1. FUNDING OPPORTUNITY DESCRIPTION

1.1 HISTORY, STATUTORY REQUIREMENTS, AND APPROPRIATION

The Title X Family Planning program ["Population Research and Voluntary Family Planning Programs" (Public Law 91-572)], was enacted in 1970 as Title X of the Public Health Service Act. Title X is the only federal grant program dedicated solely to providing individuals with comprehensive family planning and related preventive health services. The Title X program is designed to provide access to contraceptive services, supplies and information to all who want and need them. By law, priority is given to persons from low- income families.

The Title X Family Planning program is federally administered within the Office of the Assistant Secretary for Health, Office of Population Affairs (OPA) by the Office of Family Planning (OFP). Requirements regarding the provision of family planning services under Title X can be found in the statute ([Title X of the Public Health Service Act, 42 U.S.C. 300, et seq.](#)) and in the implementing regulations which govern project grants for family planning services ([42 CFR part 59, subpart A](#)). Title X of the Public Health Service Act authorizes the Secretary of Health and Human Services (HHS) to award grants for projects to provide family planning services to any person desiring such services, with priority given to individuals from low-income families. The Nebraska Department of Health and Human Services is a Title X Grantee.

Section 1001 of the Act, as amended, authorizes grants "to assist in the establishment and operation of voluntary family planning projects which shall offer a broad range of acceptable and effective family planning methods and services (including natural family planning methods, infertility services, and services for adolescents)." Title X regulations further specify that "These projects shall consist of the educational, comprehensive medical, and social services necessary to aid individuals to determine freely the number and spacing of their children" (42 CFR 59.1). In addition, section 1001 of the statute requires that, to the extent practicable, Title X service providers shall encourage family participation in family planning services projects. Section 1008 of the Act, as amended, stipulates that "None of the funds appropriated under this title shall be used in programs where abortion is a method of family planning."

The Nebraska Department of Health and Human Services (NE DHHS), as the Title X grantee, carries out these projects through subawards.

1.2 PURPOSE

The purpose of this Request for Applications (RFA) is to identify those eligible entities most qualified to provide Title X Family Planning services.

Grants under Section 1001 assist in the establishment and operation of voluntary family planning projects which provide a broad range of acceptable and effective family planning methods and related preventive health services that include natural family planning methods, infertility services, and services for adolescents; highly effective contraceptive methods; breast and cervical cancer screening and prevention services that correspond with nationally recognized standards of care; STD and HIV prevention education, counseling, testing, and referral; adolescent abstinence counseling; and other preventive health services. The broad range of services does not include abortion as a method of family planning. Currently, 89 service grantees provide required Title X services through a network of more than 4,400 clinics nationwide. There is at least one Title X-funded family planning clinic in approximately 75% of all counties in the U.S.

Subawards made under this RFA are intended to support activities in Nebraska outlined by Title X Family Planning with the goal of providing clinical/educational services to targeted low-income, uninsured, underinsured and populations faced with disparate health outcomes. These funds are intended to supplement existing family planning services including clinical family planning and related preventive health services; information, education, and counseling related to family planning; and, referral services as indicated and **cannot be the sole funding source for family planning services within a project.**

Applicants should be prepared to document existing activities, populations served, communities or counties served, and describe how they will be expanded or enhanced by the receipt of subaward funds.

The use of subaward funds are limited to allowable costs under the Office of Management and Budget (OMB) Circulars* as well as restrictions of the all funding sources.

*Recent reform of federal grants management policies consolidates and revises the eight current Office of Management and Budget (OMB) Circulars. The federal OMB published in the December 26, 2013 Federal Register the new **Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards**. This Final Guidance of grant policy reform streamlines requirements from A-21, A-87, A-110, A-122, A-89, A-102, A-133, and A-50. For more information about the reform, refer to <https://cfo.gov/cofar/reform-of-federal-grants-policies-2/>.

2. AWARD INFORMATION

Subject to the review of subrecipient performance and compliance with the terms and conditions of the award, and availability of funds, a one-year, non-competing award will be made for fiscal years 2017 and 2018. Awards made for the initial and subsequent periods are dependent on the availability of federal funds. The following priority areas, key issues and legislative mandates are required to be used to direct program development as outlined in the federal “Announcement of Anticipated Availability of Funds for Family Planning Services Grants”, Funding Opportunity Number: OPA-FY2015-1.

TITLE X FAMILY PLANNING PRIORITY AREAS

1. Assuring the delivery of quality family planning and related preventive health services, where evidence exists that those services should lead to improvement in the overall health of individuals, with priority for services to individuals from low income families. This includes ensuring that grantees have the capacity to support implementation (e.g., through staff training and related systems changes) of the Title X program guidelines throughout their Title X services projects, and that project staff have received training on Title X program requirements;
2. Providing access to a broad range of acceptable and effective family planning methods and related preventive health services in accordance with the Title X program requirements and Quality Family Planning (QFP). These services include, but are not limited to, natural family planning methods, infertility services, services for adolescents, breast and cervical cancer screening, and sexually transmitted disease (STD) and HIV prevention education, testing, and referral. The broad range of services does not include abortion as a method of family planning;
3. Assessing clients’ reproductive life plan as part of determining the need for family planning services, and providing preconception services as stipulated in QFP;
4. Addressing the comprehensive family planning and other health needs of individuals, families, and communities through outreach to hard-to-reach and/or vulnerable populations, and partnering with other community-based health and social service providers that provide needed services; and
5. Demonstrating that the project infrastructure will ensure sustainability of family planning and reproductive health services throughout the proposed service area including:
 - Incorporation of certified Electronic Health Record (EHR) systems and other HIT systems that are interoperable;
 - Evidence of contracts with insurance and systems for third party billing as well as the ability to facilitate the enrollment of clients into insurance and Medicaid optimally onsite; and to report on numbers assisted and enrolled;
 - Evidence of the ability to provide comprehensive primary care services onsite or demonstration of formal robust linkages with comprehensive primary care providers.

TITLE X FAMILY PLANNING KEY ISSUES

Key Issues: In addition to program priorities, the following key issues have implications for Title X services projects, and should be considered in developing the project plan:

1. Incorporation of the 2014 Title X Program Guidelines throughout the proposed service area as demonstrated by written clinical protocols that are in accordance with Title X Requirements and QFP.
2. Efficiency and effectiveness in program management and operations;
3. Patient access to a broad range of contraceptive options, including long acting reversible contraceptives (LARC), other pharmaceuticals, and laboratory tests;
4. Establishment and use of performance measures to regularly perform quality assurance and quality improvement activities;
5. Establishment of linkages and partnerships with comprehensive primary care providers, HIV care and treatment providers, and mental health, drug and alcohol treatment providers;
6. Incorporation of the National HIV/AIDS Strategy (NHAS) and CDC's "Revised Recommendations for HIV Testing of Adults, Adolescents and Pregnant Women in Health Care Settings;"
7. Efficient and streamlined electronic data collection (such as for the Family Planning Annual Report (FPAR)), reporting and analysis for internal use in monitoring performance, program efficiency, and staff productivity in order to improve the quality and delivery of family planning services; and
8. Incorporation of research outcomes and evidence-based approaches that focus on family planning service delivery.

TITLE X FAMILY PLANNING LEGISLATIVE MANDATES

Legislative Mandates: The following legislative mandates have been part of the Title X appropriations language for the last several years. This funding opportunity announcement assumes these provisions will be carried forward in FY 2015. Title X family planning services projects should include administrative, clinical, counseling, and referral services as well as training of staff necessary to ensure adherence to these requirements.

“None of the funds appropriated in this Act may be made available to any entity under Title X of the Public Health Service Act unless the applicant for the award certifies to the Secretary of Health and Human Services that it encourages family participation in the decision of minors to seek family planning services and that it provides counseling to minors on how to resist attempts to coerce minors into engaging in sexual activities;” and

“Notwithstanding any other provision of law, no provider of services under Title X of the Public Health Service Act shall be exempt from any State law requiring notification or the reporting of child abuse, child molestation, sexual abuse, rape, or incest.”

