RE: Managed Care Enrollment Verification

Please share this information with administrative, clinical and billing staff

Due to recent changes in the Medicaid Management Information System (MMIS), beginning June 2013, verification of managed care enrollment will not be available until the first day of the month.

Previously, providers could verify managed care enrollment two (2) days before the end of the month. This verification will now not be available until the first day of that month (i.e. July enrollment will not be available until July 1). Providers can verify eligibility four ways. See http://dhhs.ne.gov/medicaid/Pages/med_eligibility.aspx on how to verify eligibility.
