mental health center or substance abuse treatment center by the Nebraska Health and Human Services System and may not exceed eight beds unless grandfathered. Practitioners providing substance abuse or mental health services must meet the training requirements outlined by Medicaid and/or its designee, in addition to any required scope of practice license required for the facility or agency to practice in the State of Nebraska. ThGH staff shall be supervised by a licensed psychiatrist or psychologist (supervising practitioner) with experience in the research-based treatments used in the facility. Unlicensed direct care staff includes paraprofessional, master’s and bachelor’s level staff supervised by a psychologist or psychiatrist. At least 21 hours of active treatment per week for each EPSDT eligible is required to be provided by qualified staff (e.g., having a certification in the EBPs selected by the facility and/or licensed practitioners operating under their scope of practice in Nebraska and meeting ThGH licensure requirements), consistent with each EPSDT eligible client’s treatment plan and meeting assessed needs. All staff not licensed shall have provider qualifications meeting at least the following:

1. Have a high school diploma or equivalent
2. Be 21 years of age and have a minimum of 2 years experience working with children, 2 years education in the human service field or a combination of work experience and education with one year of education substituting for one year of experience
3. Complete training according to a curriculum approved by the State prior to providing the service

Staffing schedules shall reflect overlap in shift hours to accommodate information exchange for continuity of treatment, adequate numbers of staff reflective of the tone of the unit, appropriate staff gender mix and the consistent presence and availability of professional staff. In addition, staffing schedules should ensure the presence and availability of professional staff on nights and weekends, when parents are available to participate in family therapy and to provide input on the treatment of their EPSDT eligible.

Unit of Service: Day unit for unlicensed direct care staff. A unit of service is defined according to the HCPCS approved code set.

Limitations:
All licensed staff including psychiatrists, psychologists, Licensed Independent Mental Health Practitioners, Licensed Mental Health Practitioners, Provisionally Licensed Mental Health Practitioners, Advanced Practice Registered Nurses, and Licensed Alcohol and Drug Counselors bill for their services separately under the approved State Plan for Other Licensed Practitioners, Item 6d or EPSDT Other Licensed Practitioners. A psychiatrist or psychologist shall be the supervising practitioner and shall provide twenty-four (24) hour, on-call coverage seven (7) days a week. The psychologist or psychiatrist shall see the client at least once, prescribe the type of care provided, and, if the services are not time-limited by the prescription, review the need for continued care every 14 days. Although the psychologist or psychiatrist does not have to be on the premises when his/her client is receiving covered services, the supervising practitioner shall assume professional responsibility for the services provided and assure that the services are medically appropriate. Therapy (individual, group and family, whenever possible) and ongoing psychiatric assessment and intervention (by a psychiatrist) are required of ThGH, but provided and billed separately by licensed practitioners for direct time spent.

ThGHs are located in residential communities in order to facilitate community integration through public education, recreation and maintenance of family connections. The facility is expected to provide recreational activities for all residents but not use Medicaid funding for payment of such non-Medicaid activities.

ThGHs may not be Institutions for Mental Disease. Each organization owning Therapeutic Group Homes shall ensure that the definitions of institutions are observed and that in no instance does the operation of multiple ThGH facilities constitute operation of an Institution of Mental Disease. All new construction, newly acquired property or facility or new provider organization shall comply with facility bed limitations not to exceed eight beds. Existing facilities may not add beds if the bed total would exceed eight beds in the facility. A waiver up to a maximum of 16 beds may be granted for existing facilities of greater than eight beds at the existing capacity not to exceed 16 beds in the institution until alterations of the existing facility are made. Any physical plant alterations of existing facilities shall be completed in a manner to comply with the eight bed per facility limit (i.e., renovations of existing facilities exceeding eight beds shall include a reduction in the bed capacity to eight beds).

Average Length of stay ranges from 14 days to 6 months. ThGH programs focusing on transition or short-term crisis are typically in the 14 to 30 day range. Discharge will be based on the EPSDT eligible no longer making adequate improvement in this facility (and another facility is being recommended) or the EPSDT eligible no longer having medical necessity at this level of care. Continued ThGH stay should be based on a clinical expectation that continued treatment in the ThGH can reasonably be expected to achieve treatment goals and improve or stabilize the EPSDT eligible client’s behavior, such that this level of care will no longer be needed and the EPSDT eligible can return to the community. Transition should occur to a more appropriate level of care (either more or less restrictive) if the EPSDT eligible is not making progress toward treatment goals and there is no reasonable expectation of progress at this level of care (e.g., EPSDT eligible client’s behavior and/or safety needs requires a more restrictive level of care, or alternatively, EPSDT eligible client’s behavior is linked to family functioning and can be better addressed through a family/home-based treatment).

5. Multisystemic Therapy (MST)

MST is an evidenced based intensive treatment process that focuses on diagnosed behavioral health disorders and on environmental systems (family, school, peer groups, culture, neighborhood and community) that contribute to, or influence a youth’s involvement, or potential involvement in the juvenile justice system. The therapeutic modality reinforces positive behaviors, and reduces negative behavior, uses family strengths to promote positive coping activities and helps the family increase accountability and problem solving. Beneficiaries accepting MST receive assessment and home based treatment that strives to change how youth, who are at risk of out-of-home placement or who are returning home from an out of home placement, function in their natural settings to promote positive social behavior while decreasing anti-social behavior.
STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT
State: Nebraska
LIMITATIONS- EARLY AND PERIODIC SCREENING AND DIAGNOSIS AND TREATMENT OF CONDITIONS FOUND

MST’s therapeutic services aims to uncover and assess the functional origins of adolescent behavioral problems by altering the youth’s behavioral health issues in a manner that promotes prosocial conduct while decreasing aggressive/violent, antisocial, substance using or delinquent behavior by keeping the youth safely at home, in school and out of trouble. Treatment is used at the onset of behaviors that could result in (or have resulted in) criminal involvement by treating the youth within the environment that has formed the basis of the problem behavior.

Treatment shall target reducing the severity of the behavioral issue identified as the reason for referral and to support the development of adaptive and functional behaviors.

MST services

(A) Assessment

An Initial Diagnostic Interview (IDI) is a comprehensive assessment that identifies the Clinical need for treatment and the most effective treatment intervention/level of care to meet the medical necessity needs of the client. The IDI is completed prior to service provision and the IDI documentation accompanies the referral information to the rehabilitation program provider. The recommendations of the licensed supervising practitioner following the Initial Diagnostic Interview serves as the treatment plan until the comprehensive treatment plan is developed.

(B) Treatment

i. Youth and families receive individualized, therapy which is available 24 hours a day, seven days a week in the community setting. The MST therapy services is designed to decrease symptoms of the mental health diagnosis, reduce maladaptive referral behaviors and increase pro-social behaviors at home and across the multiple interconnected systems. The interconnected systems include the family, extended family, peers, neighbors, and the community that exists in the youth’s world. The positives that are found in these systems are used as leverage for change. MST is an evidence based practice.

ii. The family receives family therapy in order to understand and implement how to assist their child based on the child’s medical diagnosis.”

(D) Eligibility
Early, Periodic, Screening, Diagnostic and Treatment (EPSDT) services are available without limitation to all individuals under the age of 21 based on medical necessity.
7. Peer Support:

Peer support is the provision of support by people who have life experience with Mental Health or Substance Use Disorders (SUD) and have been trained to assist others in initiating and maintaining long-term recovery. Peer support is an ancillary service provided in conjunction with individual, group and family therapy. It is designed to improve quality of life for the Medicaid eligible client and their families and increase the Medicaid eligible client resiliency in order to achieve long-term recovery from symptoms related to their mental health/SUD diagnosis. Peer support services are individualized and based on a mutual relationship between the Certified Peer Support Professionals and the Medicaid eligible client, consequently allowing the Medicaid eligible client the opportunity to learn to manage his/her own recovery and advocacy process. The Nebraska Peer Support model incorporates trauma informed care (TIC). Trauma informed care is an organizational structure and treatment framework that involves understanding, recognizing and responding effectively to the effects of all types of trauma. Certified Peer Support Professionals will be expected to have received training on TIC and be able to incorporate that training into their interactions with the clients and their families so as to avoid re-traumatizing the client/family. Peer support services may be provided in an outpatient office/clinic, and the client’s home and/or community. Certified Peer Support Professionals work closely with the treatment team to assist the client’s recovery.

(A) Categories of Peer Support

i. Transition Age Youth (TAY) peer support services are designed to promote positive youth development and provide supportive services to youth and young adults under the age of 21 who are experiencing mental health and substance use issues. TAY includes the following services provided in each identified setting:

PREVENTATIVE SERVICES - EARLY AND PERIODIC SCREENING AND DIAGNOSIS AND TREATMENT OF CONDITIONS FOUND

Requirements for Preventative Services through EPSDT

Preventive services must:
1. Involve direct patient care and
2. Be for the express purpose of diagnosing, treating, preventing (or minimizing the adverse effects of) illness, injury, or other impairments to an individual’s physical or mental health.

Preventive services are those services recommended by a physician or other licensed practitioner of the healing arts within their scope of practice to prevent disease, disability, and other health conditions or their progression; prolong life; and promote physical and mental health efficiency.

Behavior modification services are preventive services for Autism Spectrum Disorder (ASD) and/or Developmental Disability (DD). These services include day treatment, community treatment aide, and outpatient therapy. These services encompass areas where behavior modification services are provided to clients and their families/caretakers.

These preventive services are provided as part of a comprehensive specialized program available to all Medicaid EPSDT eligible clients with significant functional impairments resulting from an identified ASD and/or a DD diagnosis as defined by Nebraska Revised State Statute §83-1205.

The determination of whether the client reaches the threshold of medical necessity for these preventive services shall be determined by a licensed physician, licensed psychologist or, a licensed independent mental health practitioner (LIMHP), who is acting within the scope of his/her professional license and applicable state law. Medical necessity is to promote the maximum reduction of symptoms of an individual to his/her best age-appropriate functional level according to an individualized treatment plan, which addresses the child’s assessed needs.

The activities included in the preventive service are intended to achieve the identified Medicaid eligible client’s treatment plan goals or objectives. Components that are not provided to, or directed exclusively toward the treatment of the Medicaid eligible client are not eligible for Medicaid reimbursement. All services are directed exclusively towards the treatment of the Medicaid eligible client.

PREVENTATIVE SERVICES - EARLY AND PERIODIC SCREENING AND DIAGNOSIS AND TREATMENT OF CONDITIONS FOUND

Treatment Models

Cognitive Behavioral Therapy (CBT) is an action-oriented form of psychosocial therapy that assumes maladaptive, or faulty thinking patterns cause maladaptive behavior and "negative" emotions. For the purposes of the preventive services for clients with ASD and/or developmental disability, outlined in this section, CBT focuses on changing a client's thoughts in order to change their behavior and emotional state.

Comprehensive Behavioral Intervention (CBI) is a service to facilitate therapeutic approaches for clients with ASD and/or DD that include behavior problems. Behavior intervention planning is assessment-based. Interventions address the function and efficiency of the problematic behavior in the least restrictive manner and promote the development of alternative adaptive skills.

Applied Behavioral Analysis (ABA) is the process of systematically applying interventions based upon the principles of learning theory to improve socially significant behaviors, and to demonstrate that the interventions employed are responsible for the improvement in behavior for clients with ASD and/or developmental disabilities.

All three-treatment models may be incorporated into the behavior modification services identified below.

Services

Outpatient Therapy (OP)

OP consists of individual, family and group therapy for the purpose of developing interventions and implementing treatment, based on the recommendations from the Initial Diagnostic Interview (IDI) or the Functional Behavior Assessment (FBA). The purpose of the therapy is to prevent client’s further progression of maladaptive behaviors that inhibit the client’s ability to interact socially within multiple environments.

