

TITLE 471

NEBRASKA MEDICAL ASSISTANCE PROGRAM SERVICES

CHAPTER 9

HOME HEALTH AGENCIES AND SKILLED NURSING SERVICES

001. SCOPE AND AUTHORITY. These regulations govern services provided under the Medical Assistance Act, Nebraska Revised Statute (Neb. Rev. Stat.) §§ 68-901 et seq.

002. DEFINITIONS. The following definitions apply:

002.01 ADVANCED DIRECTIVE. A legal document, ~~including, but not limited to, a living will,~~ signed by a competent person, to provide guidance for medical and health-care decisions in the event the ~~client~~ **beneficiary** becomes incapable to make such decisions.

002.02 HOME HEALTH AGENCY. A person or any legal entity which provides skilled nursing or minimum of one other therapeutic service as defined by **Nebraska Medicaid** ~~the Department~~ on a full-time, part-time, or intermittent basis to person in a place of temporary or permanent residence used as -the person's home.

002.03 HOME HEALTH SERVICES. Services provided to a ~~client~~ **beneficiary** in the ~~client's~~ **beneficiary's** place of residence. The residence does not include a hospital, skilled nursing facility, or nursing facility. A nurse practitioner, physician assistant, or clinical nurse specialist are able to order home health services.

002.04 SKILLED NURSING SERVICE. Skilled nursing services are those services provided by a private duty nurse (PDN) or a nurse employed by a home health agency in a ~~client's~~ **beneficiary's** home or current living arrangement. Skilled nursing services do not include services provided in a hospital, skilled nursing facility, or nursing facility.

003. PROVIDER REQUIREMENTS.

003.01 GENERAL PROVIDER REQUIREMENTS. Providers of home health services must comply with all applicable provider participation requirements codified in **these regulations** ~~471 Nebraska Administrative Code (NAC) 2 and 3. In the event that participation requirements in 471 NAC 2 or 3 conflict with requirements outlined in this chapter, the participation requirements in this chapter will govern.~~

003.02 SPECIFIC PROVIDER REQUIREMENTS.

003.02(A) PLAN OF CARE AND TREATMENT RECORD. The home health agency must maintain a clinical record that includes the plan of care signed by the attending physician, nurse practitioner **(NP)**, physician assistant **(PA)**, or clinical nurse specialist responsible for the ~~client's~~ **beneficiary's** care. The attending physician, nurse practitioner **(NP)**, physician assistant **(PA)**, or clinical nurse specialist and home health agency personnel must review the total plan of care and treatment record at least every 60 days. The home health agency must maintain these records on all **Nebraska Medicaid** clients and make them readily available upon ~~the Department's~~ **Nebraska Medicaid's** request.

003.02(B) COST REPORTS. The home health agency must provide a cost report upon a request made by **Nebraska Medicaid** ~~the Department~~.

003.02(C) LICENSING. Providers of nursing services must be licensed by the Department of Health and Human Services Division of Public Health or by the appropriate licensing agency of the state in which they practice, as an individual registered nurse (RN) or licensed practical nurse (LPN).

003.02(D) PROVIDER DOCUMENTATION. The nurse must maintain records to document services provided and the time worked for which payment is claimed. These records must be available to ~~Nebraska Medicaid the Department~~ upon request. Records must be retained for no fewer than six years for audit purposes. Records must include:

- (i) Current, signed physician, nurse practitioner (NP), physician assistant (PA), or clinical nurse specialist orders for the care provided;
- (ii) Assessment of the client beneficiary's health status;
- (iii) Plan of care;
- (iv) Nurse's notes documenting the care provided; and
- (v) Time sheets documenting the dates and times that care was provided.

