

Nebraska Public Health Taking Action

EBOLA

DHHS
NEBRASKA

Enhancing response plans.

Evaluating our hospitals' readiness.

Sharing guidance with local health departments, hospitals, health care providers, first responders and local and state labs through our extensive Health Alert Network.

Monitoring travelers from West Africa for signs and symptoms of Ebola according to CDC guidance.

Adding Ebola Public Information line (402-552-6645) to help Nebraskans with their questions and concerns and updating dhs.ne.gov with the latest information.

Activating our Emergency Coordination Center as a central clearing house for Ebola-related information and guidance and to help connect preparedness resources to those who need them statewide.
