

## **Computer Requirements**

### **Internet Access**

- Reliable Internet access
- Preferably a dedicated connection
- A modem will work, but more slowly

### **Hardware Requirements**

- Pentium 100 MHz computer (500 MHz or higher recommended)
- 32 MB RAM (64 MB or higher recommended)
- 500 MB free disk space
- Screen display set at a minimum of 800 x 600 resolution and 256 colors
- Mouse

### **Software Requirements**

Internet Browser software:

- Microsoft® Internet Explorer, version 5.0 or higher, is strongly recommended; however, FireFox and Safari work as well.
- Windows® 95 and all subsequent Windows® versions
- Adobe Acrobat Reader® 95 version 9.0 or higher
- For networked computers, port 443 of the network firewall must be open for outgoing HTTPS (secure HTTP).