003.03 SPECIFIC PROVIDER REQUIREMENTS FOR PRIVATE-DUTY NURSES.

003.03(A) CLIENT BENEFICIARY RECORDS. The private-duty nurse must maintain a medical record in the client's beneficiary's home or current living arrangement which includes the appropriate Form MS-81: ~~Certification and Plan of Care For Private-Duty Nursing.~~

003.03(B) MULTIPLE REGISTERED NURSE (RN) AND LICENSED PRACTICAL NURSE (LPN) PROVIDERS. When more than one registered nurse (RN) or licensed practical nurse (LPN) is providing skilled nursing services for a client beneficiary, the providers and client beneficiary must determine which registered nurse (RN) or licensed practical nurse (LPN) will be the coordinator of services. The coordinator must complete the appropriate Form MS-81: ~~Certification and Plan of Care For Private-Duty Nursing,~~ obtaining physician, nurse practitioner, physician assistant, or clinical nurse specialist orders, obtaining authorization for providing services, and making copies available to the other providers.

003.03(D) PROVIDER REQUIREMENTS. To participate in the Nebraska Medicaid program, the provider must:

- (i) Be a participant in the home health and nursing services program;
- (ii) Be licensed to provide home health care by the Department of Health and Human Services Division of Public Health;
- (iii) Assume full responsibility of the professional management of the client's beneficiary's home health care;
- (iv) Maintain certification;
- (v) Develop the plan of care as identified by client beneficiary;
- (vi) Follow all applicable regulations put in place by ~~Nebraska Medicaid the Department;~~
- (vii) ~~Comply with the requirements of 471 NAC 1; and~~
- (viii) Be a participant in the Medicare home health program; and
- (viii) Accurately document services related to the service plan that are provided to and on behalf of the beneficiary, in the provider Electronic Visit Verification (EVV) system and submit electronic claims for payment.

004. SERVICES REQUIREMENTS.

004.01 GENERAL SERVICE REQUIREMENTS.

004.01(A) MEDICAL NECESSITY. The Department ~~Nebraska Medicaid~~ incorporates the medical necessity requirements outlined in 471 NAC 1 as if fully rewritten herein. Services and supplies that do not meet the requirements in 471 NAC 1 are not covered. Durable medical equipment, prosthetics, orthotics, and medical supplies (DMEPOS) must meet the guidelines outlined in 471 NAC 7. In addition to the medical necessity criteria outlined in 471 NAC 1, ~~a~~ All home health services and skilled nursing services must be:

- (i) Necessary to a continuing medical treatment plan;
- (ii) Prescribed by a licensed physician, nurse practitioner (NP), physician assistant (PA), or clinical nurse specialist; and
- (iii) Recertified by the licensed physician, nurse practitioner (NP), physician assistant (PA), or clinical nurse specialist at least every 60 days.

004.01(B) PRIOR AUTHORIZATION FOR HOME HEALTH SERVICES AND SKILLED NURSING SERVICES. Durable medical equipment, prosthetics, orthotics, and medical supplies (DMEPOS) must meet the requirements and procedures for prior authorization outlined in ~~these regulations~~ 471 NAC 7. All home health agency services must be authorized and the eligibility of the client beneficiary must be verified by the home health agency. The Department ~~Nebraska Medicaid~~ or its designee may grant authorization of home health agency services. To request authorization, the home health agency must submit ~~the appropriate form~~ Form MS-72, Nebraska Home Health Prior Authorization, and submit a copy of the physician, nurse practitioner (NP), physician assistant (PA), or clinical nurse specialist order and the home health agency's plan of care. Skilled nursing services and home health agencies must be authorized under the same criteria however, providers must send requests for authorization electronically using the standard Health Care Services Review - Request for Review and Response transaction (ASC X-12N-278) or by submitting ~~the appropriate form~~ Form MS-81: Certification and Plan of Care For Private Duty Nursing to the ~~Nebraska~~ Medicaid designee. The plan of care must include:

- (i) The client's beneficiary's name, address, ~~Nebraska~~ Medicaid identification number, and date of birth;
- (ii) The dates of the period covered, not exceeding 60 days;
- (iii) The diagnosis;
- (iv) The type and frequency of services;
- (v) The equipment and supplies needed;
- (vi) A brief, specific description of the client beneficiary's needs and services provided;
- (vii) Any other pertinent documentation that justifies the medical necessity of the services; and
- (viii) The plan of care must include a signature or verbal authorization from the physician, nurse practitioner (NP), physician assistant (PA), or clinical nurse specialist at prior authorization submittal. Verbal authorizations must be signed within 30 days.

