

Cost Proposal

RFP 112209 O3

Fee for Service Claims Management and Processing – Optional Services

Bidder must provide all-inclusive pricing based on a per claim rate, pharmacy claim processing at a per claim rate, and prior authorization services at a per authorization request rate. The pricing will be the rate for the initial year of the contract and will increase two (2) percent for each remaining year of the contract, including optional renewals and extensions. MLTC may award this optional scope of work to one (1) of the awarded MCOs for the entire scope of work or any of the component parts. Bidder must provide pricing for the initial year for each rate.

In order to assist with obtaining the best pricing information, DHHS has provided an estimated number of claims, but does not guarantee a contractor would receive this many claims.

Description	Estimated Claims	Pricing for Initial Year
Per Claim Rate (physical health, behavioral health, and dental services)	220,000	
Pharmacy Claim Processing at a Per Claim Rate	78,000	
Per Authorization Request Rate	3,200