Interventions

1. Assessments:
   a. Initial Diagnostic Interview (IDI) - A comprehensive assessment that identifies the clinical need for treatment and the most effective treatment intervention/level of care to meet the medical necessity needs of the client. This interview is completed prior to service provision, and accompanies the referral information to the provider.

      The following providers may perform the IDI: Physicians acting within their scope of practice, Licensed Psychologists, Provisionally Licensed Psychologists and Licensed Independent Mental Health Practitioners (LIMHP).

   b. Functional Behavior Assessment (FBA) – This assessment is performed if the IDI identifies its necessity. The FBA is an assessment that identifies the purpose or reason for behaviors displayed by clients with ASD and/or developmental disabilities in order to develop effective treatment interventions to meet the medical necessity needs of the client. The FBA is completed prior to service provision, and the FBA documentation accompanies the referral information to the provider.

      The following providers may perform the FBA: Board Certified Behavior Analysts (BCBA), Licensed Psychologists, Provisionally Licensed Psychologists and Licensed Independent Mental Health Practitioners (LIMHP).

2. Treatment
   The treatment interventions identified below may be utilized by providers of, CBT, CBI, ABA and family therapy.
   a. Teaches clients socially acceptable behaviors via modeling, prompting, roleplaying and reinforcing of appropriate behaviors.

   b. Provides Family/Caregiver training of acceptable behaviors via modeling, prompting, roleplaying, and reinforcing appropriate behaviors to promote consistency for the Medicaid eligible client.

Nutrition Services

Medical Nutrition Therapy for EPSDT clients:

Medical Nutritional Therapy (MNT) is the assessment, intervention and counseling provided by a medical nutrition practitioner when prescribed by a physician or nurse practitioner. MNT is done for the purpose of managing the nutritional needs of clients whose nutritional status affects their health and medical conditions. MNT is available to Medicaid eligible clients who are 20 years of age and younger as part of the EPSDT program.

Referral: Medical Nutritional Therapy is available only with a physician or nurse practitioner referral. Therapies will be in accordance with currently accepted dietary and nutritional protocols.

MNT services:
1. Assessment
   A nutritional assessment is done by a child’s primary care provider as part of an EPSDT screening. The diagnostic finding from the exam must indicate a nutritional problem or condition of such severity that nutritional counseling beyond that normally expected as part of the standard medical management is warranted.

2. Intervention
   Assessment information is used to develop a plan to prevent, improve, or resolve identified nutritional problems.

3. Counseling
   a. Clients/caregivers receive individual counseling to explain the nutritional assessment and the implementation of a plan of nutritional care. Caregivers may only receive services when for the direct benefit of the child, and when the child is present.
   b. Clients/caregivers receive individual counseling to develop a plan to address identified nutritional problems based on the health objectives, resources, and capacity of the child/caregiver. Caregivers may only receive services when for the direct benefit of the child, and when the child is present.
   c. Clients/caregivers receive group counseling. Caregivers may only receive services when for the direct benefit of the child, and when the child is present.

The counseling must be separate and distinct from Prospective Drug Use Review (ProDur) counseling required under Section 1927. [42 U.S.C. 1396r-8] of the Social Security Act and as amended, and must not be related to the dispensing of a drug product. The counseling must be ordered by the primary practitioner with feedback required from the pharmacist to the ordering practitioner.

NMAP covers up to two tobacco cessation sessions in a 12-month period. A tobacco cessation session includes (a) visits to the primary practitioner for evaluation, particularly for any contraindications for drug product(s) and to obtain prescription(s) if tobacco cessation products are needed, and (b) up to a total of four tobacco cessation counseling visits with a physician or pharmacist tobacco cessation counselor. These visits may be a combination of intermediate and intensive counseling.

Telehealth: other Practitioner Services for tobacco cessation counseling are covered when provided via telehealth technologies subject to the limitations as set forth in state regulations, as amended.

LIMITATIONS - HOME HEALTH NURSING SERVICES

1. Home health agency services must be prior authorized by the Medicaid Division.

2. Coverage for all home health agency services is based on medical necessity, and must be:
   a. necessary to continuing a medical treatment plan;
   b. prescribed by a licensed physician;
   c. recertified by the licensed physician at least every 60 days; and

3. Medicaid does not cover skilled nursing visits provided by student nurses who are enrolled in a school of nursing and are not employed by the home health agency unless the student is accompanied by a registered nurse who is an employee of the home health agency.

4. Medicaid limits skilled nursing visits for teaching and training on an individual basis, based on medical necessity and the ability of the client, parent or caregiver to perform the task independently. The client must have a medical condition which has been diagnosed and treated by a physician. There must be a physician's order for the specific teaching and training.

LIMITATIONS – MEDICAL SUPPLIES, EQUIPMENT, AND APPLIANCES
SUITABLE FOR USE IN THE HOME

The Nebraska Medical Assistance Program covers the purchase or rental of durable medical equipment, medical supplies that meet program guidelines when prescribed by a physician or other licensed practitioner whose licensure allows prescribing these items (M.D., D.O., D.P.M.). To qualify as a covered service under NMAP, the item must be medically necessary and must meet the definitions in state regulations.

NMAP does not cover items that primarily serve personal comfort; convenience; or educational, hygienic, safety, or cosmetic functions; or new equipment of unproven value and/or equipment of questionable current usefulness or therapeutic value.

Home health agencies may provide durable medical equipment and oxygen only.

Durable medical equipment and supplies providers shall complete and sign the Medical Assistance Provider Agreement, and submit the completed form to the Department for approval. Providers shall meet any applicable state and federal laws governing the provision of their services. NMAP enrolls, as providers of durable medical equipment, medical supplies, orthotics, or prosthetics, only those providers who are involved in the direct provision of services or items to the client.

Durable medical equipment is equipment which:

1. Withstands repeated use;
2. Is primarily and customarily used to serve a medical purpose;
3. Generally is not useful to a person in the absence of an illness or injury; and
4. Is appropriate for use in the client's home. This generally does not include long term care facilities.

Coverage conditions for individual services are listed with the procedure code descriptions.

LIMITATIONS – MEDICAL SUPPLIES, EQUIPMENT, AND APPLIANCES
SUITABLE FOR USE IN THE HOME

NMAP covers medical supplies listed in the coverage criteria and procedure code list when
prescribed for medical care in the client's home. Items not specifically listed may not be covered by
NMAP. Coverage for medical supplies does not generally include clients residing in nursing facilities
or ICF/MR's.

NMAP does not cover, as medical supplies, personal care items such as non-medical
mouthwashes, deodorants, talcum powders, bath powders, soaps, dentifrices, eye washes, contact
solutions, etc. NMAP does not cover, as medical supplies, oral or injectable over-the-counter drugs
and medications.

NMAP covers orthotic devices when medically necessary and prescribed to support a weak or
deformed body member or restrict or eliminate motion in a diseased or injured part of the body.
Coverage includes braces, orthopedic shoes and shoe corrections, lumbar supports, hernia control
devices, and similar items. NMAP covers prosthetic devices when medically necessary and
prescribed to replace a missing body part. Orthotics and prosthetics are covered for clients residing
in nursing facilities and ICF/MR's. NMAP does not cover external powered prosthetic devices.

NMAP covers only one pair of orthopedic shoes at the time of purchase. Except when size change
is necessary due to growth and/or when diagnosis indicates excessive wear, NMAP allows only one
pair of shoes in a one-year period. Orthopedic shoes and shoe corrections are not covered for
flexible or congenital flat feet.

Prior authorization is required of payment of rental and purchase of the items listed in state
regulations as requiring prior authorization.

Telehealth: Medical equipment, supplies, orthotics and prosthetics furnished by durable medical
equipment suppliers and pharmacies are not covered when provided via telehealth technologies.

The State assures that with respect to an individual applicant’s request for an item of medical equipment (ME) that the following conditions are met:

1. The process is timely and employs reasonable and specific criteria by which an individual item of Medical Equipment (ME) will be judged for coverage under the state’s home health services benefit. These criteria must be sufficiently specific to permit a determination of whether an item of ME that does not appear on a state’s pre-approved list has been arbitrarily excluded from coverage based solely on a diagnosis, type of illness, or condition.

2. The state’s process and criteria, as well as the state’s list of pre-approved items, are made available to beneficiaries and the public.

3. Beneficiaries are informed of their right, under 42 CFR. Part 431 Subpart E, to a fair hearing.

LIMITATIONS - HOME HEALTH SERVICES – PHYSICAL THERAPY, OCCUPATIONAL THERAPY, AND SPEECH PATHOLOGY AND AUDIOLOGY

To be eligible for home health services, the attending physician shall certify that the client cannot receive the services in an outpatient/physician office setting.

**Services for Individuals Age 21 and Older:** Medicaid covers occupational therapy, physical therapy, and speech, hearing, and language therapy services for individuals age 21 and older as a Home Health Agency service only when the following criteria is met. The services must:

1. Be prescribed by a physician;
2. Be performed by, or under the direct supervision of, a licensed physical therapist; and
3. Meet one of the following criteria:
   a. The services must be restorative when there is a medically appropriate expectation that the patient's condition will improve significantly in a reasonable period of time;
   b. The services must be reasonable and medically necessary for the treatment of the client's illness or injury;

These therapies for adults (age 21 and older) are a Home Health Agency Service only when there is no other method for the client to receive the service. Services must be prior authorized by Central Office staff. Substantiating documentation must be attached to the claim.

**Services for Individuals Age 20 and Younger:** Medicaid covers occupational therapy, physical therapy, and speech, hearing, and language therapy services for individuals birth to age 20 as a Home Health Agency service when the following criteria is met. The services must:

1. Be prescribed by a physician;
2. Be performed by, or under the direct supervision of, a licensed physical therapist; and

LIMITATIONS – PRIVATE DUTY NURSING SERVICES

NMAP applies the following limitations to nursing services (RN and LPN) for adults age 21 and older:

1. Per diem reimbursement for nursing services for the care of ventilator-dependent clients shall not exceed the average ventilator per diem of all Nebraska nursing facilities which are providing that service. This average shall be computed using nursing facility’s ventilator interim rates which are effective January 1 of each year, and are applicable for that calendar year period.

2. Per diem reimbursement for all other in-home nursing services shall not exceed the average case-mix per diem for the Extensive Special Care 2 case-mix reimbursement level. This average shall be computed using the Extensive Special Care 2 case-mix nursing facility interim rates which are effective January 1 of each year and applicable for that calendar year period.

Under special circumstances, the per diem reimbursement may exceed this maximum for a short period of time - for example, a recent return from a hospital stay. However, in these cases, the 30-day average of the in-home nursing per diems shall not exceed the maximum above. (The 30 days are defined to include the days which are paid in excess of the maximum plus those days immediately following, totaling 30.)

3. Telehealth: Private duty nursing services are covered when provided via telehealth technologies subject to the limitations as set forth in state regulations, as amended. Services requiring "hands on" professional services are excluded.

Services Provided in Ambulatory Surgical Centers: NMAP covers facility services provided in ambulatory surgical centers (both free-standing and hospital-affiliated) under the following limitations.

The “facility fee” includes payment for services and items provided by an ASC in connection with a covered surgical procedure.

Covered surgical procedures include the procedures on Nebraska's list of covered ASC procedures, which includes tubal ligations, vasectomies, and certain dental services.

The ASC may also provide services other than those included under the facility fee. These services are limited under the appropriate category (durable medical equipment, medical supplies, ambulance services, etc.) listed elsewhere in the Title XIX Plan.

Except as otherwise noted in the plan, state developed fee schedule rates are the same for both governmental and private providers of licensed Ambulatory Surgical Centers and any annual/periodic adjustments to the fee schedule are published at http://www.hhs.state.ne.us/med/medindex.htm (Division of Medicaid and Long-Term Care website). The agency’s rates were set as of January 1, 2008 and are effective for services on or after that date.

Upper Payment Limit: Aggregate payment for hospital-affiliated ASCs located within Nebraska may not exceed the reasonable estimate of the amount that would be paid for such services under Medicare payment principles. The upper limit of aggregate payments to hospitals pursuant to 42 CFR §447.321 shall be determined using the hospital’s latest audited filed cost report and claims data corresponding with the period to determine the reasonable costs in accordance with Medicare principles of reimbursement.

LIMITATIONS - DENTAL SERVICES

PRIOR AUTHORIZATION: NMAP requires prior authorization for certain dental services. Prior authorization must be obtained before the service is provided. Diagnostic services, as defined in state regulations, and routine corrective dental care, do not require prior authorization. Prepayment authorization for emergencies and other circumstances beyond the provider's control (insurance coverage, etc.) will be reviewed by Medicaid Division staff.

COVERED SERVICES: NMAP defines dental services as any diagnostic, preventive, or corrective procedures provided by or under the supervision of a licensed dentist. Covered procedures are specified in state regulations.

For clients age 21 and older, dental coverage is limited to $750 per fiscal year.

DIAGNOSTIC DENTAL SERVICES: NMAP covers diagnostic dental services as defined in state regulations, as amended. This includes exams, radiology, prophylaxis, topical application of fluoride, and diagnostic casts. Exams are covered once each year on a routine basis for clients age 21 and older. For clients who are eligible for HEALTH CHECK (EPSDT), exams are allowed every 6 months or more often if medically necessary. Interperiodic dental exams will also be considered appropriate to determine the existence of suspected conditions. When a patient is referred to another dentist or specialist, NMAP covers one exam by the second dentist or specialist.

ORAL SURGERY: Oral surgery, as defined by HCPCS, is covered as a physician service.

HOSPITALIZATION FOR DENTAL SERVICES: Dental services must be provided at the least expensive appropriate place of service.

LIMITATIONS - DENTAL SERVICES

COSMETIC SERVICES: NMAP does not cover cosmetic dental services.

RADIOLOGY: NMAP covers a maximum dollar amount for any combination of the following radiographs: Intraoral complete series, intraoral periapical films, extraoral films, bitewings, or panoramic films. A intraoral complete series is covered once every three years.

ENDODONTIA: NMAP covers endodontia for anterior and posterior permanent teeth when the prior authorization request of submitted x-rays substantiates medical necessity.

PERIODONTAL TREATMENT: All periodontal treatment must be prior authorized by the Medicaid Division. Covered periodontal services include those procedures necessary for the treatment of the tissues supporting the teeth.

ORTHODONTICS: NMAP covers orthodontic treatment for clients age 20 and younger. Orthodontic treatment is covered when the client has a handicapping malocclusion defined as (1) Craniofacial birth defect that is affecting the occlusion; or (2) Mutilated or severe occlusion.

Telehealth: Dental services are covered when provided via telehealth technologies subject to the limitations as set forth in state regulations, as amended. Services requiring “hands on” professional care are excluded.

LIMITATIONS – PHYSICAL THERAPY

Nebraska Medicaid covers physical therapy services when the following conditions are met:

1. The services must be prescribed by a physician or licensed nurse practitioner;
2. The services must be performed by, or under the direct supervision of, a licensed physical therapist;
3. The services must be restorative; and
4. There must be a medically appropriate expectation that the patient's condition will improve significantly in a reasonable period of time or the services are recommended in a Department-approved individual program plan (IPP).

Nebraska Medicaid does not cover physical therapy if the expected restoration potential is insignificant in relation to the extent and duration of the services required to achieve the potential.

Exception: Nebraska Medicaid covers physical therapy services for EPSDT eligibles when the following conditions are met:

1. The services must be prescribed by a physician or licensed nurse practitioner;
2. The services must be performed by, or under the direct supervision of, a licensed physical therapist; and
3. There must be a medically appropriate expectation that the patient's condition will improve significantly in a reasonable period of time or the services are recommended in a Department-approved individual program plan (IPP).

For clients age 21 and older, Nebraska Medicaid covers a combined total of 60 therapy sessions per fiscal year, physical therapy, occupational therapy and speech therapy. All limits may be exceeded based on medical necessity.

LIMITATIONS – OCCUPATIONAL THERAPY

Nebraska Medicaid covers occupational therapy services provided by independent therapists under the following conditions.

The therapist must be licensed by the Nebraska Department of Health and Human Services Regulation and Licensure. If services are provided by an OT assistant under the supervision of an OT, the assistant must be licensed by the Nebraska Department of Health and Human Services Regulation and Licensure. If services are provided outside Nebraska, the provider must be licensed in that state.

Occupational therapy is defined as improving, developing, or restoring functions impaired or lost through illness, injury, or deprivation; improving ability to perform tasks for independent functioning when functions are impaired or lost; or preventing, through early intervention, initial or further impairment or loss of function.

Nebraska Medicaid covers OT services when the following conditions are met. The services must be:

1. Prescribed by a physician or licensed nurse practitioner;
2. Performed by a licensed occupational therapist or a licensed occupational therapy assistant under the supervision of a licensed occupational therapist;
3. Restorative; and
4. Reasonable and medically necessary for the treatment of the client’s illness or injury.

Nebraska Medicaid covers orthotic appliances or devices when medically necessary for the client’s condition. Nebraska Medicaid does not reimburse an occupational therapist for orthotic devices or appliance which do not require customized fabrication by the therapist.

Exception: Nebraska Medicaid covers occupational therapy services for EPSDT eligibles when the following conditions are met. The services must be:

1. Prescribed by a physician or licensed nurse practitioner;
2. Performed by a licensed occupational therapist or a licensed occupational therapy assistant under the supervision of a licensed occupational therapist; and
3. Reasonable and medically necessary for the treatment of the client’s illness or injury.

Supplemental Rebate Program:

The state is in compliance with Section 1927 of the Social Security Act. Based on the requirements of Section 1927 of the act, the state has the following policies for the supplemental rebate program for Medicaid recipients:

a) All covered drugs of federal participating manufacturers remain available to the Medicaid program but may require prior authorization.

b) CMS has authorized the State of Nebraska to enter into the TOP$SM, The Optimal PDL Solution (“TOP$SM”) multi state pooling agreement to collect supplemental rebates through the TOP$SM program. The Supplemental Drug Rebate Agreement was submitted to CMS on October 5, 2016 and has been authorized by CMS, effective January 1, 2017.

c) Any contracts not authorized by CMS will be submitted to CMS for authorization.

d) Any changes to the contracts for theTOP$SM program will be submitted to CMS for approval.

e) All drugs covered by this program irrespective of a supplemental agreement, will comply with the provisions of the National Drug Rebate Agreement.

f) The State will negotiate supplemental rebates in addition to federal rebates provided for in Title XIX.

g) Supplemental rebates received by Nebraska in excess of those required under the National Drug Rebate Agreement will be shared with the federal government on the same percentage basis as applied under the National Drug Rebate Agreement.

h) Supplemental rebate agreements would apply to the drug benefit, both fee-for-service and those paid by contracted managed care organizations (MCOs).

LIMITATIONS – PROSTHETIC DEVICES

The Nebraska Medical Assistance Program covers the purchase or rental of durable medical equipment, medical supplies, orthotics, and prosthetics that meet program guidelines when prescribed by a physician or other licensed practitioner whose licensure allows prescribing these items (M.D., D.O., D.P.M.). To qualify as a covered service under NMAP, the item must be medically necessary and must meet the definitions in state regulations.

NMAP does not cover items that primarily serve personal comfort; convenience; or educational, hygienic, safety, or cosmetic functions; or new equipment of unproven value and/or equipment of questionable current usefulness or therapeutic value.

NMAP does not generally enroll hospitals, hospital pharmacies, long term care facilities; rehabilitation services or centers, physicians, physical therapists, speech therapists, or occupational therapists as providers of durable medical equipment, medical supplies, or orthotics and prosthetics.

Durable medical equipment is equipment which:

1. Withstands repeated use;
2. Is primarily and customarily used to serve a medical purpose;
3. Generally is not useful to a person in the absence of an illness or injury; and
4. Is appropriate for use in the client's home. This generally does not include long term care facilities.

Coverage conditions for individual services are listed with the procedure code descriptions.

LIMITATIONS – PROSTHETIC DEVICES

NMAP covers medical supplies listed in the coverage criteria and procedure code list when prescribed for medical care in the client’s home. Items not specifically listed may not be covered by NMAP. Coverage for medical supplies does not generally include clients residing in nursing facilities or ICF/MR's.

NMAP does not cover, as medical supplies, personal care items such as non-medical mouthwashes, deodorants, talcum powders, bath powders, soaps, dentifrices, eye washes, contact solutions, etc. NMAP does not cover, as medical supplies, oral or injectable over-the-counter drugs and medications.

NMAP covers orthotic devices when medically necessary and prescribed to support a weak or deformed body member or restrict or eliminate motion in a diseased or injured part of the body. Coverage includes braces, orthopedic shoes and shoe corrections, lumbar supports, hernia control devices, and similar items. NMAP covers prosthetic devices when medically necessary and prescribed to replace a missing body part. Orthotics and prosthetics are covered for clients residing in nursing facilities and ICF/MR's. NMAP does not cover external powered prosthetic devices.

NMAP covers only one pair of orthopedic shoes at the time of purchase. Except when size change is necessary due to growth and/or when diagnosis indicates excessive wear, NMAP allows only one pair of shoes in a one-year period. Orthopedic shoes and shoe corrections are not covered for flexible or congenital flat feet.

Prior authorization is required of payment of rental and purchase of the items listed in state regulations as requiring prior authorization.

Telehealth: Orthotics and prosthetics furnished by durable medical equipment suppliers and pharmacies are not covered when provided via telehealth technologies.

LIMITATIONS – EYE GLASSES

The Nebraska Medical Assistance Program covers eye examinations, diagnostic services, and other treatment services within program guidelines when medically necessary and appropriate to diagnose or treat a specific eye illness, symptom, complaint, or injury.

NMAP covers annual eye examinations for clients age 20 and younger. More frequent exams will also be covered if needed to determine existence of suspected conditions. Eye examinations are recommended beginning at approximately age three.

NMAP covers eye examinations for clients age 21 and older once every 24 months. More frequent eye examinations will also be covered when reasonable and appropriate.

NMAP covers eyeglass frames under the following conditions:

1. The client's first pair of prescription eyeglasses; or
2. Size change due to growth; or
3. A prescribed lens change only if new lenses cannot be accommodated by the current frame; or
4. The client's current frame is no longer usable due to irreparable wear/damage; breakage or loss. Replacement of frames is limited to one per year for clients 21 years and older.

A pair of eyeglasses is covered for adults (21 and older) when one of the above conditions is met within a 24-month period.

NMAP covers eyeglass lenses under the following conditions:

1. The client's first pair of prescription eyeglasses; or
2. Change in size due to growth; or

**Nutrition Services**

Medical Nutritional Therapy for adult clients:

Medical Nutritional Therapy (MNT) is the assessment, intervention and counseling provided by a medical nutrition practitioner when prescribed by a physician or nurse practitioner. MNT is done for the purpose of managing the nutritional needs of clients whose nutritional status affects their health and medical conditions.

This service is available to a select adult population of eligible clients with medical needs that require nutritional assessment, intervention, and continued monitoring.

Referral: Medical Nutritional Therapy is available only with a physician or nurse practitioner referral. This referral must be made based on the need for nutritional diagnosis, therapy, and counseling to manage a qualifying medical condition. Therapies will be in accordance with currently accepted dietary and nutritional protocols.

MNT services:

1. Assessment
   A nutritional assessment is done by a client's primary care provider. The diagnostic finding from the exam must indicate that a nutritional problem or condition of such severity that nutritional counseling beyond that normally expected as part of the standard medical management is warranted.

2. Intervention
   Assessment information is used to develop a plan to prevent, improve, or resolve identified nutritional problems.

