BY: Shelly Nickerson, Pharmacy Unit Administrator

RE: Medicaid Mirena® and Liletta® (Levonorgestrel-releasing
Intrauterine Contraceptive Device) Billing Update

Please share this information with administrative, clinical, and billing staff.

The purpose of this provider bulletin is to clarify Nebraska Medicaid coverage of Mirena® and Liletta® for clients enrolled in fee-for-service Medicaid.

Effective July 1, 2015, Nebraska Medicaid implemented a change in billing of Mirena, an intrauterine contraceptive system. This change allows providers a choice in contraceptive devices for reimbursement. As Liletta and Mirena have been assigned the same HCPC code, J7302, Nebraska Medicaid has allocated a modifier to distinguish Liletta from Mirena.

Providers should use HCPCS J7302 for Liletta® and HCPCS J7302 **TH** for Mirena®. The appropriate NDC will remain in effect for both products. Please refer to the injectable fee schedule for current reimbursement pricing.

If you have questions regarding this bulletin, please contact Leah Spencer, Program Specialist at 402-471-9368 or via email at: DHHS.MLTCPhysicalHealth@nebraska.gov.
