RE: Change in Billing Code for Assisted Living UB-04 Claims

Please share this information with billing staff.

Due to recent changes mandated by the National Uniform Billing Committee (NUBC), bill type 89X can only be used for Outpatient Services. To meet compliance with NUBC standards, the Bill Type code for Assisted Living services under the Aged & Disabled and Traumatic Brain Injury waivers will now be **66X**. "X" references the third digit corresponding to claim frequency: 1 = Admit through Discharge Claim; 2 = First Claim; 3 = Continuing Claim; 4 = Last Claim.

Nebraska Medicaid Long-Term Care *UB-04 Billing Instructions*, at 471-000-71, will also be updated to list the billing code of 66X for Assisted Living services.

This is effective July 29, 2013. For any waiver assisted living service claims submitted to Nebraska Medicaid on or after 7/29/13, only the bill code type **66X** will be processed for payment, regardless of the date of service provision.

Questions regarding this change may be directed to Jackie Rapier, Program Specialist, at Jackie.rapier@nebraska.gov or (402)471-1678.