004.01(C) ELIGIBILITY AND ADVANCE PRACTICE REGISTERED NURSE (APRN) OR PHYSICIAN CERTIFICATION. To be eligible for home health services and skilled nursing services, the attending physician, nurse practitioner (NP), physician assistant (PA), or clinical nurse specialist must certify that based on the client beneficiary's medical

condition, home health services and skilled nursing services are medically necessary and appropriate services to be provided in the home.

004.01(D) FACE-TO-FACE VISIT. The physician, nurse practitioner (NP), physician assistant (PA), or clinical nurse specialist must document a face-to-face encounter that is related to the primary reason the beneficiary requires home health services and occurred no more than 90 days before or 30 days after the start of services.

004.01(E) SECOND VISIT ON SAME DAY. The medical necessity of a second visit on the same date of service must be documented. Substantiating documentation for skilled nursing services must be submitted with the appropriate form, MC-82N, or the request for prior authorization with the standard Health Care Claim: Professional Transaction (ASC X12N 837).

004.01(F) SERVICES PROVIDED FOR CLIENTS ENROLLED IN NEBRASKA MEDICAID MANAGED CARE. See 471 NAC 1.

004.01(G) HEALTH CHECK SERVICES. See 471 NAC 33.

004.01(H) ADVANCE DIRECTIVES. Nebraska Medicaid-participating home health agencies must comply with applicable state and federal requirements regarding advance directives.

004.02 COVERED SERVICES. Nebraska Medicaid covers the following home health agency services and private duty nursing services:

- (i) Skilled nursing services by:
 - (1) A registered nurse (RN);
 - (2) A licensed practical nurse (LPN);
 - (3) A certified nurse midwife;
 - (4) A nurse practitioner (NP);
 - (5) A physician assistant (PA); or
 - (6) A clinical nurse specialist;
- (ii) Home health aide services by:
 - (1) A nurse aide; or
- (iii) Physical therapy (PT) provided by a licensed physical therapist (PT);
- (iv) Speech therapy provided by a licensed speech-language pathologist;
- (v) Occupational therapy (OT) provided by a licensed occupational therapist (OT); and
- (vi) Durable medical equipment and medical supplies.

004.02(A) USE OF AUTHORIZED HOURS. A client-beneficiary who requires and is authorized to receive home health nursing services in the home setting may use their approved hours outside of the home during those hours when their normal life activities take them out of the home. The Department Nebraska Medicaid will not authorize any additional hours of nursing service beyond what would normally be authorized. If a client-beneficiary requests to receive nursing services to attend school or other activities outside the home, but does not need nursing services in the home, nursing services cannot be authorized.

004.02(B) HOME HEALTH AIDES. A home health aide may provide services to a client-beneficiary in the client's-beneficiary's home to meet personal care needs resulting from

the client's beneficiary's illness or disability. Skilled nursing visits are not a prerequisite for the provision of home health aide services. The services must be:

- (1) Necessary because the care is not available to the client beneficiary without payment by Nebraska Medicaid;
- (2) Necessary to continuing a plan of care;
- (3) Prescribed by a licensed physician, nurse practitioner (NP), physician assistant (PA), or clinical nurse specialist;
- (4) Recertified by the licensed physician, nurse practitioner (NP), physician assistant (PA), or clinical nurse specialist at least every 60 days; and
- (5) Supervised by a registered nurse (RN).

004.02(B)(i) LIMITATION. For extended-hour aide services in home health and nursing services, Nebraska Medicaid the Department limits aide services to 56 hours a week with a maximum of 12 hours in a 24 hour period. Nebraska Medicaid Department approval must be obtained for services in excess of 56 hours a week.

004.02(C) MEDICATIONS. Nebraska Medicaid covers intravenous or intramuscular injections and intravenous feeding. Oral medications are covered only where the complexity of the medical condition (physical or psychological) and the number of drugs require a licensed nurse to monitor, detect, and evaluate side effects. The complexity of the medical condition must be documented and submitted with the plan of care.

