RE: Medicaid Electronic Health Record (EHR) Incentive Program - CMS 2014  
Certified Electronic Health Record Technology (CEHRT) Flexibility Rule

**Please share this information with Administrative, Billing, Professional and Clinical Staff**

The Nebraska Department of Health and Human Services implemented a new computer system on October 6, 2014 to process the Medicaid Electronic Health Record (EHR) Incentive payments. Medicaid providers can now complete their enrollment for the Nebraska Medicaid EHR Incentive Program through a web portal. The link to the portal is <https://www.nebraskaehrincentives.com>.

The Nebraska Medicaid EHR Incentive Program can now accept attestations using either the 2011 Certified Electronic Health Record Technology (CEHRT), a combination of 2011 and 2014 CEHRT or 2014 CEHRT on the Nebraska portal for Program Year 2014. The appropriate meaningful use selections will be populated based on the version of the CEHRT that is being used when you enter the CMS certification number. For more information refer to the [CMS 2014 CEHRT Rule: Quick Guide](#). Also refer to the [Nebraska Medicaid EHR Incentive Program User Manual](#) for further information and instructions on navigating the new computer system.
