

By the Numbers Pesticide Poisoning in Nebraska

▶ Nebraska has one of the highest rates of work-related pesticide poisonings in the U.S.

▶ Out of 409 pesticide applicators, 43% said their health had been affected by pesticides but did not seek medical advice.

-Unpublished survey data from 2009-10, UNL Pesticide Education Office

Rate of reported work-related pesticide poisoning cases per 100,000 employed persons age 16 years or older in Nebraska
