***Daily rates equal the daily net amount from Medicaid

These services are only billable if the participant is eligible and pre-authorized through the waiver.

The facility must notify the Service Coordinator by the next working day of a medical absence in which a client is admitted to a hospital or nursing facility. This notice is required in order for the Services Coordinator and Central Office to determine continued appropriateness of the assisted living authorization. Failure to report medical absences to the Service Coordinator may result in the facility being required to reimburse the Department for days the client was out of the facility for medical reasons. **Failure to report medical absences to the Service Coordinator and on the claim may result in sanctions.**

Providers may notice a minor difference between the published payment amount on the fee schedule and the actual payment amount. The payment system uses seven decimal places in the reimbursement calculation, but the fee schedule publishes only the first two decimal places.
