**Subject:** Support of CST licensure

HI

My name is Gatwal Majack and I am CST certified. I live in Omaha Nebraska and I work at Children Hospital and Medical Center. To begin with, I am completely in support of licensing CST on our state. I do believe it is profession that the members need to be certified like any other profession. CST make a lot of different on patients' live which most people are not aware. I think it is good idea to make everyone who live in our Nebraska to be certified.