3. Counseling
   a. Clients receive individual counseling to explain the nutritional assessment and the implementation of a plan of nutritional care.

LIMITATIONS – REHABILITATIVE SERVICES

Community-Based Comprehensive Psychiatric Rehabilitation and Support Services Program
The following rehabilitative psychiatric services are covered for adult clients who have been diagnosed with severe and persistent major mental illness:

1. Community Support;
2. Day Rehabilitation; and

The services must be medically necessary. These services are designed to rehabilitate individuals who are experiencing severe and persistent mental illness in the community and thereby avoid more restrictive levels of care such as psychiatric inpatient hospitalization or nursing facility.

Clients must be assessed by a Nebraska Licensed Mental Health Practitioner who can diagnose major mental illness prior to referral, prior authorization and prior to admission to these services. Based on the assessment, the Licensed Mental Health Practitioner of the program will supervise the development of a treatment, recovery and rehabilitation plan that identifies rehabilitative and mental health/substance abuse services needed by the client.

Licensed Mental Health Practitioners in the program must meet the requirements of a Nebraska Licensed Mental Health Practitioner as identified by DHHS Division of Public Health, Licensure Unit. A Licensed Mental Health Practitioner must have a master’s degree or greater with the primary coursework pertaining to therapeutic mental health; must have completed a practicum or internship with a minimum of 300 hours of direct client contact under supervision; completed 3,000 hours of supervised experience in mental health practice; passed the mental health practice examination; and have attained the age of majority.

Non-licensed staff must prove competency in the treatment of individuals with a mental health diagnosis. Non-licensed staff must meet the requirements for education and experience as defined in each service.

Providers must have acquired accreditation by a nationally recognized accrediting organization. Individual Medicaid enrolled providers, not hired by or under contract with a group, may provide services pursuant to the scope and practice of their licensure.

The State assures that rehabilitative services are not provided in institutions for mental diseases (IMD).

The State assures that the following programs meet the requirements for rehabilitative services set forth in CFR 440.130(d): Community Support, Day Rehabilitation, and Psychiatric Residential Rehabilitation.

LIMITATIONS – REHABILITATIVE SERVICES  

A secure psychiatric residential rehabilitation provider must be licensed as a mental health center by Nebraska Department of Health and Human Services, Division of Public Health and enrolled as a psychiatric rehabilitation provider with Nebraska Medicaid. The provider must have acquired accreditation from a nationally recognized accrediting organization. The maximum capacity for this facility must not exceed 16 beds. A facility considered an Institution for Mental Disease (IMD), as defined by the Centers for Medicaid and Medicare, will not be enrolled as a provider. The provider of services must develop a treatment rehabilitation and recovery program that meets the individual rehabilitation and treatment needs of the client. The services are provided in a community-based setting in an organized therapeutic environment. The provider must have acquired accreditation from a nationally recognized accrediting organization and must maintain that accreditation.  

Services consist of psychiatric assessment by a psychiatrist. Treatment planning by a multi-disciplinary treatment team supervised by the psychiatrist, rehabilitation and treatment services delivered by licensed professionals and paraprofessionals within their scope of practice, training and competency.  

Staff consist of a board certified, Nebraska enrolled psychiatrist who is a licensed physician, a program manager who is a licensed mental health therapist with administrative ability and licensed therapists to provide therapy and rehabilitation interventions. Direct care staff provide interventions consistent with the rehabilitative plan.  

Secure psychiatric residential rehabilitation services are designed to assist severely psychiatrically impaired individuals live in a more community-based setting where they can achieve a level of success in the least restrictive level of care. These services also prevent individuals with severe psychiatric illnesses from being institutionalized if they can live in a secure community based environment. The goal of this service is to prevent or decrease the frequency and duration of psychiatric hospitalization. It is intended that the service would lessen and/or eliminate symptoms and prevent reoccurrence of acute episodes and exacerbation of illness. Goals include improving client ability to develop more self-care activities, manage psychiatric symptoms through adherence to medication administration, and develop social skills to adapt to a less secure community setting.

ii. Assists the Medicaid eligible client in implementing the goals and objectives identified by the therapist and client in the treatment plan.

iii. Assists the Medicaid eligible client to build confidence and develop skills necessary to enhance and improve his/her wellness.

iv. Uses lived experience to assist the Medicaid eligible client in the development of coping skills and problem solving strategies to improve his/her self-management of a mental health and/or substance use disorder.
v. Assist the Medicaid eligible client in accessing community resources, for individuals diagnosed with mental illness and/or substance use disorder, to aid in his/her recovery.

vi. Acts as an advocate, mentor, or facilitator for resolution of issues related to the Medicaid eligible client’s mental health and/or substance use disorder.

vii. Models recovery and wellness principles that empower the Medicaid eligible client to identify and take actions steps towards his/her own goals.

(B) Settings

i. Individual setting: the Certified Peer Support Professionals will: assist clients to set up and sustain self-help groups or locate and join existing groups; share their experiences, skills, strengths, supports and resources they used in order to show that recovery is achievable; work with the clients and the treatment teams to develop a wellness and recovery plan; assist the clients in determining the steps they need to take in order to achieve the goals identified on the wellness and recovery plan and/or treatment plan; model and teach problem solving techniques; share and explore community resources related to recovery, education, employment; serve as a recovery agent by providing and advocating for any effective recovery based services that will aid the clients in daily living; assist clients in developing empowerment skills and combating stigma through self-advocacy.

ii. Group setting: the Certified Peer Support Professionals will: share their experiences, skills, strengths, supports and resources they used in order to show that recovery is achievable; model and teach problem solving techniques, share and explore community resources related to recovery, education, employment; assist clients in developing empowerment skills and combating stigma through self-advocacy.

Qualified providers: Certified Peer Support Professional

Note: The following list of treatment team members is not meant to be an all-inclusive list. Anyone involved in the Medicaid eligible client’s treatment may participate in the treatment team at the consent of the Medicaid eligible client: client, physicians, therapists, family members, and the Certified Peer Support Professionals.

LIMITATIONS – REHABILITATIVE SERVICES

ASSERTIVE COMMUNITY TREATMENT

Assertive Community Treatment is a service-delivery model for providing comprehensive community-based psychiatric treatment and rehabilitation services and is intended for individuals with psychiatric illnesses that are most severe and persistent. The service is a multidisciplinary and mobile mental health team who functions interchangeably to provide the rehabilitation and treatment services designed to enable the consumer to live successfully in the community in an independent or semi-independent arrangement. With the same team providing treatment and rehabilitation services, the complex interaction of symptoms and psychosocial functioning are addressed more efficiently and effectively across time. The content, amount, timing and kinds of service provided vary among clients and for each client across time. Team service intensity is individualized based upon continual assessment of need and adjustment to the treatment plan.

The services must be medically necessary. These services are designed to rehabilitate individuals who are experiencing severe and persistent mental illness in the community and thereby avoid more restrictive levels of care such as psychiatric inpatient hospitalization or nursing facility. Rehabilitative psychiatric services do not include treatment for a primary diagnosis of substance abuse.

Assertive Community Treatment services must be recommended by a licensed mental health professional prior to receiving these services. An assessment must be completed to receive the service(s). The licensed mental health professional will develop service need recommendations that identify rehabilitative and mental health services needed by the client. The completed service needs assessment and service recommendations will be reviewed and approved by a supervising mental health practitioner (psychiatrist or licensed psychologist).

Provider Qualifications: Providers of rehabilitative psychiatric services must be licensed/certified by the Nebraska Department of Health and Human Services as providers of community-based comprehensive psychiatric rehabilitation and support services. Providers must be under contract with the Nebraska Health and Human Service System through the Regional Governing Boards as defined in Neb. Rev. Stat. §83-158.01 to §83-169 and §71-5001 to §71-5052 to provide one or more of the covered services and must demonstrate the capacity to fulfill and abide by all contractual requirements. The provider must complete a Medicaid provider agreement and obtain a Medicaid approved provider number. Providers are required to meet all applicable licensure and certification requirements, hold a current license/certification and adhere to scope of practice definitions of licensure/certification boards.

LIMITATIONS – REHABILITATIVE SERVICES

Assertive Community Treatment teams shall provide a comprehensively staffed team including a psychiatrist, peer/family support staff (licensed mental health practitioner), program assistants, and clinical staff (mental health practitioners and registered nurses). Team members must be appropriately licensed.

Limitation on Services: Covered services are available only to Medicaid eligible recipients with a written service plan containing the recommended necessary psychiatric rehabilitation and support services. Services must be pre-authorized by the Department or its agent, and are subject to continuing stay review. Each service has an authorized level of benefit as determined by the Department or its agent. Limitations may also be imposed on days and/or hours of total benefits provided to a client during a given time period. Services are excluded to any recipient who is a resident of an IMD.

Assertive Community Treatment is designed to:

1. Provide comprehensive community based treatment and rehabilitation services through a self-contained clinical team to clients living in independent or semi-independent living situations.

2. Provide services to severely impaired clients who are resistant to more traditional interventions or unable to remain stable with the maximum use of traditional community resources including other psychiatric rehabilitative service.

3. To increase the client’s functioning so that s/he can live successfully in the community setting of his/her choice, capabilities, and resources;

4. Decrease the frequency and duration of hospitalization;

5. To lessen or eliminate debilitating symptoms and to prevent or minimize recurrent acute episodes of illness;

6. To improve social skills, self-care, symptom management, and medication adherence; and

7. Provide a frequency and duration of services that allows the client to achieve continuous stability in all functional areas. Involvement with the team is over an extended period of time to maintain consumer functional level and progress.

LIMITATIONS - REHABILITATIVE SERVICES

Assertive Community Treatment includes the following components:

1. Completion of a comprehensive assessment of client need and the development of an appropriate treatment, rehabilitation and service plan;
2. Direct and provide needed treatment and rehabilitation services in a culturally sensitive and competent manner. The mandatory treatment and rehabilitative interventions include:
   a. Treatment and Service Plan Coordination: An individualized treatment and service plan developed by the treatment team to diagnose, treat, and rehabilitate the client's medical symptoms and remedial functional impairments;
   b. Crisis Assessment and Management: Immediate medical interventions to assess and treat an acute exacerbation of medical symptoms and/or remedial functional impairments;
   c) Symptom Assessment and Management: Initial and ongoing assessment of the client's medical symptoms and remedial functional impairments. The assessment includes, but is not limited to, relevant history, previous treatment, current medical conditions and medications;
   d) Individual Contacts: Staff interventions with the client or their family to facilitate communication and client skill building necessary to support the client in the community and minimize the adverse effects of the illness. The specific focus of family contact is to facilitate the effective treatment and rehabilitation of the client;
   e) Active Treatment Interventions: Active treatment interventions include individual therapy, group therapy, family therapy and substance abuse counseling;
   f) Medication Prescription, Administration and Monitoring;
   g) Activities of Daily Living: Medical and remedial services designed to rehabilitate and develop the general skills and behaviors needed for the client to engage in substantial gainful activity and use of daily living skills. These include problem solving, individualized assistance and support and skill training;
   h) Social Interpersonal Relationship and Leisure Time Skill Training: Remedial interventions (problem solving, role playing, modeling and support, etc.) designed to minimize the adverse effects of severe mental illness (examples: isolation, poor peer selection, poor decision making, depression, substance abuse, anxiety). Interventions include activities required to help the client improve communication skills, develop assertiveness, increase self-esteem, develop social skills and meaningful personal relationships, plan appropriate and productive use of leisure time and
and productive use of leisure their use of such opportunities. All social and recreational activities are in support of the client’s treatment plan and not purely social or recreational in nature;

3. Provide services in home and community based settings with an emphasis on assertive outreach to clients. Community based settings include, but are not limited to, clinics, libraries, grocery stores, and other locations available to the general public;

4. Provide multiple service contacts per week and per day according to client need. Programs have the capacity to immediately increase service intensity to a client when status requires it. The program has shifts staffed for at least 12 hours per day on weekdays and eight hours per day on weekends and holidays;

5. Provide for active psychiatrist involvement as a member of the treatment team;

6. Provide for a licensed and/or certified interdisciplinary team including a psychiatrist, registered nurse, mental health practitioner, substance abuse specialist and peer/family specialist. Provider qualifications are ensured by compliance with requirements and standards of national accreditation and/or State certification; and

7. Conduct daily organization staff meetings to review the status of the team’s clients and the schedule of upcoming interventions.

ICF/MR Level of Care Criteria

The Department applies the following criteria to determine the appropriateness of ICF/MR services on admission and at each subsequent review:

1. The individual has a diagnosis of mental retardation or a related condition which has been confirmed by prior diagnostic evaluations/standardized tests and sources independent of the ICF/MR; and

2. The individual can benefit from "active treatment" as defined in 42 CFR 483.440(a) and 471 NAC 31-001.02. "Benefit from active treatment" means demonstrable progress in reducing barriers to less restrictive alternatives; and

3. In addition, the following criteria shall apply in situations where -

   a. The individual has a related condition and the independent QMRP assessment identifies that the related condition has resulted in substantial functional limitations in three or more of the following areas of major life activity:

   (1) self-care;
   (2) receptive and expressive language;
   (3) learning;
   (4) mobility;
   (5) self-direction; or
   (6) capacity for independent living;

   These substantial functional limitations indicate that the individual needs a combination of individually planned and coordinated special interdisciplinary care, a continuous active treatment program, treatment, and other services which are lifelong or of extended duration; and/or

b. A Medicaid-eligible individual has a dual diagnosis of mental retardation or a related condition and a mental illness (i.e., mental retardation and schizophrenia). The mental retardation or related condition has been verified as the primary diagnosis by both an independent QMRP and a mental health professional (i.e., psychologist, psychiatrist); and

(1) Historically there is evidence of missed developmental stages, due to mental retardation or a related condition;

(2) There is remission in the mental illness and/or it does not interfere with intellectual functioning and participation in training programs, i.e., the individual does not have active hallucinations nor exhibit behaviors which are manifestations of mental illness; and

(3) The diagnosis of mental retardation or related condition takes precedence over the diagnosis of mental illness.

Inappropriate Level of Care: The following examples are not appropriate for ICF/MR services:

1. Mental illness is the primary barrier to independent living within a normalized environment; or

2. The ICF/MR level of care is not the least restrictive alternative, e.g., the client –

   a. Exhibits skills and needs comparable to those of persons with similar needs living independently or semi-independently in the community;

   b. Exhibits skills and needs comparable to those of persons at NF level of care; or

   c. Is able to function with little supervision or in the absence of a continuous active treatment program.

LIMITATIONS – NURSE-MIDWIFE SERVICES

To participate in the Nebraska Medical Assistance Program, the nurse-midwife must be certified by the Department of Health and Human Services Regulation and Licensure. The practice agreement between nurse-midwife and the physician with whom s/he has a practice agreement must be on file with the Department of Health and Human Services Regulation and Licensure. The nurse-midwife is approved for enrollment in NMAP under an independent provider agreement or the provider agreement of the physician with whom s/he has a practice agreement.

NMAP covers nurse-midwife services that are medically necessary and are concerned with the management of the care of mothers and newborns throughout the maternity cycle. The maternity cycle includes pregnancy, labor, birth, and the immediate postpartum period (up to six weeks), including care of the newborn. To be covered, the services must be provided by a certified nurse-midwife according the terms of the practice agreement between the nurse-midwife and the physician.

NMAP does not cover any other services provided by nurse-midwives.

Hospice Care

The Nebraska Medical Assistance Program will provide reimbursement for hospice care for Medicaid clients that are terminally ill. Terminally ill means that the client is diagnosed with a medical prognosis that his/her life expectancy is six months or less if the illness runs its normal course.

Hospice services are provided in accordance with the guidance specified in sections 4305-4308 of the State Medicaid Manual.

Election Statement

An election statement must be filed with a specific hospice for the client who meets the requirements. An election to receive hospice care will be considered to continue through the initial certification period and the subsequent election periods without a break in care as long as the client remains in the care of the hospice and does not revoke the election.

Dually eligible (Medicare and Medicaid) clients must elect and revoke hospice care simultaneously under both the Medicare and the Medicaid program.

Election Period

A client may elect to receive hospice care during one or more of following election periods;

1. an initial 90-day period;
2. a subsequent 90-day period;
3. an initial 60-day period;
4. a subsequent 60-day period;
5. a third 60-day period.

Additional 60-day benefit periods must be approved as an exception under the Prior Authorization provision.

Certification of Terminal Illness

The client must be certified as terminally ill with a six-month life expectancy by the Hospice medical director and the attending physician at the beginning of the first benefit period and by the Hospice medical director for all subsequent benefit periods. The hospice provider must obtain written certification of the terminal illness for each certification period even when a single election continues in effect for two or more periods.

Plan of Care

A written plan of care must be established and maintained for each client admitted to a hospice program. The care provided to a client must be consistent with the plan and be reasonable and necessary for the palliation or management of the terminal illness as well as related conditions. The plan of care must be established before services are provided.

Waiver of Payment for Other Services

A client waives all rights to Medicaid payments for the duration of the election of hospice care for the following services:

Hospice care provided by a hospice other than the hospice designated by the client; and

For adult clients, any Medicaid services that are related to the treatment of the terminal condition for which hospice care elected or a related condition or that are equivalent to hospice care except for services provided:

by the designated hospice; or

the client's attending physician if that physician is not an employee of the designated hospice or receiving compensation from the hospice for those services.

LIMITATIONS – TRANSPORTATION

AMBULATORY ROOM AND BOARD

NMAP covers ambulatory room and board services as a travel-related expense under 42 CFR 440.170(a)(3)(ii) and (iii). Ambulatory room and board is defined as meals and lodging determined to be necessary by Medicaid Division staff to secure NMAP-coverable services for a Medicaid client.

This may include meals and lodging for an attendant.

NMAP covers ambulatory room and board services only when:

1. The client is receiving NMAP-coverable services;
2. Travel time or distance to the medical provider and receipt of medical services are expected to require the client to be away from his/her home for 12 hours or longer;
3. An out-of-town overnight stay is necessary while receiving NMAP-coverable services; and
4. Ambulatory room and board is a cost effective level of care that provides an alternative to inpatient admission or extended outpatient care.

Ambulatory room and board services may be covered for up to one day before or after receiving NMAP-coverable services, if extensive travel is necessary to receive NMAP-coverable services. Ambulatory room and board for an attendant to accompany the client may be covered when the client is physically or mentally unable to travel or wait alone while receiving NMAP-coverable services.

To be eligible to receive NMAP payment for ambulatory room and board services, each hospital providing those services must be approved by the Medicaid Division as a provider of ambulatory room and board services before providing these services to NMAP clients and/or attendants.

SECTION 3 – SERVICES: GENERAL PROVISIONS

3.1 Amount, Duration, and Scope of Services

Medicaid is provided in accordance with the requirements of sections 1902(a), 1902(e), 1903(i), 1905(a), 1905(p), 1905(r), 1905(s), 1906, 1915, 1916, 1920, 1925, 1929, and 1933 of the Act; section 245A(h) of the Immigration and Nationality Act; and 42 CFR Parts 431, 440, 441, 442, and 483.

A. Categorically Needy

28. Any other medical care, and any other type of remedial care recognized under State law, specified by the Secretary (in accordance with section 1905(a)(28) of the Social Security Act and 42 CFR 440.170).

   a. Transportation (provided in accordance with 42 CFR 440.170 as an optional medical service) excluding “school-based” transportation.

   ☐ Not Provided:

   ☐ Provided without a broker as an optional medical service: (If state attests “Provided without a broker as an optional medical service” then insert supplemental information.)

       Describe below how the transportation program operates including types of transportation and transportation related services provided and any limitations. Describe emergency and non-emergency transportation services separately. Include any interagency or cooperative agreements with other Agencies or programs.

   ☑ Non-emergency transportation is provided through a brokerage program as an optional medical service in accordance with 1902(a)(70) of the Social Security Act and 42 CFR 440.170(a)(4). (If state attests that non-emergency transportation is being provided through a brokerage program then insert information about the brokerage program.)

   ☑ The State assures it has established a non-emergency medical transportation program in accordance with 1902(a)(70) of the Social Security Act in order to more cost-effectively provide transportation, and can document, upon request from CMS, that the transportation broker was procured in compliance with the requirements of 45 CFR 92.36 (b)-(i).
State/Territory: Nebraska

1. The State will operate the broker program without the requirements of the following paragraphs of section 1902(a):

☐ (1) state-wideness (indicate areas of State that are covered)
☐ (10)(B) comparability (indicate participating beneficiary groups)
☒ (23) freedom of choice (indicate mandatory population groups)

2. Transportation services provided will include:
☒ wheelchair van
☒ taxi/commercial carrier
☒ stretcher car
☒ bus passes

☒ tickets
☐ secured transportation
☐ other transportation (if checked describe below other transportation)
  • Individual volunteer

☒ (3) The State assures that transportation services will be provided under a contract with a broker who:
  (i) is selected through a competitive bidding process based on the State’s evaluation of the broker’s experience, performance, references, resources, qualifications, and costs:
  (ii) has oversight procedures to monitor beneficiary access and complaints and ensures that transportation is timely and transport personnel are licensed qualified, competent and courteous:
  (iii) is subject to regular auditing and oversight by the State in order to ensure the quality and timeliness of the transportation services provided and the adequacy of beneficiary access to medical care and services:
  (iv) complies with such requirements related to prohibitions on referrals and conflict of interest as the Secretary shall establish (based on prohibitions on physician referrals under Section 1877 and such other prohibitions and requirements as the Secretary determines to be appropriate.)
State/Territory: Nebraska

(4) The broker contract will provide transportation to the following categorically needy mandatory populations:

- Low-income families with children (section 1931)
- Deemed AFCD-related eligibles
- Poverty-level related pregnant women
- Poverty-level infants
- Poverty-level children 1 through 5
- Poverty-level children 6 – 18
- Qualified pregnant women AFDC – related
- Qualified children AFDC – related
- IV-E foster care and adoption assistance children
- TMA recipients (due to employment) (section 1925)
- TMA recipients (due to child support)
- SSI recipients

(5) The broker contract will provide transportation to the following categorically needy optional populations:

- Optional poverty-level related pregnant women
- Optional poverty-level related infants
- Optional targeted low income children
- Non IV-E children who are under State adoption assistance agreements
- Non IV-E independent foster care adolescents who were in foster care on their 18th birthday
- Individuals who meet income and resource requirements of AFDC or SSI
- Individuals who would meet the income & resource requirements of AFDC if child care costs were paid from earnings rather than by a State agency

- Individuals who would be eligible for AFDC if State plan had been as broad as allowed under Federal law
- Children aged 15-20 who meet AFDC income and resource requirements
- Individuals who would be eligible for AFDC or SSI if they were not in a medical institution
- Individuals infected with TB

- Individuals aged or disabled with income not above 100% FPL
- Individuals receiving only an optional State supplement in a 209(b) State
- Individuals working disabled who buy into Medicaid (BBA working disabled group)
- Employed medically improved individuals who buy into Medicaid under TWWIIA Medical Improvement Group
- Individuals disabled age 18 or younger who would require an institutional level of care (TEFRA 134 kids).

(6) Payment Methodology
(A) The State will pay the contracted broker by the following method:
   (i) risk capitation
   (ii) non-risk capitation
   (iii) other (e.g., brokerage fee and direct payment to providers) (If checked describe any other payment methodology)

The State shall pay the contracted broker a uniform fee-for-service administration rate per completed trip for all trips. A Completed Trip is defined as a transportation service scheduled, arranged and prior authorized for payment by the broker. The administrative fee rate to the broker is established for each contract year in the contract.

For dates of service on or after May 1, 2011, Medicaid pays for non-emergency medical transportation services at the lower of:
1. The provider’s submitted charge; or
2. The allowable amount for that procedure code in the Nebraska Medicaid Practitioner Fee Schedule in effect for that date of service.
   The allowable amount is indicated in the fee schedule as:
   a. The unit value multiplied by the conversion factor;
   b. The invoice cost (indicated as "IC" in the fee schedule);
   c. The maximum allowable dollar amount; or
   d. The reasonable charge for the procedure as determined by the Medicaid Division (indicated as "BR" - by report or "RNE" - rate not established - in the fee schedule).

Except as otherwise noted in the plan, payment for these services is based on state-developed fee schedule rates, which are the same for both governmental and private providers of non-emergency
transportation services. The agency’s rates were set as of May 1, 2011, and are effective for services rendered on or after that date. The fee schedule is subject to annual/periodic adjustment. All rates, including current and prior rates, are published and maintained on the agency’s website. Specifically, the fee schedule and any annual/periodic adjustments to the fee schedule are published at [http://dhhs.ne.gov/medicaid/Pages/med_practitioner_fee_schedule.aspx](http://dhhs.ne.gov/medicaid/Pages/med_practitioner_fee_schedule.aspx).

(B) Who will pay the transportation provider?

- (i) Broker
- (ii) State
- (iii) other

The broker will pre-purchase fixed route public transportation and commercial air tickets on behalf of the beneficiary when determined to be necessary and will not bill the state until the pre-purchased ticket/pass is actually dispersed or used by the beneficiary. Public transit passes shall be administered pursuant to the CMS letter to State Medical Directors, issued December 2, 1996. The Medicaid beneficiary is not reimbursed mileage for use of their personal vehicle by the broker, nor the state.

(C) What is the source of the non-Federal share of the transportation payments? Describe the source of the non-Federal share of the transportation payments proposed under the State plan amendment. If more than one source exists to fund the non-Federal share of the transportation payment, please separately identify each source of non-Federal share funding.

State General Funds

(D) The State assures that no agreement (contractual or otherwise) exists between the State or any form of local government and the transportation broker to return or redirect any of the Medicaid payment to the State or form of local government (directly or indirectly). This assurance is not intended to interfere with the ability of a transportation broker to contract for transportation services at a lesser rate and credit any savings to the program.
(E) The State assures that payments proposed under this State plan amendment will be made directly to transportation providers and that the transportation provider payments are fully retained by the transportation providers and no agreement (contractual or otherwise) exists between the State or local government and the transportation provider to return or redirect any of the Medicaid payment to the State or form of local government (directly or indirectly).

(7) The broker is a non-governmental entity:

☐ The broker is itself a provider of transportation or subcontracts with or refers to an entity with which it has a prohibited financial relationship as described at 45 CFR 440.170(4)(ii).

☐ The broker is itself a provider of transportation or subcontracts with or refers to an entity with which it has a prohibited financial relationship and:

☐ transportation is provided in a rural area as defined at 412.62(f) and there is no other available Medicaid participating provider or other provider determined by the State to be qualified except the non-governmental broker.

☐ transportation is so specialized that there is no other available Medicaid participating provider or other provider determined by the State to be qualified except the non-governmental broker.

☐ the availability of other non-governmental Medicaid participating providers or other providers determined by the State to be qualified is insufficient to meet the need for transportation.

(8) The broker is a governmental entity

☐ The broker provides transportation itself or refers to or subcontracts with another governmental entity for transportation. The governmental broker will:

☐ Maintain an accounting system such that all funds allocated to the Medicaid brokerage program and all costs charged to the Medicaid brokerage will be completely separate from any other program.

☐ Document that with respect to each individual beneficiary’s specific transportation needs, the government provider is the most appropriate and lowest cost alternative.

☐ Document that the Medicaid program is paying no more for fixed route public transportation than the rate charged to the general public and no more for public para-transit services than the rate charged to other State human services agencies for the same service.
Please describe below how the NEMT brokerage program operates. Include the services that will be provided by the broker. If applicable, describe any services that will not be provided by the broker and name the entity that will provide these services.

The broker shall be responsible for and perform all administrative brokerage functions to include: establish and monitor Medicaid program compliance of a transportation network; receive NET service requests through a customer service call center during the hours of 8:00 a.m. - 7:00 p.m. CST, Monday through Friday, and on-call representative for urgent care trips; verify client Medicaid eligibility, and their requested medical service provider is an active Medicaid provider through a daily batch interface to the broker’s system; screen client need for service and mobility status for the most appropriate mode of transportation; approve and arrange the least expensive transport to the closest appropriate Medicaid provider; submit claims for completed services in MMIS for direct provider payment from the State. The broker provides oversight to assure services through:

a. Client Surveys;

b. The broker shall determine that the client is requesting NET medical services to a qualified, enrolled, medical service provider who is willing to accept the client, within the travel standards established by the State. The state may require pre-transportation validation checks of trips to specific program services, such as non-routine out-of-state medical care and physical therapy; and

c. Random post payment validation checks a minimum ten (10%) percent of the NET service referrals, in a month for each contract year. The broker shall ensure that all NET provider supporting documentation is maintained and matches the prior-authorization, and that the trips occurred in accordance to Nebraska Medicaid regulations.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State Nebraska

LIMITATIONS – CRITICAL ACCESS HOSPITALS

Critical access hospital services as defined in 42 CFR 440.170(g) are a covered service by Nebraska Medicaid.
STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State Nebraska

LIMITATIONS – PERSONAL ASSISTANCE SERVICES

NMAP covers personal assistance services, which are a defined range of human assistance that enable persons with disabilities and chronic conditions of all ages to accomplish tasks that they would normally do for themselves if they did not have a disability; chosen and directed by the individual or designee.

NMAP generally limits personal assistance services to 40 hours per client per seven-day period, subject to utilization review. Medicaid Division approval must be obtained for services authorized in excess of 40 hours per week.

Personal assistance services may not be provided at a client’s worksite except when the client is engaged in competitive integrated employment. Personal assistance services may only be provided at a client’s worksite to the extent the authorized task might otherwise be needed in the home and community.

Personal assistance service may not be provided to individuals residing in residential facilities where personal assistance services are required under the licensing requirements.

Telehealth:

Personal assistance services are not covered when provided via telehealth technologies.
STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State Nebraska

PROVIDER QUALIFICATIONS – PERSONAL ASSISTANCE SERVICES

NMAP reimburses personal assistance services providers who meet requirements that include being age 19 or older; being capable of recognizing signs of distress in client and knowing how to access available emergency resources if a crisis situation occurs; keeping current any state or local license/certification required for service provision; understanding and accepting responsibility for the client’s safety and property; and having the knowledge, experience, and/or skills necessary to perform the task(s). To be considered and reimbursed by NMAP as a “specialized” personal assistance services provider, the applicant must provide proof that s/he has successfully completed a basic aide training course that has been approved by the Nebraska Department of Health and Human Services; has passed the Nurse Aide Equivalency test; is a licensed R.N. or L.P.N.; or has a total of 4,160 hours of experience (24 months at an average of 40 hours per week) as a personal assistance service provider.

Personal Assistance Services will be provided in accordance with, and meet the requirements of 42 CFR 440.167.
STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State Nebraska

LIMITATIONS – FREESTANDING BIRTH CENTER SERVICES

The facility fee is based on a review of Medicaid fees paid by other states. Under this State Plan, birthing centers are limited to those licensed by the State of Nebraska or other legally authorized licensing authority under applicable state laws, to provide a level of service commensurate with the professional skills of a physician (MD or DO) or a certified nurse-midwife (CNM) who acts as birth attendant. The center, the physician, and CNM must be licensed at the time and place the services are provided. The birthing center must be enrolled and approved by the state agency or its designee for participation in the Nebraska Medical Assistance Program. The center must have a written agreement for emergency care with a hospital that provides obstetrical services. Admission to the facility must be restricted to low-risk vaginal delivery patients. Caesarean section procedures are prohibited. Each mother and newborn must be discharged within 24 hours after admission, in a condition which will not endanger the well-being of either. If the condition of mother or newborn does not allow discharge within 24 hours, then transfer to a hospital must occur.

Coverage of birthing center facility services is limited to certain birthing services provided by the center and determined by the attending physician or CNM to be necessary for the care of the mother and live newborn child following the mother’s normal, uncomplicated pregnancy. Reimbursable services are limited to facility services provided during the labor, delivery and postpartum periods. Birthing center facility services furnished prior to or after the above described period are not considered birthing center facility services and are not covered or reimbursed as such under this state plan. Services provided by a physician or CNM are not considered to be birthing center facility services.

I. Eligibility

The State determines eligibility for PACE enrollees under rules applying to community groups.

A. The State determines eligibility for PACE enrollees under rules applying to institutional groups as provided for in section 1902(a)(10)(A)(ii)(VI) of the Act (42 CFR 435.217 in regulations). The State has elected to cover under its State plan the eligibility groups specified under these provisions in the statute and regulations. The applicable groups are:

- 1902(a)(10)(A)(ii)(Xl) of the Act
- 1902(a)(10)(A)(ii)(X) and 1902(m)(1) and (3) of the Act
- 42 CFR 435.310
- 42 CFR 435.320
- 42 CFR 435.322
- 42 CFR 435.324

The State will use the actual maximum monthly allowable Special Needs Nursing Facility rate to reduce an individual’s income to an amount at or below the medically needy income limit (MNIL) for persons who are medically needy with a Share of Cost.

B. The State determines eligibility for PACE enrollees under rules applying to institutional groups, but chooses not to apply post-eligibility treatment of income rules to those individuals. (If this option is selected, skip to II - Compliance and State Monitoring of the PACE Program.

C. The State determines eligibility for PACE enrollees under rules applying to institutional groups, and applies post-eligibility treatment of income rules to those individuals as specified below. Note that the post-eligibility treatment of income rules specified below are the same as those that apply to the State’s approved HCBS waiver(s).

D. Spousal impoverishment eligibility rules are being applied.

(b) Medical and remedial care expenses specified in 42 CFR 435.735.

Spousal Post Eligibility

3. X State uses the post-eligibility rules of Section 1924 of the Act (spousal impoverishment protection) to determine the individual's contribution toward the cost of PACE services if it determines the individual's eligibility under section 1924 of the Act. There shall be deducted from the individual's monthly income a personal needs allowance (as specified below), and a community spouse's allowance, a family allowance, and an amount for incurred expenses for medical or remedial care, as specified in the State Medicaid plan.

(a.) Allowances for the needs of the:
1. Individual (check one)
   (A) __ The following standard included under the State plan (check one):
      1. __ SSI
      2. __ Medically Needy
      3. __ The special income level for the institutionalized
      4. __ Percent of the Federal Poverty Level: ______
      5. __ Other (specify):________________________
(B). __ The following dollar amount: $________
Note: If this amount changes, this item will be revised.

(C). _X_ The following formula is used to determine the needs allowance:
(1) For waiver clients receiving Assisted Living Services: The State protects the SSI standard.
(2) For clients receiving waiver services in other eligible living arrangements: The State protects the medically needy income standard.

If this amount is different than the amount used for the individual’s maintenance allowance under 42 CFR 435.726 or 42 CFR 435.735, explain why you believe that this amount is reasonable to meet the individual’s maintenance needs in the community:

II. Rates and Payments
A. The State assures that the capitated rates will be equal to or less than the cost to the agency of providing those same fee-for-service State plan approved services on a fee-for-service basis, to an equivalent non-enrolled population group based upon the following methodology. Please attach a description of the negotiated rate setting methodology and how the State will ensure that rates are less than the cost in fee-for-service.