GENERAL TERMS AND ASSURANCES

A. ACCESS TO RECORDS AND AUDIT RESPONSIBILITIES.

1. All Subrecipient books, records, and documents regardless of physical form, including data maintained in computer files or on magnetic, optical or other media, relating to work performed or monies received under this subaward shall be subject to audit at any reasonable time upon the provision of reasonable notice by DHHS. Subrecipient shall maintain all records for three (3) years from the date of final payment, except records that fall under the provisions of the Health Insurance Portability and Accountability Act (HIPAA) shall be maintained for six (6) full years from the date of final payment. In addition to the foregoing retention periods, all records shall be maintained until all issues related to an audit, litigation or other action are resolved to the satisfaction of DHHS. The Subrecipient shall maintain its accounting records in accordance with generally accepted accounting principles. DHHS reserves and hereby exercises the right to require the Subrecipient to submit required financial reports on the accrual basis of accounting. If the Subrecipient's records are not normally kept on the accrual basis, the Subrecipient is not required to convert its accounting system but shall develop and submit in a timely manner such accrual information through an analysis of the documentation on hand (such as accounts payable).
2. The Subrecipient shall provide DHHS any and all written communications received by the Subrecipient from an auditor related to Subrecipient's internal control over financial reporting requirements and communication with those charged with governance including those in compliance with or related to Statement of Auditing Standards (SAS) 112 *Communicating Internal Control related Matters Identified in an Audit* and SAS 114 *The Auditor's Communication with Those Charged With Governance*. The Subrecipient agrees to provide DHHS with a copy of all such written communications immediately upon receipt or instruct any auditor it employs to deliver copies of such written communications to DHHS at the same time copies are delivered to the Subrecipient, in which case the Subrecipient agrees to verify that DHHS has received a copy.
3. The subrecipient shall immediately commence follow-up action on findings arising from audits or other forms of review. Follow-up action includes responding to those conducting such examinations with clear, complete views concerning the accuracy and appropriateness of the findings. If the finding is accepted, corrective action, such as repaying disallowed costs, making financial adjustments, or taking other actions should proceed and be completed as rapidly as possible. If the subrecipient disagrees, it should provide an explanation and specific reasons that demonstrate that the finding is not valid.
4. In addition to, and in no way in limitation of any obligation in this subaward, the Subrecipient shall be liable for audit exceptions, and shall return to DHHS all payments made under this subaward for which an exception has been taken or which has been disallowed because of such an exception, upon demand from DHHS.

B. AMENDMENT. This subaward may be modified only by written amendment executed by both parties. No alteration or variation of the terms and conditions of this subaward shall be valid unless made in writing and signed by the parties.

C. ANTI-DISCRIMINATION. The Subrecipient shall comply with all applicable local, state and federal statutes and regulations regarding civil rights and equal opportunity employment, including Title VI of the Civil Rights Act of 1964; the Rehabilitation Act of 1973, Public Law 93-112; the Americans with Disabilities Act of 1990, Public Law 101-336; and the Nebraska

Fair Employment Practice Act, NEB. REV. STAT. §§ 48-1101 to 48-1125. Violation of said statutes and regulations will constitute a material breach of this subaward. The Subrecipient shall insert this provision into all subawards and subcontracts.

- D. ASSIGNMENT. The Subrecipient shall not assign or transfer any interest, rights, or duties under this subaward to any person, firm, or corporation without prior written consent of DHHS. In the absence of such written consent, any assignment or attempt to assign shall constitute a breach of this subaward.
- E. ASSURANCE. If DHHS, in good faith, has reason to believe that the Subrecipient does not intend to, is unable to, has refused to, or discontinues performing material obligations under this subaward, DHHS may demand in writing that the Subrecipient give a written assurance of intent to perform. Failure by the Subrecipient to provide written assurance within the number of days specified in the demand may, at DHHS's option, be the basis for terminating this subaward.
- F. BREACH OF SUBAWARD. DHHS may immediately terminate this subaward and agreement, in whole or in part, if the Subrecipient fails to perform its obligations under the subaward in a timely and proper manner. DHHS may withhold payments and provide a written notice of default to the Subrecipient, allow the Subrecipient to correct a failure or breach of subaward within a period of thirty (30) days or longer at DHHS's discretion considering the gravity and nature of the default. Said notice shall be delivered by Certified Mail, Return Receipt Requested or in person with proof of delivery. Allowing the Subrecipient time to correct a failure or breach of this subaward does not waive DHHS's right to immediately terminate the subaward for the same or different subaward breach which may occur at a different time. DHHS may, at its discretion, obtain any services required to complete this subaward and hold the Subrecipient liable for any excess cost caused by Subrecipient's default. This provision shall not preclude the pursuit of other remedies for breach of subaward as allowed by law.
- G. CONFIDENTIALITY. Any and all confidential or proprietary information gathered in the performance of this subaward, either independently or through DHHS, shall be held in the strictest confidence and shall be released to no one other than DHHS without the prior written authorization of DHHS, provided that contrary subaward provisions set forth herein shall be deemed to be authorized exceptions to this general confidentiality provision. BUDGET JUSTIFICATION FORMAT

