

Age-adjusted Percentage of Nebraska Adults with a Current Blood Cholesterol Screening* by Race/Ethnicity, 2011

*Adults who had their cholesterol checked within the past 5 years

[^]Individuals who identified more than one race but did not specify a preferred race

Note 1: Race/ethnicity categories are non-overlapping; Hispanics can be of any race

Note 2: Confidence intervals that do not overlap are determined to be statistically different from one another (where $p < .05$)
