

## ONE-PAGER FEEDBACK SURVEY

Thank you for reviewing the **GAGE, OTOE, and SALINE COUNTY** one-pagers and participating in this regional effort to improve breast and cervical cancer screening access and outcomes. This survey will help our team ensure the summaries are accurate, relevant, and useful. Your input will continue to shape the next steps in this process and the broader regional statewide partner engagement efforts.

Please take a few minutes to complete this short survey. Your insights are valuable, even if you were unable to attend the recent November 13th meeting.

**1. After reviewing your county's one-pagers, how well do you think it reflects the current challenges and opportunities related to breast and cervical cancer screening in your area?**

- Very Well
- Somewhat
- Not Well
- Not sure / I need more context
- Other (please specify)

**2. Which of the identified Priority Focus Areas do you think are most important for your county/region? (Select all that apply)**

- Elevating positive outcomes through trusted community storytelling
- Reducing structural barriers to care delivery
- Reengaging and assessing opportunities for local screening
- Increasing awareness of personal risk and best options for screening
- Empowering communities to make informed health choices
- Family-focused, community-based events; other non-traditional partnerships
- Improve Workplace culture to promote wellness

**3. Which of the identified Priority Focus Areas do you think are more ready for implementation in your county/region?**

- Elevating positive outcomes through trusted community storytelling
- Reducing structural barriers to care delivery
- Reengaging and assessing opportunities for local screening
- Increasing awareness of personal risk and best options for screening
- Empowering communities to make informed health choices
- Family-focused, community-based events; other non-traditional partnerships
- Improve Workplace culture to promote wellness

**4. What challenges or barriers can impact successful implementation of these Priority Focus Areas?**

{open ended question}

**5. For each county one-pager, under the Data/Screening section: it lists a number of estimated program-eligible (EWM Program) of females for breast and cervical cancer screening. What are your suggestions for messaging or recruitment strategies for these particular women?**

{open ended question}

**6. Is there any important context or insight missing from the one-pagers that you feel should be added?**

**If so, please answer below:**

{open ended question}

**7. Are there any partners or organizations that should be engaged based on your local knowledge?**

{open ended question}

**8. How would you prefer to stay engaged in this process going forward? (select all that apply)**

- Email updates or newsletters
- Virtual meetings or check-ins
- In-person meetings
- Participating in workgroups or implementation teams when relevant
- 1:1 Follow-up (via phone or Zoom)
- I would like to stay informed
- Other (please describe)

**9. Would you be interested in participating in future GAGE, OTOE, and SALINE COUNTY meetings?**

- Yes
- No
- Maybe

**10. What time of day is best for you to fully attend virtual meetings?**

- Morning (before noon)
- Midday (12-2 pm)
- Afternoon (2-5 pm)

**11. I am excited about this work and open to discussing strategies. Please leave your contact information below or email: [tracey.bonneau@nebraska.gov](mailto:tracey.bonneau@nebraska.gov)**  
**{open ended question}**

**12. Please share any other feedback or suggestions related to the one-pager or overall screening improvement efforts.**  
**{open ended question}**