Use the format shown below. The Budget Justification describes the need for and shows the calculations of each item of cost. The Budget Justification, as a counterpart of the Line Item Budget, contains the exact budget categories and line items. An acceptable Budget Justification identifies each item of cost and the methodology used in projecting the cost. Information must be provided in sufficient detail to support items of cost for awarded funds.

Include brief descriptions of staff positions that are funded in whole or in part with awarded funds, *i.e.* indicate the full-time equivalent (FTE). Descriptions should include the scope of responsibility for each position, relating it to the accomplishment of outcomes stated in the planned activities.

“Allocable costs” are a critical aspect of federal grants. A cost is allocable to a particular cost objective if the goods or services involved are chargeable or assignable to such cost objective in accordance with relative benefits received. Any cost allocable to a particular federal award may not be charged to other federal awards to overcome fund deficiencies.

The following examples do not include all allowable cost categories or lines.

OFFICE EXPENSES

Supplies (\$75/month x 12 months)	\$ 900.00
Printing (1,000 brochures x \$.15/ea.)	\$ 150.00
Rent (\$3/sq. ft. x 200 ft. x 12 months)	\$7,200.00

TRAVEL**

Mileage (300 mi. x 56.5¢/mile)	\$ 121.50
Meals (\$25/diem x 5 days)	\$ 125.00
Lodging (\$100/night x 4 nights)	\$ 400.00

**Travel costs that could be considered excessive should be further clarified, e.g. delineated by in-state or out-of-state travel, purpose, number of persons, etc.

A. Indirect cost

If claiming indirect costs, identify the base used in establishing the rate, state the rate, and show the calculation leading to the claimed indirect costs in the Line Item Budget. The rate identified in a negotiated rate agreement should be the same as that used in the Line Item Budget and the Budget Justification. **Applicants must provide a signed copy of the federal indirect cost rate agreement.**

B. Line Item Budget

Submit a budget that includes the complete budget for your family planning program, as well as a line item budget for the subaward. Awarded funds are intended to supplement existing clinical family planning practices and cannot be the sole funding source for family planning activities within a clinic. Applicants must detail funds expended or received from other sources that support family planning services. A Line Item Budget is used to identify and categorize items of costs for awarded funds. A budget should contain detail sufficient in line items to show the proposed items of costs that comprise the budget category. Budget categories are useful for organizing and clarifying line items. Costs must be clearly identified in the budget and justification in order for DHHS to determine if allowable, allocable and reasonable, and to

consider if the cost is essential for achievement of expected outcomes contained in the Narrative/Work Plan.

Develop a budget with allowable, allocable, and reasonable costs that clearly support the planned activities for the proposed work. It is critical to consider the following information:

- “Miscellaneous” or “other” are not acceptable budget categories or line items, as these do not provide an adequate description to determine if the cost is allowable.
- Income -- show any income for family planning services either from donations or third party billing for Medicaid.
- Each item of cost must be treated consistently in like circumstances either as a direct or an indirect cost, *e.g.* direct costs cannot include costs already reflected in an indirect cost rate, if an indirect cost rate is proposed.
 - Direct Costs -- Any cost that can be identified specifically with a particular project or program (contrast to indirect costs). Must be supported with source documentation (i.e.: payroll time sheets, benefits, and receipts for line items purchased).
 - Indirect Costs -- Indirect costs (IDC) are those costs incurred for common or joint purposes, and are usually allocated among an entity's services in proportion to each service's share of direct costs. Because of the diverse characteristics and accounting practices of governmental units, the types of costs, which may be classified as indirect costs, cannot be specified in all situations. However, typical examples of indirect costs may include certain general administration of the recipient department or agency, accounting and personnel services performed within the recipient department or agency, and the costs of operating and maintaining facilities. Use the IDC rate agreement negotiated by the federal cognizant agency. Attach a copy of the most current indirect cost rate agreement which supports the use of the “indirect costs” line item. The Indirect Cost Rate Agreement is needed to confirm that it is a current rate negotiation, to understand how the rate is being applied, and to verify that the rate is applied correctly, *e.g.* mathematically and that the base to establish the rate does not include awarded funds budgeted as direct costs.

C. Management Worksheet

The Management Worksheet lists the employees responsible for successfully managing the proposed work with awarded funds. Enter contact information in the form provided.

Common Mistakes & Omissions

Using the checklist, carefully review your funding request before submitting to DHHS. Avoid these common mistakes and omissions to expedite review.

	<p>Budget Lines do not mirror the Budget Justification <i>Use exactly the same lines in both the budget line item and the narrative of the justification of each line item.</i></p>
	<p>Budget Line Items and Justification do not correlate with the Narrative/Work Plan. <i>Budget line items and their justification must mirror the work plan or activities you have provided.</i></p>
	<p>Budget exceeds the level of funds available.</p>
	<p>Non-specific line item in the budget; e.g. <u>cannot use</u> “miscellaneous” or “other”. <i>“Miscellaneous and other” are inadequate descriptions to determine if the cost is allowable based on the OMB Cost Principles as relevant to the type of entity. Also, each item of cost must be treated consistently in like circumstances either as a direct or indirect cost.</i></p>
	<p>Indirect costs are budgeted, but the Indirect Cost Rate Agreement is not attached. <i>The indirect cost rate agreement is needed to confirm that it is a current rate negotiation, to understand how the rate is being applied, and to verify that the rate is applied correctly; e.g. mathematically and the base to establish the rate does not include subaward funds budgeted as direct costs.</i></p>
	<p>You have submitted a Subaward Budget but did not include a total Title X Family Planning Program Budget. <i>These funds are intended to supplement existing clinical practices and cannot be the sole funding source for activities within a clinic.</i></p>

Title X Family Planning Funding Formula

Nebraska Reproductive Health Title X Family Planning Funding Formula

Primary Site(s) - Administrative Hub or exists in community with a population greater than 25,000.

Satellite - Open daily with a regular clinic schedule, permanent facility.

Delegate - a sub-recipient of Title X funding from the Grantee (NE-DHHS – Nebraska Reproductive Health). The Grantee is identified by and funded directly from the Office of Population Affairs, U.S. Department of Health and Human Services through a competitive grant process.

Funding Formula

Step 1: A base allocation is made to a delegate agency based on the following amounts:

Primary Site	\$40,000 year
Satellite	\$10,000 year

Step 2: Funds are further allocated based on the percent of unduplicated Low Income Women (LIW) users to Total Agency Users. The following scale represents the amounts given based on the percent determined:

% of LIW to Total Agency Users	
0 - 35%	= \$0
36 - 45%	= \$5,000 yearly
46 - 55%	= \$10,000 yearly
56 - 65%	= \$15,000 yearly
66 - 75%	= \$20,000 yearly
76 - 85%	= \$25,000 yearly
86 - 95%	= \$30,000 yearly

Step 3: Using a computerized formula delegates are allocated funds based on: Number of unduplicated Low Income Women Users \leq 150% of poverty minus the Medicaid Users.

Step 4: Maternal Child Health (MCH) fund allocation is based on the percent of total allocable Title X funds that a delegate receives. For example, if an agency receives 10% of the total Federal Title X funds available through the funding formula they will receive 10% of the MCH funds available.

Step 5: Hold harmless protection. Delegate agency funding cannot decrease more than 10% or increase more than 30% over the previous year.
