

PROVIDER BULLETIN

No. 16-12
(Supersedes No. 15-45)

DATE: April 7, 2016

TO: Physicians and Mid-Level Practitioners

FROM: Calder Lynch, Director *CL*
Division of Medicaid & Long-Term Care

BY: Leah Spencer, Program Specialist, R.N.

RE: Medicaid Mirena® and Liletta® (Levonorgesterel-releasing
Intrauterine Contraceptive Device) Billing Update

Please share this information with administrative, clinical, and billing staff.

This purpose of this bulletin is to supersede provider bulletin 15-45, which defined billing guidelines for Liletta® and Mirena®.

Effective January 1, 2016, these two intrauterine devices were assigned separate HCPCS codes for billing purposes. Providers should bill HCPCS **J7297** for Liletta® (three-year duration) which previously was billed with J7302. Mirena® (five-year duration) should be billed with **J7298**, which was previously billed with J7302 TH.

Appropriate diagnosis codes and an NDC are required when billing each contraceptive device. Please refer to the injectable fee schedule for current reimbursement at:
<http://dhhs.ne.gov/medicaid/Documents/471-000-540-1-16.pdf> .

Questions regarding this bulletin may be directed to Leah Spencer, Program Specialist, at 402-471-9368 or via email at: MLTCphysicalhealth@nebraska.gov.
