SUBJECT: Revised Nebraska Regulations for Control of Radiation – Title 180

Effective November 28, 2016, revisions and additions to the Nebraska Regulations for Control of Radiation (Title 180) were enacted. Changes were made to Chapters 1-8, 10, 13-15, and 19-21. Chapter 24 was added. These changes reflect those discussed in public hearings held on April 4 and June 16, 2016.

Many changes were required to meet compatibility provisions under the Agreement State status with the U.S. Nuclear Regulatory Commission (NRC). Additional changes were made for clarification and editing purposes.

A copy of the regulations is available for download at: www.dhhs.ne.gov/rad
