

Nebraska Long Term Care Coronavirus Testing Results

LTCF Aggregate Report

- Sent to LTC Facility email designated on the intake form.
- Offers aggregate counts only.
- Requires that facility enter the facility license number for registration of each staff and resident prior to test.

Staff Results

- When staff register, they should enter the email they want their result notification to go to.
- Staff have the option to share their test results with the facility.
- Contact call center at 402-207-9377 to resend your result access code or can provide the staff person their results over the phone.
- Don't forget to include the facility license number when you register. This is important in order for your test to be counted in the aggregate report.

Resident Results

- If a LTC facility needs to test residents, they should enter the facility email address to obtain the individual results for those residents.
- Facilities will need to access resident results individually.
- Contact call center 402-207-9377 to resend the result access code.
- Don't forget to include the facility license number when you register. This is important in order for your test to be counted in the aggregate report.