004.02(C)(i) PREFILLING INSULIN SYRINGES. The Department Nebraska Medicaid reimburses home health agencies and private duty nurses for prefilling insulin syringes for blind or disabled diabetic client beneficiaries who are unable to perform this task themselves and where there is no one else available to fill the insulin syringe on the client's beneficiary's behalf. The Department Nebraska Medicaid considers this a professional nursing service that must be provided only through a professional nurse visit.

004.02(C)(ii) VITAMIN B-12 INJECTIONS. Vitamin B-12 injections are covered initially once a week for a maximum of six weeks, and then once a month when maintenance is established for the treatment of pernicious anemia and other macrocytic anemias, and neuropathies associated with pernicious anemia.

004.02(D) ADDITIONAL SERVICES FOR DIABETIC CLIENTS-BENEFICIARIES. Nebraska Medicaid covers blood sugar testing and foot care for blind or disabled diabetic client beneficiaries who are unable to perform this task themselves and where there is no one else available to perform the tasks on the client's beneficiary's behalf.

004.02(E) DECUBITUS AND SKIN DISORDERS. Covered when specific physician, nurse practitioner (NP), physician assistant (PA), or clinical nurse specialist orders indicate that skilled care is necessary, or that skilled nursing care is necessary, requiring prescribed medications and treatment.

004.02(F) DRESSINGS. Nebraska Medicaid covers application of dressings when aseptic technique and prescription medications are used.

004.02(G) COLOSTOMY, ILEOSTOMY, AND GASTROSTOMY. These services are covered during immediate postoperative time when maintenance care and control by the

patient **beneficiary** or family is being established. ~~This includes~~ **including** the initial teaching. General maintenance care is not covered.

004.02(H) ENTEROSTOMAL THERAPY. **Nebraska** Medicaid recognizes enterostomal therapy visits as a skilled nursing service.

004.02(I) ENEMAS AND REMOVAL OF IMPACTIONS. **Nebraska** Medicaid covers enemas and removal of impactions when the complexity of the ~~patient~~ **beneficiary's** condition establishes that the skills of a nurse are required.

004.02(J) BOWEL AND BLADDER TRAINING. **Nebraska Medicaid covers** ~~T~~ teaching skills and facts necessary to adhere to a specific formal regimen. General routine maintenance program **ming** or treating is not covered.

004.02(K) URETHRAL CATHETERS AND STERILE IRRIGATIONS. **Nebraska Medicaid** ~~The Department~~ covers insertions and changes when active urological problems are present or when ~~client~~ **the beneficiary** is unable to do physician-ordered irrigations. Routine catheter maintenance care is not covered.

004.02(L) CASTS. Casts are covered if the physician's order evidences more complexity than routine or general supportive care.

004.02(M) DRAW OR COLLECTION OF LABORATORY SPECIMENS. **Nebraska** Medicaid covers the collection of specimens only if based on the ~~client~~ **beneficiary's** medical condition, home health services are medically necessary and appropriate services to be provided in the home.

004.02(N) OBSERVATION AND EVALUATION. **Nebraska** Medicaid covers observation and evaluation requiring the furnishing of a skilled service for an unstable condition. An unstable condition is evidenced by the presence of one of the following conditions:

- (i) An episode in the previous 60 days;
- (ii) A recent acute episode;
- (iii) A well-documented history of noncompliance without nursing intervention; or
- (iv) A significant probability that complications would arise without the skilled supervision of the treatment program on an intermittent basis.

004.02(O) TEACHING AND TRAINING ACTIVITIES. **Nebraska** Medicaid limits postpartum visits for teaching and training to two visits. ~~The Department~~ **Nebraska Medicaid** covers up to two visits of skilled nursing services for teaching or training purposes. The necessity of further visits must be justified by additional documentation evidencing extenuating circumstances that create the need beyond two visits. **Nebraska** Medicaid covers skilled nursing visits for teaching or training that require the skills or knowledge of a nurse. The ~~client~~ **beneficiary** must have a medical condition that has been diagnosed and treated by a physician, nurse practitioner **(NP)**, physician assistant **(PA)**, or clinical nurse specialist, and there must be a physician, nurse practitioner **(NP)**, physician assistant **(PA)**, or clinical nurse specialist order for the specific teaching and training. Visits are covered on an individual basis. The provider must maintain specific documentation of both the need for the teaching or training, and the teaching or training provided. Documentation must be submitted along with the plan of care. Teaching or training can occur in the following areas:

- (i) Injections;

- (ii) Irrigating of a catheter;
- (iii) Care of ostomy;
- (iv) Administration of medical gases;
- (v) Respiratory treatment;
- (vi) Preparation and following a therapeutic diet;
- (vii) Application of dressing to wounds involving prescription medications and aseptic techniques;
- (viii) Bladder training;
- (ix) Bowel training;
- (x) Use of adaptive devices and special techniques when loss of function has occurred;
- (xi) Postpartum visits;
- (xii) Care of a bed-bound patient; and
- (xiii) Performance of body transfer activities.

004.02(P) OCCUPATIONAL THERAPY (OT), PHYSICAL THERAPY (PT), AND SPEECH-LANGUAGE PATHOLOGY AND AUDIOLOGY SERVICES, HEARING, AND LANGUAGE THERAPY. Nebraska Medicaid covers occupational therapy (OT), physical therapy (PT), and speech, hearing, and language therapy as a home health agency service only when the services meet the requirements in accordance with these regulations 471 NAC 14 and 23.

004.02(Q) DURABLE MEDICAL EQUIPMENT, PROSTHETICS, ORTHOTICS, AND MEDICAL SUPPLIES (DMEPOS). Durable medical equipment, prosthetics, orthotics, and medical supplies (DMEPOS) provided by a home health agency or any skilled nursing services must meet all requirements outlined in these regulations 471 NAC 7. The Department Nebraska Medicaid covers medically necessary durable medical equipment, prosthetics, orthotics, and medical supplies (DMEPOS) which meets program guidelines when ordered by a physician, nurse practitioner (NP), physician assistant (PA), or clinical nurse specialist.

004.02(R) EXTENDED-HOUR NURSING SERVICES. Provision of extended-hour nursing services must be authorized by Nebraska Medicaid the Department or its designee. Extended-hour nursing services are authorized only when the client's beneficiary's care needs must be provided by skilled nursing personnel in the absence of the caregiver or parents. Clients Beneficiaries are authorized 56 hours a week for a maximum of 12 hours a day in a 24 hour period.

004.02(R)(i) EXTENDED-HOUR NURSING SERVICES FOR ADULTS. Clients Beneficiaries are authorized only 56 hours a week for a maximum of 12 hours a day in a 24-hour period. Clients Beneficiaries are only authorized 56 hours a week. Changes in the client's beneficiary's condition or schedule of the caregiver may require a reevaluation of the approved nursing hours. The Department Nebraska Medicaid will authorize the following service:

- (1) Patients Beneficiaries that are chronically ventilator dependent, 24 hours per day, in which interruption from life sustaining ventilation cannot be tolerated, may qualify for additional hours based on medical necessity as deemed appropriate by Nebraska Medicaid the Department.

004.02(R)(ii) EXTENDED-HOUR NURSING SERVICES FOR CHILDREN. Children must have documented medical needs, which cannot be met by a traditional child-care

provider system. When providing extended-hour nursing care, Nebraska Medicaid the Department will authorize coverage for a maximum of 56 hours a week, depending upon the complexity of a client beneficiary's care or as approved by the Department. Children who seek Early and Periodic Screening, Diagnosis & Treatment (EPSDT) services and are deemed to have a medical necessity are not limited to certain hours as outlined in 471-NAC-33. A maximum of 12 hours may be approved in a 24-hour period. Changes in the client's beneficiary's condition or schedule of the caregiver or parents may require a reevaluation of the approved nursing hours. If a parent works from home, they can request home health services for a child with disabilities during their working hours.

