## NEBRASKA ABORTIONS, 2014

### Summary

This report presents tabulations of statistical information reported on records of induced abortions performed in Nebraska during calendar year 2014. These data are in compliance with specifications set forth in Nebraska Statute §28-343 through §28-345, §28-3,107 and §71-6909.

A total of 2,270 abortions were reported to the Nebraska Department of Health and Human Services for 2014, an increase of 4.3% when compared to the 2013 total of 2,177. The following chart shows the number of abortions performed; the percentage of abortions in different age groups; the mean and modal age of the patient; and the number of abortions per 1,000 live births since 1994.

Chart I:
