Glossary of Terms

Child Maltreatment: Maltreatment occurs when a child from birth through age 17 is physically, emotionally, or sexually harmed.

Abuse:

- ❖ **Physical:** Information indicates the existence of an injury that is unexplained; not consistent with the explanation given; or is non-accidental.
- ❖ **Emotional:** Information indicates psychopathological or disturbed behavior in a child which is documented by a psychiatrist, psychologist or licensed mental health practitioner to be the result of continual scapegoating; rejection or exposure to violence by the child's parent/caretaker.
- ❖ **Sexual:** Information indicates any sexually oriented act, practice, contact, or interaction in which the child is or has been used for the sexual stimulation of a parent, the child, or other person.

Neglect:

- ❖ **Emotional neglect:** Information which indicates that the child is suffering or has suffered severe negative effects due to a parent's failure to provide the opportunities for normal experience which produce feelings of being loved, wanted, secure and worthy.
- ❖ **Physical neglect:** The failure of the parent to provide for the basic needs, or provide a safe and sanitary living environment for the child.
- ❖ **Medical Neglect of Handicapped Infant:** The withholding of medically indicated treatment (appropriate nutrition, hydration, and medication) from disabled infants with life-threatening conditions. Exceptions include those situations in which the infant is chronically and irreversibly comatose; the provision of this treatment would merely prolong dying or not be effective in ameliorating or correcting all of the infant's life-threatening conditions, and the provision of the treatment itself under these conditions would be inhumane.

Dependent Child: Dependent child means no child maltreatment has been identified, but the parent is or will be unable to care for the child through no fault of the parent. Parent may be incapacitated or absent due to illness, death, incarceration, or otherwise unavoidably unable to provide care. Or, the child has extraordinary mental health, emotional, or physical needs which the parent does not have the ability or capacity to meet.

Findings: There are five categories of findings: Court Substantiated, Court Pending; Agency Substantiated, Unable to Locate, and Unfounded.

- ❖ **Court Substantiated:** A District Court, County Court, or Separate Juvenile Court has entered a judgment of guilty on a criminal complaint, indictment, or information, or an adjudication of jurisdiction on a juvenile petition under Section 43-247 (3)(a), and the judgment or adjudication relates or pertains to the same matter as the report of abuse or neglect.
- ❖ **Court Pending:** A criminal complaint, indictment, or information or a juvenile petition, under Section 43-247(3)(a), that has been filed in District Court, County Court, or Separate Juvenile Court, and that the allegations of the complaint, indictment, information, or juvenile petition relate or pertain to the same subject matter as the reports of abuse or neglect.
- ❖ **Agency Substantiated:** The evidence indicates it is more likely than not (preponderance of the evidence standard) that the child abuse or neglect occurred, and a court adjudication did not occur.

- ❖ **Unable to Locate:** Subjects of the maltreatment report have not been located after a good-faith effort by the Department to locate.
- ❖ **Unfounded:** All reports not classified as Court Substantiated, Petition to be Filed, Agency Substantiated or Unable to Locate will be classified as “Unfounded”.

Information and Referral: A Department process to document calls received by the Child Abuse and Neglect Hotline that do not meet the definition of child abuse or neglect. Department staff will provide information and referrals to the caller to assist them with obtaining services or additional information.

In Process of Assessing: The status of a Child Abuse and Neglect Report that is currently being assessed. These reports were not completed at the time the data was selected for this report.

Intake: The process of documenting all reports of child abuse and neglect. Intake includes the activities associated with receipt of a referral, the decision to accept or not accept the report for further assessment, and the referral of individuals or families to services.

Perpetrator: The person who was found to have committed an offense, as in abuse or neglect of a child.

Referred to Law Enforcement: Reports of child abuse and neglect that are sent directly to law enforcement for investigation because the report does not include abuse or neglect allegations of a family member or someone acting in a familial role. These reports are investigated by law enforcement. The Department will assist if requested.

Screened Out: This term is used to describe reports of child abuse and neglect that are not accepted for further assessment by the Department. These reports do not meet the criteria established by the Department that would cause the Department to intervene.

Substantiated: The term substantiated means that a determination was made that the incident of maltreatment did occur. Reports that are considered as substantiated would have the following types of findings identified: “Court Substantiated”; “Petition to be Filed”; or “Agency Substantiated”.
