RE: Provider Screening and Enrollment – Revalidation

**Please share this information with administrative, clinical, and billing staff.**

The purpose of this bulletin is to offer additional information regarding the upcoming implementation of new provider screening and enrollment requirements and processes. This bulletin is 3 of 4 being posted today.

42 CFR 455, Subpart E mandates the revalidation of all providers at least every five (5) years, regardless of provider type. When the Maximus provider enrollment web portal implements on December 1, 2015, revalidation is one of the requirements that will begin to be enforced. All providers who were already enrolled with Nebraska Medicaid as of March 2011 will need to be revalidated in the initial revalidation cycle which will occur in 2016. Those providers will have a revalidation due date established by Nebraska Medicaid. Providers who enrolled with Nebraska Medicaid after March 2011 will have to complete revalidation by the end of the five (5) year period from their enrollment effective date.

Providers will be notified in writing at least sixty (60) days prior to their revalidation due date. Another notice will be sent thirty (30) days prior to the revalidation due date to providers that have not completed their revalidation. Providers that do not complete revalidation by their due date will have their enrollment ended the same day. Providers will not be eligible for claims payment after that date.

To facilitate the revalidation process, any data already known to Medicaid & Long-Term Care (MLTC) will be pre-populated on the Maximus web portal registration and enrollment screens. Group members will need to complete their registration as part of the revalidation process (see Provider Bulletin 15-52).

Providers are strongly encouraged to visit and subscribe to the Provider Screening and Enrollment webpage found at <http://dhhs.ne.gov/medicaid/Pages/Provider-Screening-and-Enrollment.aspx> in order to stay informed as additional project-related information becomes available.
