

Managing Clients with Co-Occurring Health Concerns

The 1st in a Case Studies Webinar Series

Brought to you by: The Federal Training Center Collaborative: Atlantic Region

When:	Friday April 20, 2012	Faculty:	Dr. Vincent Lo Re
Time:	noon—1:00 pm	Fee:	Free to all

Program Overview:

The purpose of this webinar series is to increase participants' understanding, knowledge and management of the co-occurring disorders within the STD, HIV, Family Planning, Addictions, Tuberculosis and Hepatitis communities.

Objectives: Upon completion of each webinar, participants should be able to:

- ◊ List two benefits from screening clients for co-occurring disorders
- ◊ Describe appropriate management for the client with co-occurring disorders

About the Presenter

Dr. Lo Re is an Assistant Professor in the Division of Infectious Diseases and Department of Biostatistics and Epidemiology and a Senior Scholar in the Center for Clinical Epidemiology and Biostatistics. He is also an attending physician in the Viral Hepatitis Clinic and Infectious Diseases Consultation Service at the Penn Presbyterian Medical Center, an affiliate hospital in the University of Pennsylvania Health System.

Audience

This webinar series has been designed for physicians, other clinicians, nurses, counselors, educators, case managers, and intervention specialists working in family planning, addictions, TB/STD/HIV agencies, and other programs.
