### **Footnotes:**

### **B. Implementation Report**

### MHBG Table 1 Priority Area and Annual Performance Indicators - Progress Report

Priority #: 1

**Priority Area:** Alcohol Use among Youth and Young Adults

**Priority Type:** SAP

Population(s): PP, Other (Adolescents w/SA and/or MH, Students in College, Rural, Children/Youth at Risk for BH Disorder, Underserved Racial

and Ethnic Minorities)

### Goal of the priority area:

Reduce harmful alcohol use among youth and young adults.

### **Objective:**

Reduce the prevalence of binge drinking by youth and young adults.

### Strategies to attain the goal:

Work with prevention coalitions across the state to continue engaging in partnerships with local schools, colleges and community groups to facilitate trainings and educational activities which aim to enhance awareness of the risks associated with alcohol use, particularly those associated with binge drinking.

### Edit Strategies to attain the objective here:

(if needed)

### -Annual Performance Indicators to measure goal success-

Indicator #: 1

Indicator: Prevalence of binge drinking reported by youth and young adults, ages 18 to 24

**Baseline Measurement:** 31.5%

First-year target/outcome measurement: 31.5%

**Second-year target/outcome measurement:** 30.0%

New Second-year target/outcome measurement(if needed):

**Data Source:** 

Behavioral Risk Factor Surveillance Survey (BRFSS)

### New Data Source(if needed):

### **Description of Data:**

The Behavioral Risk Factor Surveillance System (BRFSS) is a survey which collects state data about residents regarding their health-related risk behaviors, chronic health conditions, and use of preventive services. The BRFSS is a cross-sectional survey conducted by states with technical and methodological assistance provided by the Centers for Disease Control and Prevention (CDC). States use a standardized core questionnaire, optional modules, and state-added questions to ask a variety of important health-related topics of which DBH contributes recommendations on question content. It is administered every year and targeted at non-institutionalized adults 18 years of age and older. The Nebraska Department of Health and Human Services (DHHS) Division of Public Health (DPH) contracts with the University of Nebraska-Lincoln, Bureau of Sociological Research (BOSR) to manage BRFSS data collection.

### New Description of Data: (if needed)

### Data issues/caveats that affect outcome measures:

Although this survey has historically been implemented every year, the Division of Behavioral Health does not directly coordinate and is

thereby dependent	on availability of survey results through coordination with DPH and CDC.			
New Data issues/caveats that affect outcome measures:				
Report of Prog	gress Toward Goal Attainment  Achieved   Not Achieved (if not achieved,explain why)			
_	vas not achieved, and changes proposed to meet target:			
How first year target	was achieved (optional):			
	121 Behavioral Rick Factor Surveillance Survey data the percentage of young adults who reported having more than s and more than four drinks for females on one occasion was 26.2%, exceeding First-year Target of 31.5%.			
Priority#: 2				
Priority Area: Increa	ase Use of Evidence-based Strategies			
Priority Type: SAP				
	ther (Adolescents w/SA and/or MH, Students in College, Rural, Children/Youth at Risk for BH Disorder, Underserved Racial (thnic Minorities)			
Goal of the priority area:				
Increasing the use of evider	nce-based strategies supported through Block Grant funding.			
Objective:				
Increase the use of evidence	e-based strategies employed by prevention coalitions to reduce alcohol and substance use.			
Strategies to attain the goal:				
campaigns, and engagemen program staff understanding	ridence-based interventions in prevention practices. Use evidence-based public education and awareness strategies, nt activities to increase awareness of binge drinking and reduce binge drinking rate. Offer technical assistance to enhance gon identification and use of evidence-based strategies in addition to continued training on data collection and entry porting system related to prevention activities.

Data Source:	
Nebraska DHHS Division of Behavioral Health Centralized Data System (CDS).	

Consumer treatment data from CDS. CDS collects consumer level information to report to the Treatment Episode Date Set (TEDS) of MH and SU Disorders consumers receiving DBH funded services, either directly or through regional contracts. CDS warehouses all the data entered so that it can be analyzed at any time.

### New Description of Data:(if needed)

### Data issues/caveats that affect outcome measures:

Information is provided by consumer who may not wish to disclose they are or are at risk of experiencing homelessness. Residential services include: Dual Disorder Residential - MH + SUD, Halfway House - SUD, Intermediate Residential - SUD, Psychiatric Residential Rehabilitation - MH, Secure Residential - MH, Short Term Residential - SUD, Therapeutic Community - SUD, Mental Health Respite - MH + SUD.

### New Data issues/caveats that affect outcome measures:

### Report of Progress Toward Goal Attainment

First Year Target: Achieved If not achieved, explain why)

### Reason why target was not achieved, and changes proposed to meet target:

### How first year target was achieved (optional):

Increased system and community-level activities supporting efforts to focus targeted resources for priority populations achieved a statewide first year outcome measure of 70% of the number of consumers in stable living arrangements at discharge from residential services.

Priority #: 4

Priority Area: Consumer Employment

**Priority Type:** SAT, MHS

Population(s): SMI, SED, PWWDC, ESMI, PWID, EIS/HIV, TB, Other (Rural, Military Families, Homeless, Underserved Racial and Ethnic Minorities)

### Goal of the priority area:

Consumers in the labor market have competitive employment.

### **Objective:**

Increasing support for consumers to sustain and acquire competitive employment.

### Strategies to attain the goal:

Work with providers and community partners to understand local employment opportunities and help support efforts to connect consumers with employers.

