

**We Need Your Voice!**

The Nebraska Department of Health and Human Services (DHHS) has released an invitation for public input on the Title V MCH Block Grant application to the federal government.

The Title V Maternal Child Health grant pays for programs and systems work that focus on: women of reproductive years and during pregnancy; mothers; infants; children and youth (including children/youth with special health care needs); and their families.

Nebraska's action plan was created by DHHS with the help of stakeholders. This action plan lists Nebraska's ten priorities needs and objectives and strategies to impact each need. The PDF detailing the 2024 plan has been simplified from past years to increase public response. Readers can react to the entire proposed plan or parts of it.

We ask that you provide your feedback via [short survey HERE](#) by June 3<sup>rd</sup>, 2024. We need your suggestions to help the Title V team develop the grant application! The action plan will begin on October 1, 2024.

This request is brought to you by the [Title V MCH Block Grant](#). For information about other Maternal and Child Health topics, check out the federal [Maternal Child Bureau](#). General comments and questions are welcome any time. Visit [Nebraska Title V MCH](#) online to learn more.
