

# SCOPE of Pain

Safe and Competent Opioid Prescribing Education

## Join us in Omaha!

SCOPE of Pain Half-Day Meeting | September 28, 2013 | 8:30am-1:00pm  
Durham Research Center | University of Nebraska Medical Center

### What is SCOPE of Pain?

SCOPE of Pain is designed to help you safely and effectively manage patients with chronic pain, when appropriate, with opioid analgesics. The Nebraska half-day meeting includes essential clinical content on opioid prescribing as well as state-specific information, including a policy and resource panel with representatives from State agencies.

SCOPE of Pain Nebraska is sponsored by Boston University School of Medicine and jointly sponsored by the Nebraska Board of Medicine and Surgery and the Nebraska Department of Health and Human Services. National collaborators include the Council of Medical Specialty Societies and the Federation of State Medical Boards.

The FDA has mandated manufacturers of extended release/long-acting (ER/LA) opioid analgesics, as part of a comprehensive Risk Evaluation and Mitigation Strategy (REMS), to make available comprehensive prescriber education in the safe use of these medications based on the FDA curriculum known as the Blueprint for Prescriber Education for Extended Release and Long-Acting Opioid (ER/LA) Analgesics. Our curriculum covers all aspects of this blueprint and more to provide a comprehensive educational program.

### Who is this for?

Physicians, nurse practitioners, physician assistants, dentists, optometrists, and podiatrists

**Tuition: \$25**
