Clinical Demonstration Project Goals

- Enhance early screening of behavioral health disorders in childhood and adolescence
- Increase the number of clinics utilizing integrated behavioral health in primary care (especially in rural/underserved areas)
- Develop a consultation service network between primary care and the behavioral health expert team
- Utilize telehealth and phone by consultation team to increase access to mental/behavioral health services
- Educate providers and expert team on screening and telehealth
- Increase diversity and cultural competence of the primary care behavioral health providers

Progress: Screening

- Developed a questionnaire to survey primary care providers on current screening practices
- Screening questionnaire development team:
 - Holly Roberts, Ph.D.
 - Therese Matthews, MSN, Ph.D.
 - Cynthia Ellis, M.D.
 - Christian Klepper, Psy.D.
 - Dejun Su, Ph.D.

Progress: Increase Behavioral Health In PC

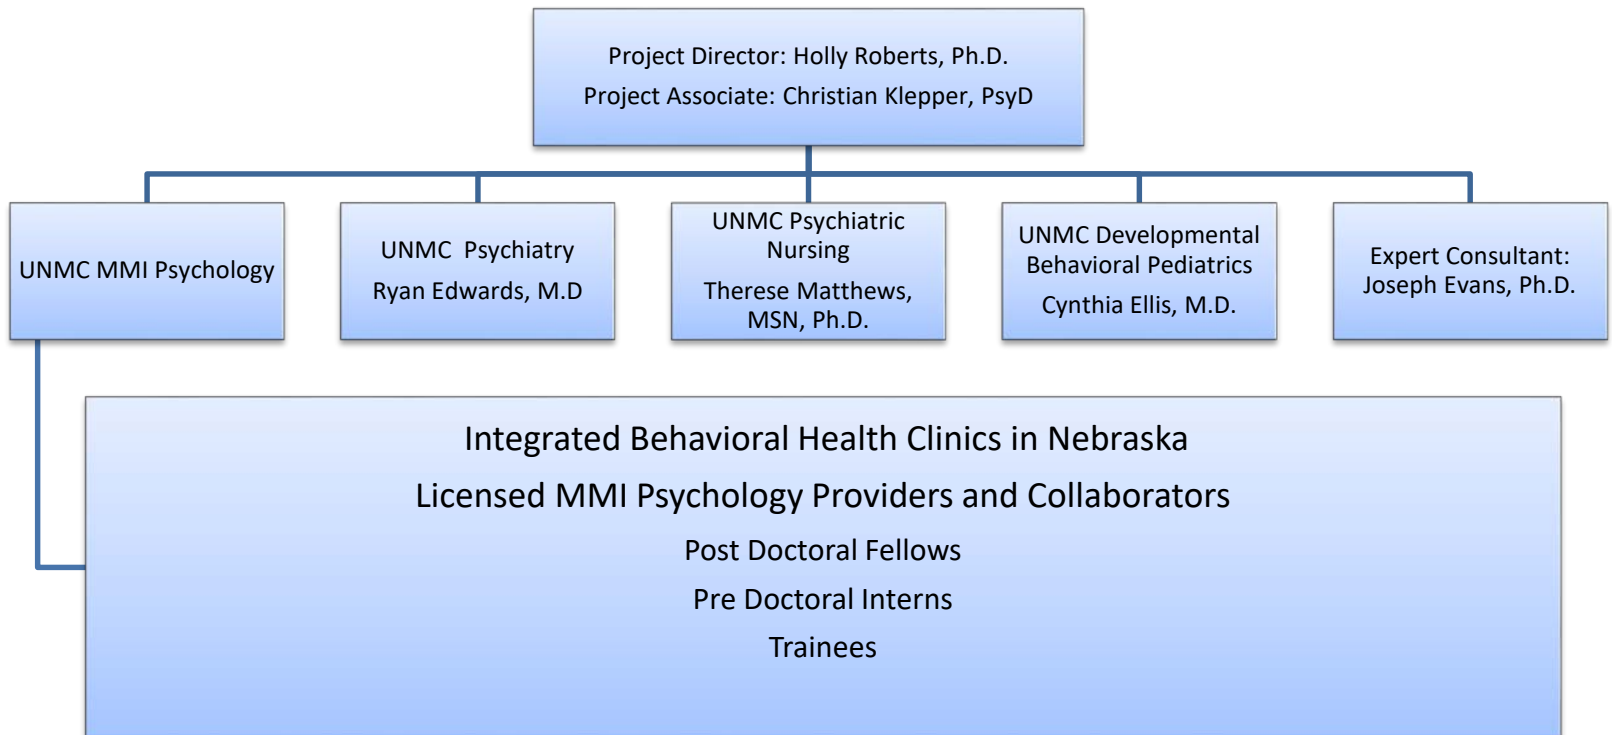

- Deployed post doctoral fellows in rural integrated primary care sites (Chadron/Alliance, Columbus, Omaha)
- Ongoing effort for expansion of behavioral health providers integrated in primary care
- Most recent clinic development:
 - Great Plains Health (North Platte, NE) in November 2018
 - Beatrice/Gage County Hospital (Wymore, NE) projected in July 2019
 - Memorial Community Hospital (Blair, NE) presentation in August 2018
 - Cass County, NE expansion

Pediatric Mental Health Care Access Program Organization

Clinical Demonstration Team Organizational Chart

Progress: Develop an Expert Consultation Team

- Holly Roberts, Ph.D.
- Christian Klepper, PsyD.
- Joseph Evans, Ph.D.
- Cynthia Ellis, M.D.
- Therese Mathews, Ph.D., APRN
- Ryan Edwards, M.D.

Progress: Develop an Expert Consultation Team

- The team has met and has ongoing communication regarding the expert consultation service
 - Development of the guidelines of the service (meetings and electronic correspondence to refine consultation service)
 - Development of a schedule for the team to respond to consultation requests
 - Development of a website on the UNMC/MMI website for requests
 - Implementation of data for tracking the service on the webpage
 - Implementation of Qualtrics to record data
 - Preview of the website will be available in the next week

Progress: Use of Telehealth for Consultation Services

- Zoom
 - HIPAA compliant web-based (telehealth) platform
 - Training has started with the expert team on the use of Zoom
 - Will be ensuring the Zoom will be useful in rural areas

Next Steps

- Meet with DHHS and Dejun Su to discuss
 - Data tracking for the project
 - Finalize screening questionnaire
 - Website preview
 - Qualtrics preview
 - Marketing materials for consultation service