### Edit Strategies to attain the objective here:

### (if needed)

### St

As required through the contracts with the Regional Behavioral Health Authorities (RBHAs), priority populations are expected to receive priority status according to priority type when waiting to enter a substance abuse treatment service. Educational trainings with RBHAs and providers to ensure priority status is understood and Federal requirements are followed. Monitoring and assessment of Short Term Residential capacity to determine if additional service locations are necessary to meet the needs of all priority populations seeking treatment.

### Edit Strategies to attain the objective here: (if needed)

### -Annual Performance Indicators to measure goal success-

Indicator #:

Indicator: Percentage of persons reported as injecting drugs who are admitted into Short Term Residential services within 14 days of seeking treatment Residential services within 14 days

of seeking treatment **Baseline Measurement:** 80% First-year target/outcome measurement: 85% Second-year target/outcome measurement: 85% New Second-year target/outcome measurement(if needed): **Data Source:** Nebraska DHHS Division of Behavioral Health Centralized Data System (CDS). New Data Source(if needed): **Description of Data:** Consumer wait and admission data from CDS. CDS collects consumer level information for all consumers placed on a waiting list for MH and SU Disorders receiving DBH funded services, either directly or through regional contracts. CDS warehouses all the data entered so that it can be analyzed at any time. New Description of Data:(if needed) Data issues/caveats that affect outcome measures: The CDS access reporting function is monitored for completeness and accuracy on a regular basis. New Data issues/caveats that affect outcome measures: Report of Progress Toward Goal Attainment Achieved Not Achieved (if not achieved, explain why) First Year Target: Reason why target was not achieved, and changes proposed to meet target: How first year target was achieved (optional): Educational trainings with RBHAs and providers to ensure priority populations receive priority status according to priority type when waiting to enter a substance abuse treatment service improved wait times into Short Term Residential services for persons who inject drugs and achieved a statewide first year outcome measure of 87% of persons reported as injecting drugs who admitted into Short Term Residential services within 14 days of seeking treatment.

Priority #: 6

Priority Area: First Episode Psychosis (FEP)

Priority Type: MHS

**Population(s):** SMI, SED, ESMI

### Goal of the priority area:

Improve the system such that more people are being provided the behavioral health services they need earlier and in a voluntary capacity through self-entry into the service system.

### **Objective:**

Improve access to FEP Coordinated Specialty Care (CSC) treatment for youth and young adults who have experienced a first episode of psychosis.

### Strategies to attain the goal:

Continue to develop recovery-oriented services and increase use of evidence-based practices which help individuals stabilize and maintain stabilization in community settings. Support Mental Health trainings to improve early intervention and support, particularly for youth having a first episode of psychosis (FEP). Emphasis will be placed on enhancing recruitment strategies and increasing community awareness on FEP services available.

Priority #: 7

**Priority Area:** Tuberculosis

**Priority Type:** SAT

**Population(s):** TB, Other (Homeless, Underserved Racial and Ethnic Minorities)

### Goal of the priority area:

Tuberculosis screening is provided to all persons entering substance abuse treatment service and meets federal requirements regarding screening for Tuberculosis.

### Objective:

As required through the contracts with the Regional Behavioral Health Authorities, Tuberculosis screening is provided to all persons entering a substance abuse treatment service. Additional services and/or referrals for services are made available to those individuals whose screening indicates "high risk" for TB. The Tuberculosis Program in the Nebraska Division of Public Health provides the overall coordination for the State of Nebraska.

### Strategies to attain the goal:

Regional Behavioral Health Authorities will comply with contract requirements for Tuberculosis screening to be provided to all persons entering a substance abuse treatment service.

### COVID Testing and Mitigation Program Report for the Community Services Mental Health Block Grant (MHBG) for Federal Fiscal Year Ending September 30, 2022 Due Date: December 30, 2022

Grant Award Number: 1B09SM085897-01

The Nebraska Department of Health and Human Services Division of Behavioral Health (DBH) has contracted to reimburse 23 residential, day program and crisis response providers for select COVID-19 mitigation supplies. Funding agreements were sent to the agencies and of these three agencies covering eight services have submitted for reimbursement. The supplies to be reimbursed will limited to the following items:

- Masks
- Gloves
- Hand sanitizer
- Sanitizing wipes, sprays, or cleaning products
- Over the counter rapid COVID-19 tests or reimbursement for rapid testing done at alternative locations (e.g., pharmacy).

Total expenditures October 1, 2021-September 30,2022: PPE/Testing Kits

MHBG ARPA Aid \$6969.33

For the Federal Fiscal Year ending September 30, 2022, please upload a Word or PDF document in Table 1 of the FY23 MHBG Report on the COVID Testing and Mitigation activities and expenditures by answering the following question, due by December 30, 2022.

List the items and activities of expenditures completed from October 1, 2021 thru September 30, 2022 (if no activities were completed, note here with Not Applicable)

COVID Testing and Mitigation Program Report for State of Nebraska

### **Footnotes:**

1. The state portion of Medicaid is calculated into MOE. As Medicaid information is not available until January 2023, neither this table, nor MOE can be completed until that time. As such, the information reported in the table is actual but does not yet include reporting of state Medicaid. With anticipated availability of state Medicaid information in late January 2023 at which time we will contact our State Project Officer to request a revision request to add this information.

RevReq 013023 - 2: Revised Table 6 to include reporting of state Medicaid expenditures for the expenditure period. The state portion of Medicaid is calculated into MOE. Report of expenditures is now complete and actual.