004.02(R)(iii) NURSING COVERAGE AT NIGHT. Caregivers or families may be eligible for night hours if the client beneficiary requires procedures on an ongoing basis throughout the night hours. As used in this chapter, night hours refer to the period after the client beneficiary has gone to bed for the day. Day and evening hours refer to the period of time before the client beneficiary goes to bed for the day. Night hours will be authorized only if the monitoring and treatments cannot be accomplished during day and evening hours. The medical necessity for monitoring and treatments during the night hours must be reflected in the physician, nurse practitioner (NP), physician assistant (PA), or clinical nurse specialist orders and nursing notes. If a scheduled night shift is cancelled by the agency, the caregiver or family may reschedule those hours with the home health agency within the next 24 hours. When that is not possible, they may reschedule the hours within the 48 hours following the missed shift.

004.03 NON-COVERED SERVICES.

004.03(A) MEDICATIONS. Nebraska Medicaid does not cover injections that can be self-administered, drugs not considered an effective treatment for a condition given, and when a medical reason does not exist for providing the drug by injection rather than by mouth.

004.03(B) DECUBITUS AND SKIN DISORDERS. Nebraska Medicaid does not cover preventative and palliative measures for minor decubiti, usually Stage I or Stage II.

004.03(C) TEACHING AND TRAINING ACTIVITIES. Nebraska Medicaid does not cover visits made solely to remind or emphasize the need to follow instructions or when services are duplicated.

004.03(D) DRESSINGS. Nebraska Medicaid does not cover visits made to dress non-infected closed postoperative wounds or chronic controlled conditions.

004.03(E) STUDENT NURSES. Nebraska Medicaid does not cover skilled nursing visits by student nurses who are enrolled in a school of nursing and not employed by the home health agency, unless accompanied by a registered nurse (RN) who is an employee of the home health agency.

004.03(F) SUPERVISORY VISITS. Skilled nursing visits required for the supervision of licensed practical nurse (LPN) or aide services may not be billed as a skilled nursing visit. The cost of supervision is included in the payment for the licensed practical nurse (LPN) or aide service.

005. BILLING AND PAYMENT FOR HOME HEALTH AGENCIES.

005.01 BILLING.

005.01(A) GENERAL BILLING REQUIREMENTS. Providers must comply with all applicable billing requirements codified in 471 NAC 2 and 471 NAC 3 including all applicable billing requirements for the Electronic Visit Verification (EVV) system. In the event the individual billing requirements in 471 NAC 2 and 471 NAC 3 conflict with billing requirements outlined in this chapter, the individual billing requirements in this chapter will govern.

005.02(B) SPECIFIC BILLING REQUIREMENTS.

005.02(A)4(B)(i) BILLING INSTRUCTIONS. The provider must bill Nebraska Medicaid, using the appropriate claim form or electronic format, in accordance with the billing instructions. The signed plan of care must be submitted with the claim. Healthcare Common Procedure Coding System (HCPCS) and Current Procedural Terminology (CPT) procedure codes used by Nebraska Medicaid are listed in the Nebraska Medicaid Practitioner Fee Schedule. Durable medical equipment and medical supplies are billed under the home health agency provider number.

005.024(B)(ii) PRIVATE DUTY NURSING. Registered nurse (RN) and licensed practical nurse (LPN) providers must submit electronically using the appropriate form standard Health Care Claim Professional transaction (ASC X12N 837) or use Form MC-82-N: Private Duty Nurse Claim Form. The signed plan of care must be submitted with the claim.

005.02 PAYMENT.

005.032(A) GENERAL PAYMENT REQUIREMENTS. Nebraska Medicaid will reimburse the provider for services rendered in accordance with the applicable payment regulations codified in 471 NAC 2 and 471 NAC 3. Providers must comply with all applicable billing requirements codified in 471 NAC 2 and 471 NAC 3. In the event the individual payment regulations in 471 NAC 3 conflict with payment regulations outlined in this chapter, the individual payment regulations in this chapter will govern. Nebraska Medicaid will not pay for services that were not performed during the actual hours noted by the provider in the Electronic Visit Verification (EVV) system.

005.042(B) SPECIFIC PAYMENT REQUIREMENTS. Nebraska Medicaid pays for medically prescribed and Nebraska Medicaid Department-approved home health agency services provided by Medicare-certified home health agencies.

005.04(A)2(B)(i) REIMBURSEMENT. Durable medical equipment and medical supplies are reimbursed according to the payment methodology outlined in these regulations 471 NAC 7. Nebraska Medicaid pays for covered home health agency services and nursing services at the lower of:

- (1) The provider's submitted charge;
- (2) The allowable amount for each respective procedure in the Nebraska Medicaid Home Health Agency Fee Schedule in effect for that date of service; or
- (3) The maximum allowable fee as established by the Department in the Nebraska Medicaid Nursing Services Fee Schedule in effect for that date of service.

005.04(B)(ii) MEDICARE COVERAGE. Medicare coverage is considered to be the primary source of payment for home health agency services for eligible individuals age 65 and older and for certain disabled beneficiaries. Nebraska Medicaid does not make payment for services denied by Medicare for lack of medical necessity. Nebraska Medicaid may cover services denied by Medicare for other reasons if the services are within the scope of Nebraska Medicaid. Claims submitted to Nebraska Medicaid the Department for services provided to Medicare-eligible clients beneficiaries must be accompanied by documentation, which verifies the services are not covered by Medicare. To be covered by Nebraska Medicaid, these services must be provided in accordance with all requirements in limitations outlined in this chapter. If Nebraska Medicaid is not the primary payment source, the service(s) are not subject to Electronic Visit Verification (EVV) requirements.

005.04(C)(2)(B)(iii) MEDICAL SUPPLIES. Payment for supplies normally carried in the nursing bag and incidental to the nursing visit is included in the per visit rate. This includes but is not limited to disposable needles and syringes, disposable gloves, applicators, tongue blades, cotton swabs, 4 x 4's, gauze, bandages. Medical supplies not normally carried in the nursing bag may be provided by pharmacies, medical suppliers, or the home health agency under requirements outlined in these regulations 471 NAC 7.

005.04(D)(2)(B)(iv) NURSING SERVICES, REGISTERED NURSE (RN) AND LICENSED PRACTICAL NURSE (LPN), FOR ADULTS AGE 21 AND OLDER. In addition to the requirements and limitations outlined in this chapter, Nebraska Medicaid applies the following limitations to skilled nursing services, for adults age 21 and older:

- (1) Per diem reimbursement for skilled nursing services for the care of ventilator-dependent clients beneficiaries must not exceed the average ventilator per diem of all Nebraska nursing facilities, which are providing that service. This average will be computed using nursing facility's ventilator interim rates that are effective January 1 of each year, and are applicable for that calendar year period; and
- (2) Per diem reimbursement for all other in-home skilled nursing service will not be changed by Nebraska Medicaid the Department for purposes of the Nebraska Medicaid Case Mix System. A record modification may replace an existing record in the Centers for Medicare and Medicaid Services (CMS) Minimum Data Set (MDS) data-base, but the Department will not replace the existing record in the Nebraska Medicaid Case Mix system. The record modification will be processed by Nebraska Medicaid the Department as an original record. This means that Nebraska Medicaid the Department will process the record in the usual manner if the record is not already in the Case Mix system. Nebraska Medicaid The Department will reject the record as a duplicate if the record has already been accepted into the Case Mix system. Nebraska Medicaid The Department will inactivate a discharge or re-entry tracking record but not an assessment. If determined by Nebraska Medicaid the Department to be medically necessary, the per diem reimbursement may exceed this maximum for a short period of time. However, in these cases, the 30-day average of the in-home nursing per diems will not exceed the maximum above. The 30 days are defined to include the days which are paid in excess of the maximum plus those days immediately following, totaling 30.

005.04(E)2(B)(v) EXTENDED HOME HEALTH HIGH-TECH RATES. High-tech hourly rates are approved when clients require:

- (1) Ventilator care;
- (2) Tracheostomy care that involves frequent suctioning and monitoring; or
- (3) Care and observation of unstable, complex medical conditions requiring advanced nursing knowledge and skills.