1. ___ Rates are set at a percent of fee-for-service costs
2. ___ Experience-based (contractors/State’s cost experience or encounter date)(please describe)
3. ___ Adjusted Community Rate (please describe)
4. _X_ Other (please describe) Rates are set at a percent of Upper Payment Limits.

The State contracts with an actuarial company to develop PACE Upper Payment Limits (UPLs). The UPLs are developed based on historical Nebraska Medicaid fee-for-service (FFS) costs for individuals aged 55 and over who were either nursing home residents or eligible for HCBS waiver services based on meeting nursing facility level of care criteria. Projection factors are applied to the UPLs to reflect utilization changes, historical and prospective Medicaid program changes, and provider rate changes. The UPLs are then summarized into rate cells by eligibility category and defined geographic area. The State ensures that rates paid to PACE provider organizations are less than the cost in FFS by negotiating a rate for each that are less than the UPL.
B. The State Medicaid Agency assures that the rates were set in a reasonable and predictable manner. Please list the name, organizational affiliation of any actuary used, and attestation/description for the capitation rates.

The State contracted with Schramm Health Partners, LLC d/b/a Optumas, to develop its UPLs for state fiscal year 2015. The UPLs were developed by, Tim Doyle, FSA, MAAA, Principal and Consulting Actuary. The UPLs are an estimate of what costs would have been to Nebraska Medicaid for PACE participants if they had not enrolled in PACE. Within each eligibility category (dually Medicaid and Medicare eligible, Medicaid only, dually Medicaid and Medicare (Part B only) eligible and Qualified Medicare Beneficiary (QMB)), Optumas developed separate UPLs for nursing home residents and HCBS waiver participants who meet nursing facility level of care criteria (aka PACE eligibles) by geographic area. Optumas then weighted these UPLs by the estimated distribution of individuals in each service category (based on the distribution of 2012 eligible months) to calculate the overall UPLs. The FFS data was not credible for the Part B and QMB populations, thus the UPL for these rate cells are derived using components of the Dual and Medicaid Only cohort UPLs.

Data Reliability and Important Caveats

In developing the UPLs, Optumas relied on data and other information provided by the State. Since the source of the data was the State’s Medicaid Management Information System (MMIS), the State takes responsibility for the accuracy and validity of the base data. The following data and information was used:

- Medicaid claims and eligibility data for individuals ages 55 and older, including a description of each data field and its potential use in classifying individuals into eligibility groupings of service use and Medicare eligibility;
- Summary of Medicaid fee and program changes in SFY 2012 and later; and
- Quarterly CMS-64 Medicaid Administrative Cost reports for FFY 2013

TN No. NE-11-32
4. a. Nursing facility services (other than services in an institution for mental diseases) for individuals 21 years of age or older, (Continued)

Specialized add-on services are available to certain individuals residing in a Medicaid-certified nursing facility. Specialized add-on services are paid as add-on services to the provider of the specialized add-on service in accordance with Attachment 4.19-D, page 33. Services will not be paid as specialized add-on services if the services are included in the nursing facility’s per diem rate or covered under other sections of the State Plan.

Specialized add-on services are services which result in a continuous, aggressive individualized plan of care and recommended and monitored by the individual’s interdisciplinary team (IDT). Specialized add-on services include habilitative services and are not provided by the nursing facility. Habilitative services are medically necessary services intended to assist the individual in obtaining, maintaining, or improving developmental-age appropriate skills not fully acquired as a result of congenital, genetic, or early acquired health condition.

Specialized add-on services are provided only when prior authorized, recommended by the individual’s IDT and are included in the individual’s plan of care. The IDT includes but is not limited to the attending physician, a RN and nurse aide with responsibility for the individual, a member of the food and nutrition services staff, to the extent possible the individual and the individual’s representative(s), and other appropriate staff or professionals in disciplines as determined by the individual’s needs or as requested by the individual.

Specialized add-on services must meet professional standards of quality and be provided by qualified persons in accordance with each individual’s written plan of care.

Specialized add-on services, limitations, and the providers who may furnish the services are as follows:

I. Habilitative Skills
   A. Habilitative Skills supports individuals to acquire new skills and/or increase skills in the areas of hygiene, self-advocacy, activities of daily living and communication. Habilitative skills can occur on-site (at the nursing facility) but may be expanded to also occur in the community such as grocery stores, financial institutions, movie theatres, recreational centers/events, and social activities so the individual learns these skills in a variety of settings. Services are expected to include both formal training (goal oriented and measureable) and opportunities to practice the skills in various settings.
AMOUNT, DURATION AND SCOPE OF SERVICES PROVIDED  
MEDICALLY NEEDY GROUP(S): All Groups

4. a. Nursing facility services (other than services in an institution for mental diseases) for individuals 21 years of age or older, (Continued)

Habilitative Skills services consist of:

1. Identification of skill needs requiring training with regard to individual rights and due process, advocating for their own needs, desires, future life goals and participation in the development of their plan of care, communication skills, personal hygiene skills, dressing skills, laundry skills, bathing skills, and toileting skills;
2. Development and implementation of formal training goals related to identified skill needs; and
3. Monitor and revise goals according to the individual's response to training.

This service is provided with a staff to individual ratio of 1:1.

This service is provided to individuals in order to meet the goals and outcome measurements as outlined in the individual’s plan of care per 42 CFR §483.120 and 42 CFR §483.21.

B. Limitations

1. Transportation is not included in the reimbursement rates. Transportation services can be billed separately for off-site habilitative skills only and is limited to travel to and from the habilitative service. The individual must be present in the vehicle.
2. This service can be authorized in combination with but cannot be provided during the same time period as Habilitative Community Inclusion.
3. This service shall exclude any services available through public education programs funded under the Individuals with Disabilities Education Act (IDEA). This includes services not otherwise available through public education programs in the individual's local school district, including after school supervision and daytime services when school is not in session (i.e., summer breaks and/or scheduled school holidays, in-service days, etc.). Services cannot be provided during the school hours set by the local school district for the individual. Regular school hours and days apply for a child who receives home schooling.

1. Be legally authorized to work in the United States;
2. Not be a family member or legal guardian of the individual;
3. Not be an employee of the Nebraska Department of Health and Human Services (DHHS);
4. Be at least 19 years of age;
5. Meet the following educational and/or work experience requirements:
   a. Have a bachelor’s or advanced degree from an accredited college or university in one of the following areas: social, behavioral, or human services, such as psychology, sociology, social work, medicine, nursing, rehabilitation, counseling, human development, gerontology, educational psychology, education, or criminal justice; and
   b. At least one year of direct care experience with intellectually disabled individuals; OR
   c. In lieu of a bachelor’s/advanced degree, a minimum of three years direct care experience with intellectually disabled individuals;
6. Willing and qualified habilitation providers who are enrolled in Medicaid may provide this service.

II. Employment Assistance
A. Employment Assistance supports the individual through habilitative training to obtain gainful employment in their community. The goal is to provide the skills, tools, and supports to enable the individual to seek and obtain employment.

Employment Assistance services consist of:

1. Identification of the individual’s job preferences and skill needs;
2. Identification of available employment opportunities in their community;
3. Development and implementation of formal training goals related to the individual’s employment needs including application for employment, job readiness and preparation skills and appropriate work behavior;
4. Monitor and revise goals according to the individual’s response to training.

   c. In lieu of a bachelor’s/advanced degree, a minimum of three years direct care experience with intellectually disabled individuals;

6. Willing and qualified habilitation providers who are enrolled in Medicaid may provide this service.

III. Employment Support
A. Employment Support supports the individual through habilitative training to maintain integrated and gainful employment after the individual has secured employment. The goal is to provide the skills, tools, and supports necessary for the individual to maintain employment.

Employment Support services consist of:

1. Teaching appropriate work behavior related to punctuality, attendance and co-worker relationships;
2. Providing training and support for the individual to develop time management skills;
3. Providing training and monitoring in order for the individual to learn the job tasks necessary to maintain employment;
4. Providing social skills training in relation to the work environment; and
5. Monitoring and revising goals according to the individual’s response to training.

This service is provided with a staff to individual ratio of up to 1:4 and must be provided in the community.

IV. Habilitative Community Inclusion

A. Habilitative Community Inclusion supports individuals to increase independence and inclusion in their community. Habilitative Community Inclusion must occur in the community in a nonresidential setting, separate from the individual's residential living arrangement. Making connections with community members is a strong component of this service provision. Habilitative Community Inclusion must be furnished consistent with the individual's care plan and include options and opportunities for community integration, relationship-building, and an increased presence in one's community.

Habilitative Community Inclusion consists of:

1. Identification of needed skills with regard to access and use of community supports, services and activities;

2. Development and implementation of formal training goals related to:
   a. Community transportation and emergency systems (such as police and fire);
   b. Accessing and participation in community groups, volunteer organizations, and social settings; and
   c. Opportunities to pursue social and cultural interests and building and maintaining interpersonal relationships; and

3. Monitor and revise goals according to the individual's response to training.

Telehealth means the use of medical information electronically exchanged from one site to another, whether synchronously or asynchronously, to aid a health care practitioner in the diagnosis or treatment of a patient. Telehealth includes services originating from a patient’s home or any other location where such patient is located. Asynchronous services involving the acquisition and storage of medical information at one site that is then forwarded to and retrieved by a health care practitioner at another site for medical evaluation and telemonitoring.

Telehealth consultation means any contact between a patient and a health care practitioner relating to the health care diagnosis or treatment of such patient through telehealth, but does not include a telephone conversation, electronic mail message, or facsimile transmission between a health care practitioner and a patient or a consultation between two health care practitioners.

Telemonitoring means the remote monitoring of a patient’s vital signs, biometric data, or subjective data by a monitoring device which transmits such data electronically to a health care practitioner for analysis and storage.

Health care practitioners must:

1. act within their scope of practice;
2. be enrolled with Nebraska Medicaid; and
3. be appropriately licensed, certified, or registered by Nebraska HHS Regulation and Licensure for the service for which they bill Medicaid.
A telehealth service is not covered when the service delivered via telecommunication technology is deemed to be investigational or experimental.

Transmission costs are not covered when the telehealth service provided by the health care practitioner is not a covered state plan service.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State Nebraska

STANDARDS AND METHODS OF ASSURING HIGH QUALITY CARE

The following is a description of the standards established and the methods that will be used to assure that the medical and remedial care and services are of high quality.

1. Medical care and services are provided in accordance with the overall objectives of maintaining good health, preventing disease and disability, curing and mitigating disease, and rehabilitating the individual.

2. Plans for medical care are integrated with social planning.

3. Medical care and service must be provided within the licensure of the provider.

4. Insofar as possible, medical care and services must permit the recipient to exercise free choice in the selection of his/her provider.

5. The amount and kind of medical care and service is determined by the professional opinion of the practitioner.

6. Care for intraocular or chronic eye disease must be provided by a physician, M.D.

7. Medical care and services not provided by a licensed professional person must be recommended or prescribed by a licensed professional person.

8. Care in Homes for the Aged or Infirm or hospitals must be provided in a facility licensed to provide the required care.

9. The State Agency will establish processes of utilization review for each item of care and service included in the medical assistance program. The Division of Medical Services will be responsible for all utilization review plans and activities in the program.

10. Costs of other medical care and service is provided within reasonable maximums set by the Central Office related to the type of care.

11. NDSS provides a regular program of medical review (including medical evaluation of each patient's need for skilled nursing facility care and periodic review and reevaluation of recipients in intermediate care facilities as to the need for their placement) and in the case of individuals in mental hospitals, the need for care in a mental hospital, including, where applicable, evaluation of a written plan of care and a plan of rehabilitation prior to admissions. Periodic inspections will be made in all skilled nursing homes and mental institutions within the state by one or medical review teams (composed of physicians and other appropriate health and social service personnel) and in all intermediate care facilities (by review teams composed of R. N.'s and other appropriate health or social service personnel) of the care being provided in those nursing homes.

and mental institutions, to persons receiving assistance under the State Plan with respect to each of the patients receiving that care. The review will determine the adequacy of the services available in particular nursing homes or institutions to meet the current health needs and promote the maximum physical well-being of patients receiving care in the homes or institutions; the necessity and desirability of the continued placement of such patients in such nursing homes or institutions; and the feasibility of meeting their health care needs through alternate institutional or noninstitutional services. Further, the team or teams will make full and complete reports of the findings resulting from the inspections together with any recommendations to the State Agency administering or supervising the administration of the State Plan.

