**FROM:** Tony Green, Director, Division of Developmental Disabilities, DHHS  
**DATE:** June 21, 2022  
**RE:** Developmental Disabilities FY 2023 Provider Rate Increase

Pursuant to recently passed Legislative Bills, LB1011 and LB1014, the Division of Developmental Disabilities (DDD) will implement new DD Provider Rates as outlined in statute. The rate increase is effective **July 1, 2022**, and will be implemented via updated service authorizations by the Service Coordinators. Agency and Independent providers can begin billing on those authorizations for services delivered after July 1, 2022, as they are entered into Therap.

DDD will implement a rate increase of **17%** for **ALL DD services** for FY23.

In addition, DDD will distribute funds to **DD Agency providers** per LB1014 in the amount of \$20,000,000 for FY23. These funds are to be used for rate increases to a specific list of services that are outlined in LB1014. This amount of funding will result in an **additional** rate increase of **9%**, bringing the total rate increase to **26%** for just the specified services.

The Rates will be implemented as outlined on the table below:
