

Parental Portion

Extra Care for Children with Disabilities, the child care service on the Aged and Disabled (AD) Waiver, provides the specialized care needed for waiver participants ages 18 years and under.

The parent(s) or guardian is responsible for paying routine child care costs directly to the provider as their parental portion of the fees. The AD Waiver does not provide routine child care but does cover the additional cost of care for the participant's physical, medical, or personal care needs due to their disability.

Routine child care rates are determined based on the Nebraska Child Care Subsidy Program and the results of the Nebraska Child Care Market Rate Survey.

The Nebraska Child Care Market Rate Survey is available on the Nebraska DHHS website: <https://dhhs.ne.gov/Pages/Market-Rate-Survey.aspx>.

KEY POINTS

- **PARENTS ARE RESPONSIBLE FOR THE COST OF ROUTINE CHILD CARE.**
- **THE AD WAIVER PAYS FOR NEEDED EXTRA CARE.**

In Nebraska, anyone who provides child care to four or more children from different families must be licensed as a child care provider.

The routine child care rates, or parental portion are set at the 75th percentile of the current Market Rate Survey through June 30, 2025, as outlined in Legislative Bill (LB) 1011. Rates cannot exceed the 75th percentile, per Nebraska Revised State Statute § 43-536.

Nebraska Child Care Market Rate Survey

This survey gathers data from all licensed child care providers in Nebraska to determine private pay child care rates for children with or without medical and behavioral needs.

The 2023 survey met the required state and federal benchmarks: (a) includes the priced child care market; (b) provides complete and current data; (c) represents geographic variations; (d) uses rigorous data collection procedures; and (e) analyzes data in a manner that captures market differences as a function of age group, provider type, and geographic location.

Applicable Statutes and Regulations

Title 480 of the Nebraska Administrative Code 4-003.05(A)

Rates for Extra Child Care for Children with Disabilities are set by the Department. The parent or primary caregiver of the child is responsible for the cost of routine child care. That amount is determined by the provider rates published by the Child Care Subsidy Program in Title 392 for care provided in the provider's home or a center. For care provided in the child's home, the license-exempt family child care home rate chart applies to individual providers and the child care center chart applies to agency providers. The Department is responsible for payment of the approved cost of the service above the basic cost of routine child care.

Nebraska Revised Statute §43-536

In determining the rate of reimbursement for child care, the Department of Health and Human Services shall assess the market rates and costs for provision of services of the child care providers in the state. The department shall adjust the reimbursement rate for child care every odd-numbered year at a rate not less than the seventy-fifth percentile of the current market rate.

45 Code of Federal Regulations §98.45(a)

The Lead Agency shall certify that the payment rates for the provision of child care services under this part are sufficient to ensure equal access, for eligible families in the area served by the Lead Agency, to child care services comparable to those provided to families not eligible to receive CCDF (Child Care and Development Fund) assistance or child care assistance under any other Federal, State, or tribal programs.