12. Public or private skilled nursing facilities are licensed by the Nebraska Department of Health and in addition, meet the requirements for skilled nursing facilities as specified in 42 CFR 405, Subpart K.

13. Public or private intermediate care facilities are licensed by the Nebraska Department of Health and in addition meet the requirements for intermediate care facilities as specified in 42 CFR 442, Subparts E, F, G.
ASSURANCE OF TRANSPORTATION

NMAP enrolls individual and agency providers to provide appropriate medical transportation to Medicaid-eligible clients.

Individual Transportation Providers, defined as a friend, non-legally responsible family member, or volunteer, are enrolled as Medicaid providers and receive direct vendor payment from the state.

NMAP covers medically necessary ambulance services that are provided during an emergency or while the client is receiving emergency medical care (see Item 23a of Attachment 3.1-A).

Transportation is provided state wide through a contracted broker. A description of the brokered services can be found on Attachment 3.1-A.

In accordance with 42 CFR 440.170(a)(3)(iii) transportation includes expenses for the cost of an attendant to accompany the recipient, if medically necessary, and the cost of the attendant’s transportation, meals and lodging, and, if the attendant is not a member of the recipient’s family, a paid personal care assistant or facility staff, a salary.

Medically necessary escort services are covered by Nebraska DHHS, Division of Medicaid and Long-Term Care and authorized by Central Office staff, unless appropriately covered in another service when the client is participating in the Personal Assistance Service program or the Aged and Disabled Waiver program.

STANDARDS FOR THE COVERAGE OF ORGAN TRANSPLANT SERVICES

The Nebraska Medical Assistance Program covers transplants that are medically necessary and defined as non-experimental by Medicare. For transplants that may be covered by Medicare, NMAP uses Medicare standards as listed in the Medicare Coverage Issues Manual to determine coverage. If no Medicare policy exists for a specific type of transplant, the Medical Director of the Medical Services Division shall determine whether the transplant is medically necessary or non-experimental.

Notwithstanding any Medicare policy on liver or heart transplants, NMAP covers liver or heart transplants using the following standards:

1. Facility Standards: The facility must have a valid provider agreement to participate in the Nebraska Medical Assistance Program. The facility must have certificate of need approval if required by the State in which the facility is located.

2. Patient Selection Criteria: Before providing transplant services to be covered by NMAP, the facility is required to submit its patient selection criteria, including medical-physical indications and contra-indications and psycho-social criteria, to the Medical Services Division for review.

3. Before the service is approved for payment, Medical Services staff review documentation submitted by the patient's physicians to verify that the transplant candidate meets the facility's previously submitted patient selection criteria. The documentation, submitted by two physicians that specialize in transplantation, must include the following:

   a. The screening criteria used in determining that this patient is an appropriate candidate for a liver or heart transplant;
   b. The results of that screening for this patient describing how the patient meets the facility criteria (i.e., the patient is eligible to be placed on the "waiting list" in which the only remaining criteria is organ availability); and
   c. A statement by each physician -
      (1) Recommending the transplant; and
      (2) Certifying and explaining why a transplant is medically necessary as the only clinical, practical, and viable alternative to prolong the client's life in a meaningful, qualitative way and at a reasonable level of functioning.
Attachment 3.1-F was removed from the State Plan per SPA NE 16-0014. This attachment had previously provided federal authority for the state to operate their managed care programs through the Medicaid state Plan.

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State/Territory: Nebraska

COORDINATION OF TITLE XIX WITH PART B OF TITLE XVIII

The following method is used to provide the entire range of benefits under Part B of title XVIII to the groups of Medicare-eligible individuals indicated.

A. Buy-in agreements with the Secretary of HHS. This agreement covers:

1. Individuals receiving SSI under title XVI or State supplementation, who are categorically needy under the State’s approved title XIX plan.

   Persons receiving benefits under title II of the Act or under the Railroad Retirement System are included:
   - Yes
   - No

2. Individuals receiving SSI under title XVI, State supplementation, or a money payment under the State’s approved title IV-A plan, who are categorically needy under the State’s approved title XIX plan.

   Persons receiving benefits under title II of the Act or under the Railroad Retirement System are included:
   - Yes
   - No

3. All individuals eligible under the State’s approved title XIX plan.

B. Group premium payment arrangement entered into with the Social Security Administration. This arrangement covers the following groups:

   - Aged
   - Blind
   - Disabled

C. Payment of deductible and coinsurance costs. Such payments are made in behalf of the following groups:

   - Aged
   - Blind
   - Disabled

This relates only to comparability of devices – benefits under XVIII to what groups – not how XIX pays. If …State has buy-in (which covers premium), it does not check #3 for same group-only if it does #3 for another group, e.g. does #1 for money payment receipts and #3 for non-$-receipts. How it handles deductibles and coinsurance for money payment receipts is a matter for reimbursement attachment.

RELATIONS WITH STATE HEALTH AND VOCATIONAL REHABILITATION AGENCIES AND TITLE V GRANTEES

The State Health and Title V Grantees are within, and administered and supervised by, the Department of Health and Human Services, the Medicaid agency.

The Vocational Rehabilitation agency is located within the Department of Education, and is responsible for assuring the following functions: where and how to apply for services, the appropriate services are provided, reciprocal referrals, liaison staff, confidentiality of information, non-discrimination, funding and limitations, exchange of services reports, and reviews.
STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State/Territory: Nebraska

LIENS AND ADJUSTMENTS OR RECOVERIES

1. The State uses the following process for determining that an institutionalized individual cannot reasonably be expected to be discharged from the medical institution and return home:

   The Department requires either a physician's statement indicating that the individual is unable to return to their home or the recipient's residence is a medical institution for a period of six consecutive months, whichever occurs first. Notice is given to the recipient when they are determined to be permanently institutionalized and he/she may appeal the Department's determination within ninety days in accordance with the procedures in 465 Nebraska Administrative Code.

2. The following criteria are used for establishing that a permanently institutionalized individual's son or daughter provided care as specified under regulations at 42 CFR §433.36(f):

   The Department determines that an adult child meets the criteria for exception when that adult child has lived in the recipient's home for at least two years immediately before the recipient of medical assistance was institutionalized, has lived there continuously since that time, and can establish to the satisfaction of the Department that he or she provided care that delayed the recipient's admission.

3. For the purposes of estate recovery, the State defines the terms below as follows:

   - **Estate** means the estate of a recipient of medical assistance, including:

     (1) Any real estate, personal property, or other asset in which the recipient had any legal title or interest at the time of the recipient's death, to the extent of such interests;

     (2) Assets to be transferred to a beneficiary through a revocable trust or other similar arrangement which has become irrevocable by reason of the recipient's death; and

     (3) Assets conveyed or otherwise transferred to a survivor, an heir, an assignee, a beneficiary, or a devisee of the recipient of medical assistance through joint tenancy, tenancy in common, transfer on death deed, survivorship,
conveyance of a remainder interest, retention of a life estate or of an estate for a period of time, living trust, or other arrangement by which value or possession is transferred to or realized by the beneficiary of the conveyance or transfer at or as a result of the recipient’s death to the full extent authorized in 42 U.S.C. 1396p(b)(4)(B). Such other arrangements include insurance policies or annuities in which the recipient of medical assistance had at the time of death any incidents of ownership of the policy or annuity or the power to designate beneficiaries and any pension rights or completed retirement plans or accounts of the recipient. A completed retirement plan or account is one which because of the death of the recipient of medical assistance ceases to have elements of retirement relating to such recipient and under which one or more beneficiaries exist after such recipient’s death.

Estate of a recipient of medical assistance does not include:

(1) Insurance policies in proportion to the premiums and other payments to the insurance carrier that were paid by someone other than the recipient of medical assistance or the recipient’s spouse;

(2) Insurance proceeds and accounts in institutions under federal supervision or supervision of the Department of Banking and Finance or Department of Insurance to the extent subject to a security interest where the secured party is not a related transferee as defined in section Nebraska Revised Statute 68-990;

(3) Insurance proceeds, any trust account subject to the Burial Pre-Need Sale Act, or any limited lines funeral insurance policy to the extent used to pay for funeral, burial, or cremation expenses of the recipient of medical assistance;

(4) Conveyances of real estate made prior to August 24, 2017, that are subject to the grantor’s retention of a life estate or an estate for a period of time; and

(5) Any pension rights or completed retirement plans to the extent that such rights or plans are exempt from claims for reimbursement of medical assistance under federal law.
STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State/Territory: Nebraska

- Individual’s home: Included in the definition of estate.
- Equity interest in the home: Included in the definition of estate.
- Residing in the home for at least one or two years on a continuous basis: Defined as stated in 42 U.S.C 1396p.
- Discharge from the medical institution and return home: Not applicable. The State of Nebraska does not impose TEFRA liens.
- Lawfully residing: The recipient of medical assistance’s sibling or adult child is considered to be lawfully residing in the home if the sibling or adult child is residing in the home with the permission of the owner, or if the owner is under guardianship or conservatorship, with the permission of the guardian or conservator.

4. Any of the following circumstances may constitute an undue hardship that results in a complete or partial waiver of claim:

   (1) An heir of the recipient resided in the recipient's home for two years prior to the recipient's entry into a nursing home and during that time provided the type and quantity of unreimbursed care that delayed the recipient's entry into a nursing home;

   (2) An heir of the recipient resided in the recipient's home for two years prior to the recipient's receipt of recoverable medical services and during that time provided the type and quantity of unreimbursed care that delayed the recipient's receipt of those services;

   (3) Payment of the Department's claim would cause an heir of the deceased recipient to become eligible for public assistance;

TN No. NE 17-0021
Supersedes Approval Date February 8, 2018 Effective Date October 1, 2017
TN No. MS-03-01
(4) Waiver of the Department's claim would allow an heir to discontinue eligibility for public assistance for a substantial time period; or

(5) Other situations that the Department, in its discretion and on a case-by-case basis upon consideration of all facts and circumstances, determines constitutes an undue hardship.

An undue hardship does not exist if action taken by the recipient, whether directly or by another person pursuant to sufficient authorization, impermissibly divested or diverted assets to avoid estate recovery.

An undue-hardship waiver application must be submitted in writing to the Department within thirty days of the creditor’s claim-filing deadline or ninety days from the recipient’s date of death if there is no probate proceeding. The application must explain:

(1) How the applicant is related to the now-deceased Medicaid recipient, and include documents or other evidence of this relationship; and

(2) The specific reason(s) why the application should be granted, according to 471 NAC 38-004.03, and include documents or other evidence to support the application.

The applicant will receive a written decision within ninety days after the Department has received the application. If the application is denied (completely or partially), the decision will include general information about appealing the decision.

5. Recovery is not cost-effective when the cost of collection would likely exceed the amount of the Department's claim.

6. The Department evaluates cases for potential estate recovery via local caseworker referrals, attorney referrals, creditor's notices filed in probate proceedings, and any other credible sources of information. If the estate is being probated, the Department files a claim and follows the appropriate procedures as defined in the Nebraska Probate Code. If the estate is not being probated, and when deemed cost effective, the Department will pursue reimbursement of its claim by working with the family, attorney, guardian, or other person handling the recipient's estate. The Department may also utilize appropriate and cost effective legal options to obtain reimbursement of its claim. Waivers based on undue hardship are defined and granted, as stated above.
